#### **1.2 Aims of Plan**

- (1) This Plan aims to make local environmental planning provisions for land in Coffs Harbour City Centre in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
- (2) The particular aims of this Plan are as follows:
  - (a) to strengthen Coffs Harbour City Centre's position as an eminent regional centre by creating employment opportunities for tourism, commerce, education, health care, culture and the arts,
  - (b) to create a highly liveable urban place, through promotion of design excellence in all elements of the built environment and public domain,

- (g) to give effect to the desired outcomes, strategic principles, policies and actions relevant to the Coffs Harbour City Centre contained in the Council's adopted strategic planning documents.

### 1.3 Land to which Plan applies

Notes in this Plan are provided for guidance and do not form part of this Plan.

### 1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

### 1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
  - (a) approved by the Minister when the map is adopted, and
  - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

**Note.** No local environmental plans are entirely repealed under this provision:

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

**1.8A Savings provision relating to development applications**

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note.** However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

**1.9 Application of SEPPs**

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.

## 2011 No 595

Clause 2.3 Coffs Harbour City Centre Local Environmental Plan 2011

Part 2 Permitted or prohibited development

---

### 2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone:
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

#### Notes.

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

### 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) Before granting development consent, the consent authority:
  - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and

- 
- (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes.

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

**Note.** The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note.** If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2011 No 595

Clause 2.8 Coffs Harbour City Centre Local Environmental Plan 2011

Part 2 Land Use Table

---

### 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 30 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

### Land Use Table

**Note.** A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

*State Environmental Planning Policy (Affordable Rental Housing) 2009* (including provision for secondary dwellings)

The section states that exempt development:

- (a) must be of minimal environmental impact, and
  - (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
  - (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).
- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

- (6) A heading to an item in Schedule 2 is part of that Schedule.

### 3.2 Complying development

**Note.** Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

  - (e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment, Climate Change and Water in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the *Threatened Species Conservation Act 1995*)), or
  - (f) the development is on land identified as an environmentally sensitive area.
- (1) The objective of this clause is to identify development as complying development.
  - (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:
    - (a) the development standards specified in relation to that development, and
    - (b) the requirements of this Part,is complying development.

**Note.** See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- 
- (3) To be complying development, the development must:
    - (a) be permissible, with development consent, in the zone in which it is carried out, and
    - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and

  - (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.
  - (5) A heading to an item in Schedule 3 is part of that Schedule.

### 3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause:  
***environmentally sensitive area for exempt or complying development***  
 means any of the following:

## **Part 4 Principal development standards**

### **4.1 Minimum subdivision lot size**

- (1) The objectives of this clause are as follows:
  - (a) to ensure that lot sizes have a practical and efficient layout to meet their intended use.
- (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.
- (4A) For the purpose of calculating the area of a battle-axe lot or other lot with an access laneway, the area of the access laneway is to be excluded.

### **4.1AA Minimum subdivision lot size for community title schemes**

[Not adopted]

### **4.1B Minimum lot size for dual occupancy in Zone R2**

- (1) The objective of this clause is to achieve planned residential density in Zone R2 Low Density Residential.
- (2) Despite any other provision of this Plan, development consent may only be granted to development for the purposes of dual occupancy on a lot in Zone R2 Low Density Residential if the area of the lot is equal to or greater than 800 square metres.
- (3) For the purpose of calculating the area of a battle-axe lot or other lot with an access laneway, the area of the access laneway is to be excluded.

### **4.2 Rural subdivision**

[Not applicable]

### **4.3 Height of buildings**

- (1) The objectives of this clause are as follows:
  - (a) to establish the maximum height for buildings,
  - (b) to ensure that building height relates to the land's capability to provide and maintain an appropriate urban character and level of amenity,

## 2011 No 595

Clause 4.4 Coffs Harbour City Centre Local Environmental Plan 2011

Part 4 Principal development standards

- 
- (c) to ensure that taller development is located in more structured urbanised areas that are serviced by urban support facilities,
  - (d) to require the height of future buildings to have regard to heritage sites and their settings, and their visual interconnections,
  - (e) to enable a transition in building heights between urban areas having different characteristics,
  - (f) to limit the impact of the height of a building on the existing natural and built environment,
  - (g) to encourage walkability and less car dependency by promoting greater population density in urban areas.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

### 4.4 Floor space ratio

- (1) The objectives of this clause are as follows:
- (a) to define the allowable development density of a site,
  - (b) to encourage increased building densities through site amalgamation at certain locations in the area of Coffs Harbour City Centre.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the Floor Space Ratio Map.
- (2A) Despite subclause (2), if the maximum floor space ratio for a building on land is shown on the Floor Space Ratio Map as the ratio specified in Column 1 of the Table, the maximum floor space ratio for that building is the amount specified opposite in:
- (a) if the site area for the development is less than or equal to 600 square metres—Column 2 of the Table, or
  - (b) if the site area for the development is greater than 600 square metres but less than or equal to 1,500 square metres—Column 3 of the Table.

**Table—Floor Space Ratio**

Column 1	Column 2	Column 3
2.25:1	1:1	$1 + (1.25 \times X):1$
2.5:1	1:1	$1 + (1.5 \times X):1$
3:1	1:1	$1 + (2 \times X):1$

---

Column 1	Column 2	Column 3
3.7:1	1:1	$1 + (2.7 \times X):1$
4.5:1	1:1	$1 + (3.5 \times X):1$

---

- (2B) For the purposes of Column 3 of the Table to subclause (2A), X is to be calculated in accordance with the following formula:

$$X = (\text{the site area in square metres} - 600) / 900$$

**Note.** The maximum potential floor space may not be achievable on small lots unless amalgamated to create a larger site area.

#### 4.5 Calculation of floor space ratio and site area

##### (1) Objectives

The objectives of this clause are as follows:

- (a) to define *floor space ratio*,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
  - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
  - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
  - (iii) require community land and public places to be dealt with separately.

##### (2) Definition of “floor space ratio”

The *floor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

##### (3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the *site area* is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

## 2011 No 595

Clause 4.5 Coffs Harbour City Centre Local Environmental Plan 2011

Part 4 Principal development standards

---

(4) **Exclusions from site area**

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions**

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included**

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered**

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings**

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”**

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

---

(10) **Covenants affect consolidated sites**

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (*affected land*), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development, the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) **Definition**

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

**4.6 Exceptions to development standards**

- (1) The objectives of this clause are as follows:
  - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
  - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
  - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.

## 2011 No 595

Clause 4.6 Coffs Harbour City Centre Local Environmental Plan 2011

Part 4 Principal development standards

---

- (4) Development consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and
  - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.

## Part 5 Miscellaneous provisions

### 5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (***the owner-initiated acquisition provisions***).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 8 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Roads and Traffic Authority
Zone E1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <i>National Parks and Wildlife Act 1974</i>

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

**Note.** If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for that land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the *Land Acquisition (Just Terms Compensation) Act 1991*).

## 5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

**Note.** Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
  - (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

**Note.** In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

## 5.3 Development near zone boundaries

- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
  - (a) the development is not inconsistent with the objectives for development in both zones, and
  - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the Acid Sulfate Soils Map as being of the class specified for those works.

<b>Class of land</b>	<b>Works</b>
----------------------	--------------
