(c) is or will be engaged as a contractor or employed in the business of the applicant or operator that is or will be carried on under the authority of the accreditation.

(2) For the purposes of this section, a financial institution is not a close associate by reason only of having a relevant financial interest in relation to a business.

(3) The provisions of this section extend to relevant financial interests and relevant powers even if those interests and powers are not payable, exercisable or otherwise enforceable as a matter of law or equity, but are nevertheless payable, exercisable or otherwise enforceable as a matter of fact.

(4) In this section:

**relevant financial interest**, in relation to a business, means:

(a) any share in the capital of the business, or

(b) any entitlement to receive any income derived from the business, or to receive any other financial benefit or financial advantage from the carrying on of the business, whether the entitlement arises at law or in equity or otherwise, or

(c) any entitlement to receive any rent, profit or other income in connection with the use or occupation of premises on which the business is or is to be carried
on (such as, for example, an entitlement of the owner of the premises at which the business is carried on to receive rent as lessor of the premises).

_relevant position_ means:
(a) the position of director, manager or corporate secretary, or
(b) any other position, however designated, if it is an executive position.

_relevant power_ means any power, whether exercisable by voting or otherwise and whether exercisable alone or in association with others:
(a) to participate in any directorial, managerial or executive decision, or
(b) to elect or appoint any person to any relevant position.

14 Application of Part

This Part does not apply to the following public passenger services:
(a) a service that is provided using aircraft, other than an air transport service,
(b) a service that is provided using a vessel or a train (not being a motor vehicle being used by the operator of a rail passenger service for the carriage of passengers in connection with that service).

Note. For accreditation of public passenger services provided by train (including light rail), see the _Rail Safety National Law (NSW)_ and for provisions relating to ferries or other vessels, see the _Marine Safety Act 1998_.

Division 2 Accreditation offences

15 Operator of public passenger service must be accredited

A person must not operate a public passenger service unless the person is accredited as the operator of that service.
Maximum penalty: 1,000 penalty units.

Note. See section 75 for an additional requirement for the operator of a taxi service to be a member operator of a taxi network.

16 Operator of public passenger service must comply with accreditation conditions

An operator of a public passenger service must not contravene a condition of the operator’s accreditation.
Maximum penalty: 1,000 penalty units.

Division 3 Applications for accreditation

17 Applications for accreditation

(1) The following persons may apply for accreditation as an operator of a public passenger service:
(a) an individual,
(b) 2 or more individuals who intend to carry on the public passenger service jointly under a partnership or other agreement,
(c) a body corporate incorporated under a law of this or any other jurisdiction (including the _Corporations Act 2001_ of the Commonwealth, the _Associations Incorporation Act 2009_ and the _Co-operatives National Law (NSW)_).

(2) An application for accreditation is to be made to the accrediting authority for the public passenger service.

(3) An application is:
(a) to be in a form approved by the accrediting authority, and
(b) to contain the information that the accrediting authority requires to be provided, and
(c) in the case of a body corporate, to specify one or more directors or managers as nominated directors or managers for the purposes of this Part, and
(d) to be accompanied by the fee prescribed by the regulations.

(4) The accrediting authority may, by written notice given to the applicant, require the applicant to provide further information relevant to the application that is specified in the notice.

(5) The accrediting authority may from time to time determine the number of persons who are to be nominated as directors or managers under this section, either generally or in any particular case or class of cases.

18 Determination of applications for accreditation generally

(1) The accrediting authority may determine an application for accreditation as an operator of a public passenger service by granting or refusing the application.

(2) The accrediting authority must not grant an application for accreditation as the operator of a public passenger service unless it is satisfied that the applicant meets the general standards for accreditation or the standards for a current operator.

(3) The general standards for accreditation (other than as the operator of a public passenger service that is an air transport service) are as follows:
   (a) that the applicant is a fit and proper person to be responsible for the management of a public passenger service,
   (b) in the case of a body corporate, that the directors or managers nominated for the purposes of this Part are fit and proper persons to be responsible for the management of a public passenger service,
   (c) that the applicant has demonstrated the capacity to comply with the standards for financial viability, passenger and public safety and vehicle maintenance prescribed by the regulations for any such service or operator,
   (d) in the case of an application to operate a taxi service, that the applicant has demonstrated the capacity to comply with the taxi service standards.

(4) The general standards for accreditation as an operator of a public passenger service that is an air transport service are as follows:
   (a) that the applicant is a fit and proper person to be responsible for the management of a public passenger service,
   (b) in the case of a body corporate, that the directors or managers nominated for the purposes of this Part are fit and proper persons to be responsible for the management of a public passenger service,
   (c) that the applicant and the applicant’s aircraft, pilots and passengers will be adequately insured,
   (d) that the applicant owns, or has sufficient rights to operate, the aircraft to be used by the applicant.

(5) The standards for a current operator are as follows:
   (a) that the applicant is the holder of an accreditation to operate another public passenger service of the same or a different kind,
   (b) that the applicant has demonstrated that the applicant complies with any standards applicable to the accreditation being applied for that are additional to those for the accreditation currently held,
(c) that the applicant is not the subject of any action being taken or proposed to be taken by the accrediting authority relating to an accreditation held by the applicant.

(6) In the case of a joint application for an accreditation, each individual applying for the joint accreditation must meet the requirements for accreditation.

(7) The regulations may prescribe additional standards that are required to be met for accreditation as an operator of a public passenger service, either generally or in a particular case or class of cases.

19 Close associates

The accrediting authority may refuse to grant an accreditation on the ground that a close associate of the applicant has previously held an accreditation (whether for the operation of the same or a different public passenger service), or an air route licence, that has been cancelled.

20 Grants of accreditation

(1) An accreditation to operate a public passenger service granted by an accrediting authority may accredit the operator:
   (a) to operate one or more specified public passenger services, or
   (b) to operate a public passenger service having specified characteristics.

(2) The accrediting authority may grant an application for accreditation unconditionally or subject to the conditions specified by the authority in the accreditation.

Note. The accrediting authority may also vary the conditions of an accreditation at any time (see section 26).

21 Form of accreditation

An accreditation is to be in the form approved by the accrediting authority.

22 Term of accreditation

(1) An accreditation is in force for the period specified by the accrediting authority in the accreditation unless it is sooner cancelled.

(2) An accreditation does not have effect while suspended and the suspension of an accreditation does not affect the day on which the term of an accreditation expires.

23 Renewal of accreditation

(1) An accreditation may be renewed on application to the accrediting authority made before the accreditation expires.

(2) This Act applies to an application for the renewal of an accreditation in the same way as it applies to an application for an accreditation.

24 Notice of accreditation decision

(1) An accrediting authority must give an applicant for accreditation or renewal of an accreditation written notice of the decision on the application.

(2) If notice of a decision is not given to an applicant within 90 days of an application being made, the application is taken to have been refused.

(3) Subsection (2) does not prevent an application from being granted after the period of 90 days has elapsed.
25 Joint accreditation

If 2 or more individuals are jointly accredited as operators of a public passenger service, each of those individuals has the obligations of an operator of that service under this Act or the regulations.

Division 4 Conditions of accreditation

26 Conditions of accreditation generally

(1) An accreditation to operate a public passenger service is subject to the following conditions:
   (a) any conditions imposed by the accrediting authority and in force from time to time,
   (b) any conditions specified by this Act or prescribed by the regulations.

(2) The accrediting authority may at any time, by written notice given to an accredited operator, impose a condition on the accreditation or vary or revoke a condition of the accreditation imposed by the accrediting authority.

(3) The accrediting authority must not impose a condition on an accreditation that is inconsistent with this Act or the regulations.

(4) Without limiting subsection (1), the regulations may prescribe conditions of accreditation relating to reporting occurrences of a specified kind to the accrediting authority or other persons.

27 Changes to nominated directors and managers

(1) An operator of a public passenger service may, by written notice given to the accrediting authority, nominate, or revoke the nomination of, a director or manager for the purposes of this Part.

   Note. An accreditation may be suspended or cancelled if the operator does not meet an accreditation standard, including the requirement that a nominated director or manager be a fit and proper person to be responsible for the management of a public passenger service. An accreditation is automatically suspended if there are no nominated directors or managers for a body corporate.

(2) It is a condition of the accreditation of a body corporate that is an operator of a public passenger service that the operator give written notice to the accrediting authority, within 21 days, if a director or manager of the body corporate nominated for the purposes of this Part dies or ceases to be a director or manager of the body corporate.

28 Operation of regulated air routes

It is a condition of the accreditation of an operator of an air transport service that the operator must not operate a regular air service on a regulated air route unless the operator holds an air route licence for that route.

29 Bus services—drug and alcohol programs and testing

(1) Drug and alcohol program

   It is a condition of an accreditation of an operator of a bus service:
   (a) that the operator prepares and implements a drug and alcohol program for its transport safety employees that complies with guidelines approved by TfNSW for the purposes of this section and published in the Gazette, and
   (b) that the operator ensures that all transport safety employees employed, or contracted, by the operator to perform transport safety work are not under the influence of alcohol or any other drug when about to carry out, or while on
duty for the purposes of carrying out (whether or not carrying out), transport safety work.

(2) The drug and alcohol program is to include any matters required to be included by the guidelines approved by TfNSW for the purposes of this section.

(3) Without limiting subsection (1) (a), the guidelines are to include provisions for or with respect to the following:
   (a) protocols for fair procedures relating to the operation of the drug and alcohol program,
   (b) education and assistance of transport safety employees in relation to the drug and alcohol program.

(4) **Random testing**

RMS may at any time arrange with accredited operators of bus services for the random testing of any person about to carry out transport safety work or on duty for the purposes of carrying out transport safety work for the presence of alcohol or any other drug to ensure that the operators are complying with the conditions imposed by this section.

(5) **Definition**

For the purposes of this section, a transport safety employee is to be regarded as being *about to carry out transport safety work* if the employee:
   (a) has left home or a temporary residence for work (being transport safety work), and
   (b) has not commenced work after having so left home or the temporary residence.

30 **Other Acts not affected by testing provisions**

Nothing in this Act or the regulations derogates from the operation of Division 4 of Part 2 of Schedule 3 to the *Road Transport Act 2013*.

*Note.* Schedule 2 contains regulation-making powers for procedures for testing for alcohol and other drugs.

31 **Bus services—safety management systems**

(1) It is a condition of the accreditation of an operator of a bus service that the operator has, and implements, a safety management system that complies with this section.

(2) The safety management system must be documented and must:
   (a) identify any significant risks that have arisen or may arise from providing the bus service, including carrying out any associated transport safety work, and
   (b) specify the controls (including audits, expertise, resources and staff) that are to be employed by the operator to manage the risks and to monitor safety outcomes in relation to the provision of the bus service, and
   (c) comply with any requirements prescribed by the regulations or set out in any guidelines issued by TfNSW under this section and published in the Gazette.

(3) TfNSW may issue guidelines with respect to policy objectives and safety initiatives to be adopted by operators in safety management systems.

(4) An operator must, if directed to do so by RMS, vary a safety management system.

*Note.* A community transport service that uses buses is also a bus service.
32 Taxi service standards

(1) It is a condition of the accreditation of an operator of a taxi service that the operator comply with the taxi service standards prescribed by the regulations for the purposes of this section.

(2) The taxi service standards may provide for the following:

(a) a requirement that the operator of a taxi service comply with service requirements of the operator’s taxi network or taxi booking service that are necessary to enable the network or booking service to comply with obligations imposed on it under this Act or the regulations,

(b) a requirement that the operator of a taxi service comply with the provisions of the taxi contract determination.

(3) This section does not limit the matters that may be included in the taxi service standards.

Division 5 Variation, suspension or cancellation of accreditation

33 Variation, suspension or cancellation of accreditation generally

(1) The accrediting authority may vary, suspend or cancel the accreditation of an operator if:

(a) the operator does not comply with a standard required to be met for accreditation as the operator of the public passenger service to which the accreditation relates, or

(b) the operator fails to comply with a condition of the accreditation, or

(c) the operator fails to comply with this Act or the regulations or an applicable passenger service contract or air route licence, or

(d) a close associate of the operator has previously held an accreditation (whether for the operation of the same or a different public passenger service), or an air route licence, that has been cancelled, or

(e) for any other reason it thinks fit.

Note. The accrediting authority may also vary the conditions of an accreditation at any time (see section 26).

(2) Without limiting subsection (1), the accrediting authority may take action under this section on the ground that an accredited operator of a public passenger service or a director or manager nominated for the purposes of this Part is not a fit and proper person to be responsible for the management of a public passenger service if the accrediting authority is of the opinion that the operator has failed, on written request given to the operator by the accrediting authority, to provide the accrediting authority with sufficient evidence that the operator, director or manager is a fit and proper person to be responsible for the management of a public passenger service.

(3) The accrediting authority may take action against an operator or person on the ground referred to in subsection (2) without making a written request referred to in that subsection.

34 Additional grounds for action against accreditation of operator of taxi service or hire car service

(1) The accrediting authority may also vary, suspend or cancel the accreditation of an operator of a taxi service if:

(a) the operator fails to comply with a service requirement of the operator’s taxi network or taxi booking service and the accrediting authority is satisfied that the requirement is reasonable and necessary to comply with the obligations
imposed on the taxi network or taxi booking service under this Act or the regulations, or

(b) in the opinion of the accrediting authority, the taxi service has been or is being conducted in a manner that causes danger to the public, or

(c) the holder of the licence for any taxi used by the taxi service does not have a third-party property insurance policy that provides cover that, in the opinion of the accrediting authority, is sufficient for the taxi and is issued by a body corporate authorised under the Insurance Act 1973 of the Commonwealth to carry on insurance business.

(2) The accrediting authority may also vary, suspend or cancel the accreditation of an operator of a hire car service if:

(a) in the opinion of the accrediting authority, the hire car service has been or is being conducted in a manner that causes danger to the public, or

(b) the holder of the licence for any hire car used by the hire car service does not have a third-party property insurance policy that provides cover that, in the opinion of the accrediting authority, is sufficient for the hire car and is issued by a body corporate authorised under the Insurance Act 1973 of the Commonwealth to carry on insurance business.

35 Automatic suspensions

(1) If 2 or more individuals hold a joint accreditation and any one of them dies or ceases to jointly provide the public passenger service:

(a) the accreditation is automatically suspended 21 days after the death or cessation if the accrediting authority has not been notified before that time of the death or cessation, and

(b) the accreditation may be cancelled, suspended or varied under this Act because of the death or cessation (whether before or after any such cessation).

(2) If an accredited operator that is a body corporate ceases to have any directors or managers who are nominated for the purposes of this Part, the accreditation is automatically suspended when the body ceases to have any directors or managers so nominated.
Part 3 Service procurement

Division 1 Passenger service contracts

36 Passenger service contracts

(1) TfNSW may enter into a passenger service contract on behalf of the State for the provision of a public passenger service with an accredited operator of a public passenger service or the operator of a public passenger service who is not required to be accredited under this Act.

(2) TfNSW may enter into a passenger service contract that is subject to a condition precedent that requires a party to obtain an accreditation to operate a public passenger service.

(3) A passenger service contract may relate to, but is not limited to, any of the following:
   (a) a particular area or route,
   (b) one or more modes of transport,
   (c) services for specified passengers or classes of passengers.

(4) TfNSW may invite passenger service contracts by tender or in any other manner TfNSW thinks fit.

(5) A passenger service contract is to specify the term of the contract.

(6) A passenger service contract is not to provide a right to renew the contract.

(7) A passenger service contract may provide for the operator of the public passenger service to have the first right to negotiate a further contract, subject to meeting any specified requirements.

(8) A passenger service contract must provide for the performance standards to be met by the operator of the public passenger service.

37 Further contracts

(1) TfNSW may enter into a further passenger service contract with an operator on, before or after the expiry of the term of a passenger service contract with the operator.

(2) A further contract may be on the same or different terms.

(3) However, nothing in this Part confers a right to or expectation of a further contract.

38 Enforcement of performance standards and civil penalties

(1) Performance standards provided for by a passenger service contract are to be enforced by civil penalty provisions or in any other manner that the contract may provide.

(2) A person who contravenes a provision of a passenger service contract that is enforceable by a civil penalty provision is liable to pay, as a debt due to the State, an amount determined in accordance with the contract as the penalty for the contravention.

(3) A passenger service contract may provide that an amount payable under a civil penalty provision may also be recovered by withholding amounts otherwise payable under the contract and may contain other related provisions.

(4) Subsection (1) does not limit the provisions of a passenger service contract that may be enforced by civil penalty provisions.
In this section:

civil penalty provision means a provision of a passenger service contract that provides for the payment of an amount of penalty for the contravention of a specified provision of the contract.

This section has effect despite any other law.

39 Regular timetabled services must have contract

(1) A person must not operate a public passenger service that is conducted according to regular routes and timetables or according to regular routes and at regular intervals otherwise than under the authority of a passenger service contract.

Maximum penalty: 1,000 penalty units.

(2) This section does not apply to the following public passenger services:

(a) an air transport service,
(b) a bus service or a ferry service conducted according to one or more regular routes, in which each passenger is transported for a distance of not less than 40 kilometres,
(c) a tourist service,
(d) a community transport service.

(3) This section does not apply to an operator of a public passenger service if:

(a) the person is an accredited operator of the public passenger service or is not required to be accredited, and
(b) the service is operated under a subcontract or other arrangement with the holder of the passenger service contract for the service, and
(c) the subcontract or other arrangement is authorised under the passenger service contract.

(4) This section does not apply to a public passenger service exempted by TfNSW by order published in the Gazette. An exemption may be unconditional or subject to conditions specified in the order.

(5) TfNSW must have regard to any applicable policy approved by the Minister for the purposes of subsection (4) before making an order under that subsection.

40 Exclusive rights

(1) A passenger service contract may confer on the operator of a bus service, ferry service or rail passenger service the exclusive right to operate a service conducted according to regular routes and timetables or according to regular routes and at regular intervals in the area or route to which the contract applies.

(2) An exclusive right granted under a contract under this section does not affect any right to provide the following bus, ferry or rail passenger services in the same area or on the same route:

(a) a service conducted according to one or more regular routes, in which each passenger is transported for a distance of not less than 40 kilometres,
(b) a tourist service.

(3) The following are specifically authorised by this Act for the purposes of the Competition and Consumer Act 2010 of the Commonwealth and the Competition Code of New South Wales:

(a) any passenger service contract or other agreement containing a provision authorised by this section or giving effect to a provision of this section,
(b) the entering or making of any such contract or agreement,
(c) conduct authorised or required by or under the terms or conditions of any such contract or agreement.

(4) Conduct authorised by subsection (3) is authorised only to the extent (if any) that it would otherwise contravene Part IV of the *Competition and Consumer Act 2010* of the Commonwealth and the *Competition Code of New South Wales*.

(5) TfNSW is to cause a register to be kept of all exclusive rights in force under a term of a contract that is authorised under this section and is to make that register publicly available.

**Division 2 Licensing for regulated air routes**

**41 Operator of regulated air route must be licensed**

A person must not operate an air transport service unless the person holds an air route licence for the regulated air route for which the service is provided.
Minimum penalty: 1,000 penalty units.

**42 Licence holder must comply with conditions**

The holder of an air route licence must not contravene a condition of the licence.
Minimum penalty: 1,000 penalty units.

**43 Applications for air route licences**

(1) The following persons may apply for a licence for a regulated air route:

(a) an individual,

(b) 2 or more individuals who intend to operate the route under a partnership or other agreement,

(c) a body corporate incorporated under a law of this or any other jurisdiction (including the *Corporations Act 2001* of the Commonwealth, the *Associations Incorporation Act 2009* and the *Co-operatives National Law (NSW)*).

(2) An application for an air route licence is to be made to TfNSW.

(3) TfNSW may invite applications by tender or in any other form for an air route licence for one or more specified regulated air routes and may specify the time within which the applications are to be made. TfNSW is not required to consider any application that is not made within the specified time.

(4) An application is:

(a) to be in a form approved by TfNSW, and

(b) to contain the information that TfNSW requires to be provided, and

(c) in the case of an application for which tenders have been invited, to be accompanied by a sealed tender if required by TfNSW, and

(d) to be accompanied by the fee prescribed by the regulations.

(5) TfNSW may, by written notice given to the applicant, require the applicant to provide further information relevant to the application that is specified in the notice.

**44 Determination of applications for air route licence**

(1) TfNSW may determine an application for an air route licence by granting or refusing the application.
(2) In determining an application for an air route licence, TfNSW must take into account the following matters and is not to consider any additional matters:

(a) the air transport service needs of the public in relation to the route concerned and whether the grant of the licence will meet those needs,

(b) the allocation of air transport routes so as to facilitate the provision of adequate and reasonable public passenger transport by air in New South Wales by more than one airline and to discourage the development of any monopoly of the provision of such transport in New South Wales,

(c) the effect, if any, of the operation of the service over the proposed routes on the maintenance and orderly development of adequate and reasonable public passenger transport by air in New South Wales,

(d) the effect, if any, on the economic development or on the environment of any area within New South Wales, of the operation of aircraft by the applicant over the proposed routes.

(3) Nothing in this Part requires TfNSW to grant an air route licence for which applications have been invited to be made or have otherwise been made.

Note. A person who operates a regulated air route under an air route licence is also required to comply with the requirements of the Civil Aviation Act 1988 of the Commonwealth. These include a requirement to hold an Air Operator’s Certificate of the appropriate kind granted by the Civil Aviation Safety Authority of the Commonwealth under that Act.

45 Grants of air route licences

(1) An air route licence is to specify the regulated air route or routes to which it applies.

(2) TfNSW may grant an application for an air route licence unconditionally or subject to the conditions specified by TfNSW in the licence.

Note. TfNSW may also vary the conditions of a licence at any time (see section 51).

46 Form of air route licence

An air route licence is to be in the form approved by TfNSW.

47 Term of air route licence

(1) An air route licence is in force for the period specified by TfNSW in the licence unless it is sooner cancelled.

(2) An air route licence does not have effect while suspended and the suspension of an air route licence does not affect the day on which the term of an air route licence expires.

48 No renewals of air route licences

(1) There is no right to a renewal of an air route licence.

(2) However, this section does not prevent a person from being granted an air route licence for the same regulated air route for which the person was the previous holder of an air route licence.

49 Notice of decision

(1) TfNSW must give an applicant for an air route licence written notice of the decision on the application.

(2) If notice of a decision is not given to an applicant within 90 days of an application being made, the application is taken to have been refused.

(3) Subsection (2) does not prevent an application from being granted after the period of 90 days has elapsed.
50 Joint holders

If 2 or more individuals are jointly holders of an air route licence, each of those individuals has the obligations of a holder of that licence under this Act or the regulations.

51 Conditions of air route licences

(1) An air route licence is subject to the following conditions:
   (a) any conditions imposed by TfNSW and in force from time to time,
   (b) any conditions specified by this Act or prescribed by the regulations.

(2) TfNSW may at any time, by written notice given to the holder of an air route licence, impose a condition on the licence or vary or revoke a condition of the licence imposed by TfNSW.

(3) In deciding whether to impose a condition on an air route licence or to vary or revoke a condition of a licence, TfNSW must have regard to the matters set out in section 44 (2).

(4) TfNSW must not impose a condition on an air route licence that is inconsistent with this Act or the regulations.

52 Variation, suspension or cancellation of air route licence

TfNSW may vary, suspend or cancel an air route licence if:
   (a) having regard to the matters specified in section 44 (2) that TfNSW thinks relevant, TfNSW thinks it appropriate to do so, or
   (b) the holder ceases to be accredited to operate an air transport service, or
   (c) the holder ceases to operate a regulated air route to which the licence relates or fails to operate it to the satisfaction of TfNSW.

Note. TfNSW may also vary the conditions of a licence at any time (see section 51).

53 Temporary air route licences

(1) TfNSW may grant a temporary air route licence for a regulated air route to an accredited operator of a public passenger service if:
   (a) the licence of a current holder of an air route licence for the regulated air route (the current holder) is suspended or cancelled or TfNSW is of the opinion that the current holder is failing to operate the regulated air route or failing to operate it to the satisfaction of TfNSW, and
   (b) TfNSW is of the opinion that the issue of the temporary air route licence is necessary to maintain an air transport service pending the determination or completion of action against the current holder’s air route licence or the granting of a new air route licence.

(2) TfNSW may determine the procedures for applications for and the granting of, the requirements for and any conditions of a temporary air route licence.

(3) TfNSW may suspend, vary or cancel a temporary air route licence at any time and for any reason.

(4) A temporary air route licence ceases to have effect if:
   (a) TfNSW gives written notice to that effect to the holder of the temporary licence, or
   (b) TfNSW grants an air route licence for the same regulated air route.
(5) No compensation is payable to any person by or on behalf of TfNSW or otherwise by or on behalf of the State for loss or damage arising directly or indirectly from the grant of or any action taken with respect to a temporary air route licence, or a licence held by a current holder or a current holder, under this section. No proceedings for damages or other relief, whether grounded at law or in equity, for the purpose of restraining the taking of an action under this section, or of obtaining compensation in respect of any such loss or damage may be maintained.

(6) Subsection (5) extends to the following:
   (a) compensation because of any act, statement or conduct relating to the grant of or any action taken with respect to a temporary air route licence or the operation of an air transport service,
   (b) any person exercising a function or engaging in conduct for the purposes of this section at the request or direction of TfNSW or otherwise by or on behalf of the Crown, other than the current holder or a person who provided services on behalf of the current holder.

(7) In this section:

   compensation includes damages or any other form of compensation (whether or not monetary).
   conduct includes any act or omission, whether unconscionable, misleading, deceptive or otherwise.
   statement includes a representation of any kind:
      (a) whether made verbally or in writing, and
      (b) whether negligent, false, misleading or otherwise.
   the State means the Crown within the meaning of the Crown Proceedings Act 1988 and includes an officer, employee or agent of the Crown.

54 Joint licences

If 2 or more individuals hold a joint air route licence and any one of them dies or ceases to jointly provide the air transport service concerned:
   (a) the air route licence is automatically suspended 21 days after the death or cessation if TfNSW has not been notified before that time of the death or cessation, and
   (b) the licence may be cancelled, suspended or varied under this Act because of the death or cessation (whether before or after any such cessation).

The regulations may provide for the types and classes of driver authorities.

Division 2  Driver authority offences

57 Driver for public passenger service must hold driver authority
A person must not drive a vehicle used to provide a public passenger service referred to in section 55 unless the person is the holder of a driver authority to drive a vehicle of that kind for a service of that kind.
Maximum penalty: 100 penalty units.

58 Driver of public passenger service must comply with driver authority conditions
The holder of a driver authority must not contravene a condition of the driver authority.

113 RMS to be notified of lease, sublease or arrangement

(1) A person who leases or subleases a taxi licence to, or enters into an arrangement to confer the benefit of a taxi licence on, another person must cause written notice of the lease, sublease or arrangement to be given to RMS, within 7 days of the lease, sublease or arrangement taking effect, in accordance with this section.

(3) The levy is to be charged, levied and collected in the manner determined by RMS.

(4) The levy is not payable on the transfer of a taxi licence if the transferee is a person who is entitled to the licence under the will or on the intestacy of the holder of the licence.

(5) RMS is not required to transfer a licence if any levy that is payable has not been paid.
In this section:

*current market value* of a taxi licence means an amount that, in the opinion of RMS, represents the current market value, at the date of the transfer, of the licence.

### Division 7  Variation, suspension or cancellation of licences

#### 116 Variation, suspension or cancellation of licences generally

(1) RMS may vary, suspend or cancel a licence if:

   a) the holder fails to comply with a condition of the licence, or
   
   b) the holder, or owing to the default of the holder or any agent or member of staff of the holder, fails to comply with this Act or the regulations, or
   
   c) the taxi service or hire car service for which the licensed taxi or hire car is used has been or is being conducted in a manner that causes danger to the public, or
   
   d) the holder of the licence does not have a third-party property insurance policy that provides cover that, in the opinion of RMS, is sufficient for the taxi or hire car and is issued by a body corporate authorised under the *Insurance Act 1973* of the Commonwealth to carry on insurance business, or
   
   e) for any other reason it thinks fit.

*Note.* RMS may also vary the conditions of a licence at any time (see section 105).

(2) RMS may also vary, suspend or cancel a taxi licence if, owing to the default of the holder or any agent or member of staff of the holder:

   a) the taxi contract determination in relation to drivers of the taxi to whom the determination applies has not been complied with, or
   
   b) the taxi is not made available in accordance with a service requirement imposed by the taxi network or taxi booking service of which the operator of the taxi service for which the taxi is used is a member operator and RMS is satisfied that the requirement is reasonable and necessary to enable the operator of the taxi network or taxi booking service to comply with obligations imposed by this Act or the regulations.

### Division 8  Determination of release of annual taxi licences

#### 117 Application of Division

This Division applies to annual taxi licences, other than licences for wheelchair accessible taxis.

#### 118 Determination of number of annual taxi licences

(1) TfNSW must determine, before 31 March in each year, the number of annual taxi licences to be issued during the year commencing on the following 1 July.

(2) The determination may also do any of the following:

   a) determine the number and type of annual taxi licences that are to be issued to persons who hold driver authorities for taxis and who are also accredited as operators of taxi services or who have applied for such an accreditation,
   
   b) limit the number of annual taxi licences that may be granted to the same applicant or related applicants if TfNSW is of the opinion that the limitation is likely to promote competition that will benefit the public.
   
(3) TfNSW may seek public submissions before making a determination and may take into account any submissions received for the purposes of making the determination.
(4) TfNSW may, if it thinks fit, obtain expert advice in relation to any of the matters referred to in section 120 and may consider any recommendation made by IPART under this Part.

119 Referral to IPART

(1) The Minister may, with the approval of the Minister administering the Independent Pricing and Regulatory Tribunal Act 1992, refer to IPART for investigation and report to TfNSW with a recommendation as to the number of annual taxi licences to be issued for the year commencing on the following 1 July.

(2) The referral may ask IPART to make a separate report on a specified class or classes of annual taxi licence or for annual taxi licences issued for a specified area or areas of operations.

(3) Divisions 6 and 7 of Part 3 of the Independent Pricing and Regulatory Tribunal Act 1992 apply to an investigation and report by IPART under this section in the same way as they apply to an investigation or report under that Act. The provisions so apply as if a reference in those provisions to the Minister were a reference to the Minister administering this Act.

(4) A referral may be varied or withdrawn by the Minister, with the approval of the Minister administering the Independent Pricing and Regulatory Tribunal Act 1992, at any time before the Minister has received the report on the referral from IPART.

120 Matters to be taken into account for purposes of annual taxi licence determination

The following matters are to be considered by TfNSW when making a determination as to the number of annual taxi licences:

(a) likely passenger demand and latent demand for taxi services,
(b) the performance of existing taxi services,
(c) the demand for new taxi licences,
(d) the viability and sustainability of the taxi industry,
(e) any other matters TfNSW considers relevant, having regard to the objective of ensuring improved taxi services.
Part 7  Passenger transport fares, concessions and fees

123 Referrals to IPART
(1) The Minister may, with the approval of the Minister administering the Independent Pricing and Regulatory Tribunal Act 1992, refer all or any of the services provided by one or more public passenger services to IPART for determination of or a recommendation as to the following:
(a) appropriate maximum fares for the service or services,
(b) appropriate maximum fares for specified fares or classes of fares for the service or services.

(3) A matter relating to a service referred to in section 122 (a) or (c) may be referred to IPART under this section for a recommendation or for a determination.

(4) A matter relating to any other public passenger service may be referred to IPART under this section only for a recommendation.

(5) IPART may request the Minister to refer a matter to IPART under this section.

(6) A referral may be varied or withdrawn by the Minister, with the approval of the Minister administering the Independent Pricing and Regulatory Tribunal Act 1992, at any time before the Minister has received the report on the referral from IPART.

124 IPART investigations and determinations
(1) IPART is to conduct investigations and report to the Minister on the appropriate maximum fares if a referral is made under this Part.

(2) IPART may report to the Minister on any matter it considers relevant that arises from an investigation under this Part.
(3) IPART is to consider the following matters in making a determination or recommendation under this Part:
   (a) the cost of providing the services,
   (b) the need for greater efficiency in the supply of services so as to reduce costs for the benefit of consumers and taxpayers,
   (c) the protection of consumers from abuses of monopoly power in terms of prices, pricing polices and standards of service,

   (e) the impact of the determination or recommendation on the use of the public passenger transport network and the need to increase the proportion of travel undertaken by sustainable modes such as public transport,
   (f) standards of quality, reliability and safety of the services (whether those standards are specified by legislation, agreement or otherwise),
   (g) the effect of the determination or recommendation on the level of Government funding,
   (h) any matter specified in the referral to IPART,
   (i) any other matter IPART considers relevant.

(4) IPART must indicate what regard it has had to the matters specified in this section in any report of a determination or recommendation under this Part.

(5) If IPART makes a determination or recommendation to increase the maximum fare for a service provided by a corporation constituted under the Transport Administration Act 1988 or under a passenger service contract that provides (however expressed) for the payment of fare revenue to TfNSW, IPART is required to assess and report on the likely annual cost to the Consolidated Fund if the fare were not increased to the maximum permitted and compensation were paid to the corporation or TfNSW for the revenue foregone by an appropriation from the Consolidated Fund.

(6) Sections 13A–14A and Divisions 6 and 7 of Part 3 of the Independent Pricing and Regulatory Tribunal Act 1992 apply to an investigation and report by IPART under this Part in the same way as they apply to a determination, investigation or report under that Act. The provisions so apply as if a reference in those provisions to the Minister were a reference to the Minister administering this Act.

125 Fares orders

126 Taxi non-cash payment surcharges

(1) A fares order may specify the maximum amount payable for a taxi non-cash payment surcharge or surcharges for the same hiring of a taxi.

(2) In this Division, a **taxi non-cash payment surcharge** means a fee or charge (however calculated):

(4) A taxi non-cash payment surcharge does not include a fee or charge imposed in respect of the use of a debit, credit, pre-paid or charge card by:
   (a) a participant in a designated payment system within the meaning of the Payment Systems (Regulation) Act 1998 of the Commonwealth, or
   (b) a person consistently with a voluntary undertaking given by the person to, and accepted by, the Reserve Bank of Australia.

(5) This section does not limit the operation of section 125 (5).

(2) A person must not collect in a taxi, or initiate the collection in a taxi of, a taxi non-cash payment surcharge that contravenes a fares order.

(3) It is a defence to an offence under this section if the defendant establishes that:
   (a) the taxi non-cash payment surcharge was imposed or collected or its collection was initiated by another person, and
