State Environmental Planning Policy Amendment (Standard Instrument) 2011

under the

Environmental Planning and Assessment Act 1979

Her Excellency the Governor, with the advice of the Executive Council, has made the following State environmental planning policy under the Environmental Planning and Assessment Act 1979.

BRAD HAZZARD, MP
Minister for Planning and Infrastructure
1 Name of Policy

This Policy is State Environmental Planning Policy Amendment (Standard Instrument) 2011.

2 Commencement

This Policy commences on the day on which it is published on the NSW legislation website.

3 Repeal of Policy

(1) This Policy is repealed on the day following the day on which this Policy commences.

(2) The repeal of this Policy does not, because of the operation of sections 5 (6) and 30 of the Interpretation Act 1987, affect any amendment made by this Policy.

4 Maps

Each map adopted by Port Macquarie-Hastings Local Environmental Plan 2011 that is specified in Column 1 of the following Table is declared by this Plan to be amended or replaced, as the case requires, by the map specified opposite in Column 2 of the Table as approved by the Minister on the making of this Plan:

(a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,

(b) to allow earthworks of a minor nature without requiring separate development consent.
(2) Development consent is required for earthworks unless:
   (a) the work is exempt development under this Plan or another applicable environmental planning instrument, or
   (b) the work is ancillary to other development for which development consent has been given.

(3) Before granting development consent for earthworks, the consent authority must consider the following matters:
   (a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,
   (b) the effect of the proposed development on the likely future use or redevelopment of the land,
   (c) the quality of the fill or the soil to be excavated, or both,
   (d) the effect of the proposed development on the existing and likely amenity of adjoining properties,
   (e) the source of any fill material and the destination of any excavated material,
   (f) the likelihood of disturbing relics,
   (g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

6.1A Earthworks

(1) The objectives of this clause are as follows:
(a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,
(b) to allow earthworks of a minor nature without requiring separate development consent.
(2) Development consent is required for earthworks unless:
   (a) the work is exempt development under this Plan or another applicable environmental planning instrument, or
   (b) the work is ancillary to other development for which development consent has been given.

(3) Before granting development consent for earthworks, the consent authority must consider the following matters:
   (a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,
   (b) the effect of the proposed development on the likely future use or redevelopment of the land,
   (c) the quality of the fill or the soil to be excavated, or both,
   (d) the effect of the proposed development on the existing and likely amenity of adjoining properties,
   (e) the source of any fill material and the destination of any excavated material,
   (f) the likelihood of disturbing relics,
   (g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

Note. The National Parks and Wildlife Act 1974, particularly section 86, deals with disturbing or excavating land and Aboriginal objects.

[29] **Clause 4.1AA**

Insert after clause 4.1:

4.1AA **Minimum subdivision lot size for community title schemes**

(1) The objectives of this clause are as follows:

(a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements,

(b) to ensure that lot sizes in community title schemes are consistent with the desired residential density for different locations,

(c) to ensure that lot sizes in community title schemes are able to accommodate development that is suitable for its purpose and consistent with relevant development controls,
(d) to prevent fragmentation of land that would prevent the achievement of the extent of development and nature of uses envisioned for particular locations,

(e) to prevent an increased traffic and safety impact as a result of increased lots on classified roads,

(f) to minimise any likely impact of subdivision and development on the amenity of neighbouring properties,

(g) to ensure that subdivision reflects and reinforces the predominant subdivision pattern of the area,

(h) to ensure that lot sizes in community title schemes allow buildings to be sited to protect natural or cultural features including heritage items and retain special features such as trees and views.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the *Community Land Development Act 1989* of land in any of the following zones:

(a) Zone RU1 Primary Production,

(b) Zone RU2 Rural Landscape,

(c) Zone RU4 Primary Production Small Lots,

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the Community Land Development Act 1989) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

(3A) Despite subclause (3), the size of any lot resulting from the subdivision of land shown on the Lot Size Map to be within Area 1, Area 2 or Area 3 for the purposes of:  
(a) a dual occupancy that was approved before the making of this Plan and that satisfies any conditions of that approval, or  
(b) 2 or more dwellings where each dwelling is attached to another dwelling by a common wall, or  
(c) 3 or more dwellings, or  
(d) attached dwellings, or  
(e) semi-detached dwellings,  
must not be less than the area shown in Column 2 of the Table to this subclause opposite the relevant Area, or if the lot adjoins a rear or side lane that provides vehicular access to the lot, not less than the area shown in Column 3 of the Table opposite the relevant Area.

[31] Clause 4.1AA
Insert after clause 4.1:

4.1AA Minimum subdivision lot size for community title schemes
(1) The objectives of this clause are as follows:
   (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the Community Land Development Act 1989 of land in any of the following zones:
   (a) Zone RU1 Primary Production,
   (b) Zone RU2 Rural Landscape,
   (c) Zone R2 Low Density Residential,
   (d) Zone R5 Large Lot Residential,
   (e) Zone E2 Environmental Conservation,
   (f) Zone E3 Environmental Management.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the Community Land Development Act 1989) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

(3A) Despite subclause (3), development consent may be granted for the subdivision of a lot for a community title scheme on land identified as “Area 1” on the Lot Size Map if:
   (a) each lot size will be at least 4,000 square metres, and
   (b) each lot will be served by a co-operative scheme for the common disposal of effluent.
[32] **Clause 4.2 Rural subdivision**

Site management
The person having the benefit of the complying development certificate must, during construction, have a sign at the front of the site displaying the builder’s name, licence number and the development consent number.

Inspections during construction
If the Council is the principal certifying authority, the person having the benefit of the complying development certificate must notify the Council at least 48 hours (in writing) or 24 hours (by telephone) before an inspection is required for any of the following:
(a) erosion controls, site works and site set out, before building starts,
(b) placement of piers or foundation before placing footings,
(c) steel reinforcing before pouring concrete,
(d) framework of structure before lining or cladding is fixed,
(e) stormwater drainage and on-site detention before backfilling,
(f) wet areas treated before lining or tiling,
(g) if the development is located in an area not serviced by a reticulated sewerage system, the following additional inspections:
   (i) internal and external drainage,
   (ii) hot and cold water.

Survey certificate

(1) To ensure compliance with approved plans, a survey certificate, prepared by a registered surveyor and stating the following, must be given to the principal certifying authority at the following stages:
   (a) on completion of the floor slab framework before concrete is poured—detailing the location of the structure in relation to the boundaries,
   (b) on completion of the lowest floor—confirming that levels are in accordance with the certificate (which levels must relate to the datum shown on the certificate).

(2) In relation to land shown as “Flood planning area” on the Flood Planning Map, the survey must confirm that the floor level complies with the floor level requirements for the flood planning level in that location.

[42] Clause 7.1A
Insert after clause 7.1:

7.1A Earthworks

(1) The objectives of this clause are as follows:
   (a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,
   (b) to allow earthworks of a minor nature without requiring separate development consent.

(2) Development consent is required for earthworks unless:
   (a) the work is exempt development under this Plan or another applicable environmental planning instrument, or
   (b) the work is ancillary to other development for which development consent has been given.

(3) Before granting development consent for earthworks, the consent authority must consider the following matters:
   (a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,
   (b) the effect of the proposed development on the likely future use or redevelopment of the land,
   (c) the quality of the fill or the soil to be excavated, or both,
   (d) the effect of the proposed development on the existing and likely amenity of adjoining properties,
   (e) the source of any fill material and the destination of any excavated material,
   (f) the likelihood of disturbing relics,
   (g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

Note. The National Parks and Wildlife Act 1974, particularly section 86, deals with disturbing or excavating land and Aboriginal objects.
