Part 1 Preliminary

1.1 Name of Plan

This Plan is Rockdale Local Environmental Plan 2011.

1.1AA Commencement

This Plan commences on the day on which it is published on the NSW legislation website.

1.2 Aims of Plan

(1) This Plan aims to make local environmental planning provisions for land in that part of the Bayside local government area to which this Plan applies (in this Plan referred to as Rockdale) in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.

(2) The particular aims of this Plan are as follows—

(a) to provide a vibrant area in which Rockdale residents can live, work and play,

(b) to conserve the environmental heritage of Rockdale,

(c) to maintain and improve residential amenity and encourage a diversity of housing to meet the needs of Rockdale residents,

(d) to promote economic activity within Rockdale through the facilitation of commercial, employment-generating and tourism opportunities,

(e) to provide high quality open space and a range of recreational facilities to meet the demands of Rockdale and its visitors,

(f) to promote and enhance Rockdale’s foreshores,

(g) to encourage residential and employment densities around transport nodes in order to provide sustainable transport options,

(h) to minimise impacts on land subject to environmental hazards, particularly flooding.

1.3 Land to which Plan applies

This Plan applies to the land identified on the Land Application Map.
1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—

(a) approved by the local plan-making authority when the map is adopted, and

(b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.

(1AA) (Repealed)

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled Standard technical requirements for LEP maps and Standard requirements for LEP GIS data which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note. The following local environmental plans are repealed under this provision—

Rockdale Local Environmental Plan 2000

Rockdale Planning Scheme Ordinance

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.
1.8A Savings provisions relating to development applications

(1) If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note. However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

(2) To avoid doubt, Rockdale Local Environmental Plan 2011 (Amendment No 12) applies to the determination of a development application made (but not finally determined) before the commencement of that Plan.

1.9 Application of SEPPs

(1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.

(2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

State Environmental Planning Policy No 1—Development Standards

1.9A Suspension of covenants, agreements and instruments

(1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

(2) This clause does not apply—

(a) to a covenant imposed by the Council or that the Council requires to be imposed, or

(b) to any relevant instrument within the meaning of section 13.4 of the Crown Land Management Act 2016, or

(c) to any conservation agreement within the meaning of the National Parks and Wildlife Act 1974, or

(d) to any Trust agreement within the meaning of the Nature Conservation Trust Act 2001, or

(e) to any property vegetation plan within the meaning of the Native Vegetation Act 2003, or

(f) to any biobanking agreement within the meaning of Part 7A of the Threatened Species Conservation Act 1995, or

(g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.

(3) This clause does not affect the rights or interests of any public authority under any registered instrument.
(4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows—

Rural Zones
RU4 Primary Production Small Lots

Residential Zones
R2 Low Density Residential
R3 Medium Density Residential
R4 High Density Residential

Business Zones
B1 Neighbourhood Centre
B2 Local Centre
B4 Mixed Use
B6 Enterprise Corridor

Industrial Zones
IN2 Light Industrial

Special Purpose Zones
SP2 Infrastructure
SP3 Tourist

Recreation Zones
RE1 Public Recreation
RE2 Private Recreation

Environment Protection Zones
E1 National Parks and Nature Reserves

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table

(1) The Land Use Table at the end of this Part specifies for each zone—
(a) the objectives for development, and

(b) development that may be carried out without development consent, and

(c) development that may be carried out only with development consent, and

(d) development that is prohibited.

(2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.

(3) In the Land Use Table at the end of this Part—

(a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and

(b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes.
1 Schedule 1 sets out additional permitted uses for particular land.
2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
4 Clause 2.6 requires consent for subdivision of land.
5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

(1) Development may be carried out on unzoned land only with development consent.

(2) In deciding whether to grant development consent, the consent authority—

(a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and

(b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

(1) Development on particular land that is described or referred to in Schedule 1 may be carried out—

(a) with development consent, or

(b) if the Schedule so provides—without development consent,

in accordance with the conditions (if any) specified in that Schedule in relation to that development.
(2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

(1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes.
1 If a subdivision is specified as exempt development in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, the Act enables it to be carried out without development consent.
2 Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 provides that the strata subdivision of a building in certain circumstances is complying development.

(2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

Note. The definition of secondary dwelling in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note. If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

(1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

(2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.

(3) Development consent must not be granted unless the consent authority is satisfied that—

(a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and

(b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and

(c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and

(d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.

(5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies—

State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)
State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004
State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems
State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
State Environmental Planning Policy No 33—Hazardous and Offensive Development
State Environmental Planning Policy No 50—Canal Estate Development
State Environmental Planning Policy No 64—Advertising and Signage
State Environmental Planning Policy (Primary Production and Rural Development) 2019

Zone RU4  Primary Production Small Lots

1 Objectives of zone

• To enable sustainable primary industry and other compatible land uses.

• To encourage and promote diversity and employment opportunities in relation to primary industry enterprises, particularly those that require smaller lots or that are more intensive in nature.

• To minimise conflict between land uses within this zone and land uses within adjoining zones.

• To protect the agricultural production value of Rockdale’s heritage listed market gardens.

2 Permitted without consent

Extensive agriculture; Home businesses; Home occupations; Intensive plant agriculture; Roads

3 Permitted with consent

Aquaculture; Building identification signs; Dwelling houses; Environmental protection works; Farm buildings; Flood mitigation works; Plant nurseries; Roadside stalls; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3
Zone R2  Low Density Residential

1 Objectives of zone

• To provide for the housing needs of the community within a low density residential environment.

• To enable other land uses that provide facilities or services to meet the day to day needs of residents.

• To ensure that land uses are carried out in a context and setting that minimises any impact on the character and amenity of the area.

2 Permitted without consent

Home-based child care; Home businesses; Home industries; Home occupations; Roads

3 Permitted with consent

Attached dwellings; Boarding houses; Building identification signs; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Educational establishments; Environmental protection works; Exhibition homes; Exhibition villages; Flood mitigation works; Group homes; Health consulting rooms; Hostels; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Recreation areas; Respite day care centres; Secondary dwellings; Semi-detached dwellings; Seniors housing; Tank-based aquaculture; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone R3  Medium Density Residential

1 Objectives of zone

• To provide for the housing needs of the community within a medium density residential environment.

• To provide a variety of housing types within a medium density residential environment.

• To enable other land uses that provide facilities or services to meet the day to day needs of residents.

• To ensure that land uses are carried out in a context and setting that minimises any impact on the character and amenity of the area.

2 Permitted without consent

Home-based child care; Home businesses; Home industries; Home occupations; Roads

3 Permitted with consent

Attached dwellings; Boarding houses; Building identification signs; Centre-based child care facilities; Community facilities; Environmental protection works; Group homes; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Respite day care centres; Seniors housing; Tank-based aquaculture; Water supply systems; Any other development not specified in item 2 or 4
4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Emergency services facilities; Entertainment facilities; Environmental facilities; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Pond-based aquaculture; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential flat buildings; Restricted premises; Rural industries; Rural workers’ dwellings; Service stations; Sewage systems; Sex services premises; Signage; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Wharf or boating facilities; Wholesale supplies

Zone R4 High Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a high density residential environment.
- To provide a variety of housing types within a high density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.

2 Permitted without consent

Home-based child care; Home businesses; Home occupations; Recreation areas; Roads

3 Permitted with consent

Boarding houses; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Neighbourhood shops; Oyster aquaculture; Places of public worship; Residential flat buildings; Respite day care centres; Shop top housing; Water supply systems; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Emergency services facilities; Entertainment facilities; Environmental facilities; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Home industries; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger
Zone B1 Neighbourhood Centre

1 Objectives of zone

- To provide a range of small-scale retail, business and community uses that serve the needs of people who live or work in the surrounding neighbourhood.
- To ensure that development within the zone does not detract from the economic viability of the commercial centres in Zone B2 Local Centre and Zone B4 Mixed Use within Rockdale.
- To ensure that the nature, scale and type of development is compatible with adjacent residential development.

2 Permitted without consent

- Home-based child care; Home businesses; Home occupations; Roads

3 Permitted with consent

- Boarding houses; Building identification signs; Business identification signs; Business premises; Centre-based child care facilities; Commercial premises; Community facilities; Exhibition homes; Medical centres; Neighbourhood shops; Neighbourhood supermarkets; Oyster aquaculture; Plant nurseries; Respite day care centres; Shop top housing; Shops; Tank-based aquaculture; Any other development not specified in item 2 or 4

4 Prohibited

- Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Attached dwellings; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Dual occupations; Dwelling houses; Eco-tourist facilities; Entertainment facilities; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Garden centres; Hardware and building supplies; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Hospitals; Industrial retail outlets; Industrial training facilities; Industries; Jetties; Landscaping material supplies; Marinas; Mooring pens; Moorings; Multi dwelling housing; Open cut mining; Pond-based aquaculture Port facilities; Registered clubs; Research stations; Residential flat buildings; Restricted premises; Roadside stalls; Rural industries; Rural supplies; Rural workers’ dwellings; Secondary dwellings; Semi-detached dwellings; Sex services premises; Signage; Specialised retail premises; Storage premises; Timber yards; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Wharf or boating facilities; Wholesale supplies
Zone B2  Local Centre

1 Objectives of zone

- To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.

- To encourage employment opportunities in accessible locations.

- To maximise public transport patronage and encourage walking and cycling.

- To accommodate population growth through high density mixed use development that complements the role of retail, commercial, civic and cultural premises in the Rockdale town centre.

- To create a lively Rockdale town centre with an amenable and pedestrian focused public domain activated by building uses that engage with the street.

2 Permitted without consent

Home-based child care; Home businesses; Home occupations; Roads

3 Permitted with consent

Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Exhibition homes; Function centres; Group homes; Hostels; Information and education facilities; Medical centres; Oyster aquaculture; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Service stations; Shop top housing; Tank-based aquaculture; Tourist and visitor accommodation; Any other development not specified in item 2 or 4

4 Prohibited

Zone B4  Mixed Use

1 Objectives of zone

- To provide a mixture of compatible land uses.

- To integrate suitable business, office, residential, retail and other development in accessible locations so as to maximise public transport patronage and encourage walking and cycling.
2 Permitted without consent

Home-based child care; Home businesses; Home occupations; Roads

3 Permitted with consent

Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Exhibition homes; Function centres; Hotel or motel accommodation; Information and education facilities; Medical centres; Oyster aquaculture; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Seniors housing; Shop top housing; Tank-based aquaculture; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Attached dwellings; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Dual occupancies; Dwelling houses; Eco-tourist facilities; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Multi dwelling housing; Open cut mining; Pond-based aquaculture Port facilities; Research stations; Rural industries; Rural workers’ dwellings; Secondary dwellings; Semi-detached dwellings; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Waste or resource management facilities; Wharf or boating facilities; Wholesale supplies

Zone B6 Enterprise Corridor

1 Objectives of zone

• To promote businesses along main roads and to encourage a mix of compatible uses.

• To provide a range of employment uses (including business, office, retail and light industrial uses).

• To maintain the economic strength of centres by limiting retailing activity.

• To promote redevelopment that will contribute to the locality, including by improving the visual character of the locality, improving access and parking, reducing land use conflicts and increasing amenity for nearby residential development.

2 Permitted without consent

Roads

3 Permitted with consent

Animal boarding or training establishments; Business premises; Community facilities; Garden centres; Hardware and building supplies; Hotel or motel accommodation; Industrial training facilities; Kiosks; Landscaping material supplies; Light industries; Neighbourhood shops; Oyster aquaculture; Passenger transport facilities; Plant nurseries; Pubs; Specialised retail premises; Storage premises; Take away food and drink premises; Tank-based aquaculture; Timber yards; Vehicle sales
or hire premises; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Boat launching ramps; Camping grounds; Caravan parks; Centre-based child care facilities; Correctional centres; Eco-tourist facilities; Entertainment facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Function centres; Heavy industrial storage establishments; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Industries; Open cut mining; Pond-based aquaculture Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Retail premises; Rural industries; Sex services premises; Tourist and visitor accommodation; Waste or resource management facilities; Water recreation structures; Wharf or boating facilities

Zone IN2  Light Industrial

1 Objectives of zone

• To provide a wide range of light industrial, warehouse and related land uses.

• To encourage employment opportunities and to support the viability of centres.

• To minimise any adverse effect of industry on other land uses.

• To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area.

• To support and protect industrial land for industrial uses.

2 Permitted without consent

Roads

3 Permitted with consent

Depots; Garden centres; Hardware and building supplies; Industrial training facilities; Light industries; Neighbourhood shops; Oyster aquaculture; Places of public worship; Take away food and drink premises; Tank-based aquaculture; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited

Zone SP2  Infrastructure

1 Objectives of zone

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; The purpose shown on the Land Zoning Map, including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone SP3  Tourist

1 Objectives of zone

- To provide for a variety of tourist-oriented development and related uses.

2 Permitted without consent

Home-based child care; Home businesses; Home occupations; Roads

3 Permitted with consent

Aquaculture; Building identification signs; Business identification signs; Environmental protection works; Food and drink premises; Shop top housing; Tourist and visitor accommodation; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Boat building and repair facilities; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Garden centres; Hardware and building supplies; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Landscaping material supplies; Moorings; Mortuaries; Open cut mining; Plant nurseries; Port facilities; Research stations; Residential accommodation; Restricted premises; Rural industries; Rural supplies; Service stations; Sex services premises; Signage; Specialised retail premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Wharf or boating facilities; Wholesale supplies
Zone RE1  Public Recreation

1 Objectives of zone

- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; Boat launching ramps; Centre-based child care facilities; Community facilities; Environmental facilities; Environmental protection works; Jetties; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Respite day care centres; Signage; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2  Private Recreation

1 Objectives of zone

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; Boat launching ramps; Building identification signs; Business identification signs; Community facilities; Environmental facilities; Environmental protection works; Jetties; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone E1  National Parks and Nature Reserves

1 Objectives of zone

- To enable the management and appropriate use of land that is reserved under the National Parks and Wildlife Act 1974 or that is acquired under Part 11 of that Act.
• To enable uses authorised under the *National Parks and Wildlife Act 1974*.  
• To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the *National Parks and Wildlife Act 1974*

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development—

(a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and

(b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and

(c) must not be designated development, and

(d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.

(4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if—

(a) the building has a current fire safety certificate or fire safety statement, or

(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must—

(a) be installed in accordance with the manufacturer’s specifications, if applicable, and

(b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.
3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—
   (a) the development standards specified in relation to that development, and
   (b) the requirements of this Part,
   is complying development.

   Note. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must—
   (a) be permissible, with development consent, in the zone in which it is carried out, and
   (b) meet the relevant deemed-to-satisfy provisions of the Building Code of Australia, and
   (c) have an approval, if required by the Local Government Act 1993, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause—

   environmentally sensitive area for exempt or complying development means any of the following—
   (a) the coastal waters of the State,
   (b) a coastal lake,
   (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the Coastal Management Act 2016),
   (d) land reserved as an aquatic reserve under the Fisheries Management Act 1994 or as a marine park under the Marine Parks Act 1997,
   (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
(f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,

(g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,

(h) land reserved under the National Parks and Wildlife Act 1974 or land acquired under Part 11 of that Act,

(i) land reserved or dedicated under the Crown Land Management Act 2016 for the preservation of flora, fauna, geological formations or for other environmental protection purposes,

(j) land that is a declared area of outstanding biodiversity value under the Biodiversity Conservation Act 2016 or declared critical habitat under Part 7A of the Fisheries Management Act 1994.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

(1) The objectives of this clause are as follows—

(a) to ensure that subdivision reflects and reinforces the predominant subdivision pattern of the area,

(b) to minimise any likely impact of subdivision, and development on subdivided land, on the amenity of neighbouring properties,

(c) to ensure that lot sizes and dimensions are able to accommodate development consistent with relevant development controls.

(2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

(3A) If a lot is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included in calculating the lot size for the purposes of subclause (3).

(3B) Despite subclause (3), development consent may be granted to the subdivision of a lot on which there is an existing dual occupancy, or on which a dual occupancy is proposed, if—

(a) the area of each lot resulting from the subdivision is equal to or greater than 350 square metres, and

(b) each of the lots will have one of the dwellings on it.

(4) This clause does not apply in relation to the subdivision of any land—

(a) by the registration of a strata plan or strata plan of subdivision under the Strata Schemes Development Act 2015, or

(b) by any kind of subdivision under the Community Land Development Act 1989.
4.1AA  Minimum subdivision lot size for community title schemes

[Not adopted]

4.2  Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones—

(a) Zone RU1 Primary Production,

(b) Zone RU2 Rural Landscape,

(baa) Zone RU3 Forestry,

(c) Zone RU4 Primary Production Small Lots,

(d) Zone RU6 Transition.

Note. When this Plan was made it did not include Zone RU1 Primary Production, Zone RU2 Rural Landscape or Zone RU6 Transition.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the Lot Size Map in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

Note. A dwelling includes a rural worker’s dwelling (see definition of that term in the Dictionary).

4.2A  Minimum lot size for attached and semi-detached dwellings in Zone R2

(1) The objective of this clause is to ensure that the size of lots for attached dwellings or semi-detached dwellings on land in Zone R2 Low Density Residential is consistent with the zoning objective of providing for the housing needs of the community within a low density residential environment.

(2) Development consent must not be granted to the erection of an attached dwelling or a semi-detached dwelling on a lot comprising land in Zone R2 Low Density Residential unless the area of the lot is at least 350 square metres.

(3) A reference in this clause to a lot does not include a reference to any lot comprising common property (within the meaning of the Strata Schemes (Freehold Development) Act 1973) or association property (within the meaning of the Community Land Development Act 1989).
4.3 Height of buildings

(1) The objectives of this clause are as follows—

(a) to establish the maximum limit within which buildings can be designed and floor space can be achieved,

(b) to permit building heights that encourage high quality urban form,

(c) to provide building heights that maintain satisfactory sky exposure and daylight to buildings, key areas and the public domain,

(d) to nominate heights that will provide an appropriate transition in built form and land use intensity.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

(2A) Despite subclause (2), the height of a building may exceed the maximum height shown for the land on the Height of Buildings Map by an additional—

(a) 12 metres—if the building is in Area A identified on the Height of Buildings Map and on a lot having an area of at least 1,500 square metres,

(b) 6 metres—if the building is in Area B identified on the Height of Buildings Map and on a lot having an area of at least 2,000 square metres,

(c) 6 metres—if the building is in Area C identified on the Height of Buildings Map and on a lot having an area of at least 1,200 square metres,

(d) 15 metres—if the building is in Area D identified on the Height of Buildings Map and on a lot having an area of at least 1,000 square metres,

(e) 3 metres—if the building is in Area E identified on the Height of Buildings Map and on a lot having an area of at least 600 square metres,

(f) 9 metres—if the building is in Area G identified on the Height of Buildings Map and on a lot having an area of at least 1,000 square metres,

(g) 12 metres—if the building is in Area H identified on the Height of Buildings Map and on a lot having an area of at least 2,000 square metres,

(h) 3 metres—if the building is in Area I identified on the Height of Buildings Map and on a lot having an area of at least 1,000 square metres,

(i) 9 metres—if the building is in Area J identified on the Height of Buildings Map and on a lot having an area of at least 2,000 square metres,

(j) 3 metres—if the building is in Area L identified on the Height of Buildings Map and on a lot having an area of at least 800 square metres,

(k) 25.15 metres—if the building is in Area M identified on the Height of Buildings Map and on a lot having an area of at least 9,000 square metres.
(2B) Despite subclause (2), the maximum height of a building that is in Area K identified on the Height of Buildings Map and that is used only for the purpose of seniors housing is—

(a) 14.5 metres—if the building is within 38 metres of Harrow Road, and

(b) 9.5 metres—if the building is not within 38 metres of Harrow Road.

4.3A Exception to height of buildings

(1) This clause applies to land at 152–206 Rocky Point Road, Kogarah, being Lot 22, DP 620329, Lot 2, DP 838198, Lot 1, DP 599502, Lot 1, DP 1144981, Lot 1, DP 666138 and Lot 2, DP 405531.

(2) Despite clause 4.3, the height of a building on land to which this clause applies may exceed the maximum height shown for the land on the Height of Buildings Map, but must not exceed the building height plane for that land.

(3) Clause 5.6 does not apply to a building on land to which this clause applies.

(4) In this clause—

building height plane means a continuous plane commencing at a height of 1.5 metres above ground level (existing) and at a distance of 13.6 metres south of the southern boundary of Lot 22, DP 620329 (Point A), projecting to a position at a height of 11.7 metres above ground level (existing) and at a distance of 31.6 metres north of Point A, and continuing at that projection over the land to which this clause applies.

4.4 Floor space ratio

(1) The objectives of this clause are as follows—

(a) to establish the maximum development density and intensity of land use, accounting for the availability of infrastructure and generation of vehicular and pedestrian traffic, in order to achieve the desired future character of Rockdale,

(b) to minimise adverse environmental effects on the use or enjoyment of adjoining properties,

(c) to maintain an appropriate visual relationship between new development and the existing character of areas or locations that are not undergoing or likely to undergo a substantial transformation.

(2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the Floor Space Ratio Map.

(2A) The floor space ratio for a building on land that is in Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone R4 High Density Residential and that has an area of less than 460 square metres is not to exceed 0.55:1.

(2B) Without limiting subclause (2), the ratio of the gross floor area of all buildings (or parts of buildings) that are residential accommodation to the site area is not to exceed—

(a) (Repealed)

(b) 2.25:1 if the site is at 213 Princes Highway and 4 Wardell Street, Arncliffe.
Despite subclause (2), the floor space ratio for a building may exceed the maximum floor space ratio allowed under that subclause by up to—

(a) 1:1—if the building is in Area A identified on the Floor Space Ratio Map and on a lot having an area of at least 1,500 square metres,

(b) 1:1—if the building is in Area B identified on the Floor Space Ratio Map and on a lot having an area of at least 2,000 square metres,

(c) 0.5:1—if the building is in Area C identified on the Floor Space Ratio Map and on a lot having an area of at least 1,200 square metres,

(d) 2:1—if the building is in Area D identified on the Floor Space Ratio Map and on a lot having an area of at least 1,000 square metres,

(e) 0.5:1—if the building is in Area F identified on the Floor Space Ratio Map and on a lot having an area of at least 600 square metres,

(f) 0.7:1—if the building is in Area G identified on the Floor Space Ratio Map and on a lot having an area of at least 600 square metres and contains one or more pedestrian arcades,

(g) 0.5:1—if the building is in Area I identified on the Floor Space Ratio Map and on a lot having an area of at least 800 square metres.

Despite subclause (2), the maximum floor space ratio for a building on land identified as “Area E” on the Floor Space Ratio Map is 5:1. However, the ratio of the gross floor area of all buildings, other than commercial premises, to the site area must not exceed 3:1.

Note. Floor space ratios are determined cumulatively by calculating the gross floor area of all buildings on the site concerned (clause 4.5 (2)).

Despite subclause (2), the maximum floor space ratio for a building on land identified as Area H on the Floor Space Ratio Map is, if the building is used only for the purpose of seniors housing, 1.25:1.

4.5 Calculation of floor space ratio and site area

(1) Objectives The objectives of this clause are as follows—

(a) to define floor space ratio,

(b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—

(i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and

(ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and

(iii) require community land and public places to be dealt with separately.

(2) Definition of “floor space ratio” The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.
(3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be—

(a) if the proposed development is to be carried out on only one lot, the area of that lot, or

(b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area** The following land must be excluded from the site area—

(a) land on which the proposed development is prohibited, whether under this Plan or any other law,

(b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

(10) **Covenants affect consolidated sites** If—

(a) a covenant of the kind referred to in subclause (9) applies to any land (affected land), and

(b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being
created on the affected land.

(11) **Definition** In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

### 4.6 Exceptions to development standards

(1) The objectives of this clause are as follows—

(a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating—

(a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and

(b) that there are sufficient environmental planning grounds to justify contravening the development standard.

(4) Development consent must not be granted for development that contravenes a development standard unless—

(a) the consent authority is satisfied that—

   (i) the applicant’s written request has adequately addressed the matters required to be demonstrated by subclause (3), and

   (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Planning Secretary has been obtained.

(5) In deciding whether to grant concurrence, the Planning Secretary must consider—

(a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and

(b) the public benefit of maintaining the development standard, and

(c) any other matters required to be taken into consideration by the Planning Secretary before granting concurrence.
(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if—

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note.** When this Plan was made it did not include Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU6 Transition, R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant’s written request referred to in subclause (3).

(8) This clause does not allow development consent to be granted for development that would contravene any of the following—

(a) a development standard for complying development,

(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004 applies or for the land on which such a building is situated,

(c) clause 5.4,

(ca) clause 4.3 (2A), 4.4 (2A), (2B), (2C) or (2D), unless it is for a demonstrable public benefit, such as the provision of pedestrian links,

(cba) clause 4.3A,

(cc) clause 7.1 or 7.2.

**Part 5 Miscellaneous provisions**

**5.1 Relevant acquisition authority**

(1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the Land Acquisition (Just Terms Compensation) Act 1991 (the owner-initiated acquisition provisions).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the Land Acquisition (Just Terms Compensation) Act 1991 requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the...
State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

(3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.1A Development on land intended to be acquired for public purposes

(1) The objective of this clause is to limit development on certain land intended to be acquired for a public purpose.
(2) This clause applies to land shown on the Land Reservation Acquisition Map and specified in Column 1 of the Table to this clause and that has not been acquired by the relevant authority of the State specified for the land in clause 5.1.

(3) Development consent must not be granted to any development on land to which this clause applies other than development for a purpose specified opposite that land in Column 2 of that Table.

5.2 Classification and reclassification of public land

(1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the Local Government Act 1993.

Note. Under the Local Government Act 1993, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the Local Government Act 1993. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

(2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the Local Government Act 1993.

(3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the Local Government Act 1993.
(4) The public land described in Part 1 of Schedule 4—
   (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
   (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

(5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
   (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
   (b) any reservations that except land out of the Crown grant relating to the land, and
   (c) reservations of minerals (within the meaning of the Crown Land Management Act 2016).

   Note. In accordance with section 30 (2) of the Local Government Act 1993, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

[Not adopted]

5.4 Controls relating to miscellaneous permissible uses

(1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

   Note. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the Building Code of Australia.

(2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 60 square metres of floor area.

(3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 60 square metres of floor area.

(4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
   (a) 30% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
   (b) 400 square metres,

   whichever is the lesser.

(5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is
permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

(6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 15 square metres.

(7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 80 square metres.

(7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.

(8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 8 square metres.

(9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater—

(a) 60 square metres,

(b) 43% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in an industrial or rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

(a) 30% of the gross floor area of the industry, or

(b) 400 square metres,

whichever is the lesser.

5.5 (Repealed)

5.6 **Architectural roof features**

(1) The objectives of this clause are as follows—

(a) to permit variations to maximum building height standards for roof features of visual interest,

(b) to ensure that roof features are decorative elements and that the majority of the roof is contained within the maximum building height standard.

(2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.

(3) Development consent must not be granted to any such development unless the consent authority is satisfied that—

(a) the architectural roof feature—
(i) comprises a decorative element on the uppermost portion of a building, and

(ii) is not an advertising structure, and

(iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and

(iv) will cause minimal overshadowing, and

(b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

5.7 Development below mean high water mark

(1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.

(2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

(1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

(2) The following development may be carried out, but only with development consent—

(a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

(b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,

(c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

(3) Development to which subclause (2) applies is complying development if it consists only of—

(a) internal alterations to a building, or

(b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause—
Private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9, 5.9AA (Repealed)

5.10 Heritage conservation

Note. Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

(1) Objectives The objectives of this clause are as follows—

(a) to conserve the environmental heritage of Rockdale;

(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,

(c) to conserve archaeological sites,

(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) Requirement for consent Development consent is required for any of the following—

(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—

(i) a heritage item,

(ii) an Aboriginal object,

(iii) a building, work, relic or tree within a heritage conservation area,

(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,

(c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,

(d) disturbing or excavating an Aboriginal place of heritage significance,

(e) erecting a building on land—

(i) on which a heritage item is located or that is within a heritage conservation area, or

(ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,

(f) subdividing land—

(i) on which a heritage item is located or that is within a heritage conservation area, or

(ii) on which an Aboriginal object is located or that is within an Aboriginal place of
(3) **When consent not required** However, development consent under this clause is not required if—

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—

(i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and

(ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or

(b) the development is in a cemetery or burial ground and the proposed development—

(i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and

(ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) **Heritage assessment** The consent authority may, before granting consent to any development—

(a) on land on which a heritage item is located, or

(b) on land that is within a heritage conservation area, or

(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) **Archaeological sites** The consent authority must, before granting consent under this clause to the
carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies)—

(a) notify the Heritage Council of its intention to grant consent, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—

(a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and

(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.
5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

*Note.* The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

1. This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.

2. This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

[Not applicable]

5.14 Siding Spring Observatory—maintaining dark sky

[Not adopted]

5.15 Defence communications facility

[Not adopted]

5.16 Subdivision of, or dwellings on, land in certain rural, residential or environment protection zones

[Not applicable]

5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations

[Not applicable]

5.18 Intensive livestock agriculture

[Not applicable]

5.19 Pond-based, tank-based and oyster aquaculture

1. **Objectives** The objectives of this clause are as follows—

   a. to encourage sustainable oyster, pond-based and tank-based aquaculture in the State, namely, aquaculture development that uses, conserves and enhances the community’s resources so that the total quality of life now and in the future can be preserved and enhanced,

   b. to set out the minimum site location and operational requirements for permissible pond-based and tank-based aquaculture development.

2. **Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied**
before granting consent The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—

(a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,

(b) in the case of—

(i) pond-based aquaculture or tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential or Zone R5 Large Lot Residential—that the development is for the purpose of small scale aquarium fish production, and

(ii) pond-based aquaculture in Zone E3 Environmental Management or Zone E4 Environmental Living—that the development is for the purpose of extensive aquaculture, and

(iii) tank-based aquaculture in Zone R3 Medium Density Residential, Zone E3 Environmental Management or Zone E4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and

(iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.

(3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.

(4) Extensive pond-based aquaculture permitted without consent in certain zones Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—

(a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and

(b) the development complies with the site location requirements and operational requirements set out in Part 2 of Schedule 6.

(5) Oyster aquaculture—additional matters that consent authority must consider in determining a development application In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—

(a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and

(b) the NSW Oyster Industry Sustainable Aquaculture Strategy.

(6) Oyster aquaculture permitted without consent in priority oyster aquaculture areas Development for the purpose of oyster aquaculture may be carried out without development consent—

(a) on land that is wholly within a priority oyster aquaculture area, or
(b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.

(7) **Definitions** In this clause—

- *aquaculture industry development plan* means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

- *extensive aquaculture* has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

- *NSW Oyster Industry Sustainable Aquaculture Strategy* means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within the Department of Industry).

- *priority oyster aquaculture area* means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department’s website.

**Part 6 Additional local provisions**

### 6.1 Acid sulfate soils

(1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.

(2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the *Acid Sulfate Soils Map* as being of the class specified for those works.

<table>

</tr>
</tbody>
</table>

(3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the *Acid Sulfate Soils Manual* and has been provided to the consent authority.
Despite subclause (2), development consent is not required under this clause for the carrying out of works if—

(a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and

(b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.

Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power)—

(a) emergency work, being the repair or replacement of the works of the public authority required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,

(b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),

(c) minor work, being work that costs less than $20,000 (other than drainage work).

Despite subclause (2), development consent is not required under this clause to carry out any works if—

(a) the works involve the disturbance of less than 1 tonne of soil, such as occurs in carrying out agriculture, the construction or maintenance of drains, extractive industries, dredging, the construction of artificial water bodies (including canals, dams and detention basins), foundations or flood mitigation works, or

(b) the works are not likely to lower the watertable.

6.2 Earthworks

The objectives of this clause are as follows—

(a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,

(b) to allow earthworks of a minor nature without requiring separate development consent.

Development consent is required for earthworks unless—

(a) the work is exempt development under this Plan or another applicable environmental planning instrument, or

(b) the work is ancillary to other development for which development consent has been given.

Before granting development consent for earthworks, the consent authority must consider the following matters—
(a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,

(b) the effect of the proposed development on the likely future use or redevelopment of the land,

(c) the quality of the fill or the soil to be excavated, or both,

(d) the effect of the proposed development on the existing and likely amenity of adjoining properties,

(e) the source of any fill material and the destination of any excavated material,

(f) the likelihood of disturbing relics,

(g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

**Note.** The *National Parks and Wildlife Act 1974*, particularly section 86, deals with disturbing or excavating land and Aboriginal objects.

### 6.3 Development in areas subject to aircraft noise

(1) The objectives of this clause are as follows—

(a) to prevent certain noise sensitive developments from being located near the Sydney (Kingsford-Smith) Airport and its flight paths,

(b) to assist in minimising the impact of aircraft noise from that airport and its flight paths by requiring appropriate noise attenuation measures in noise sensitive buildings,

(c) to ensure that land use and development in the vicinity of that airport do not hinder or have any other adverse impacts on the ongoing, safe and efficient operation of that airport.

(2) This clause applies to development that—

(a) is on land that—

   (i) is near the Sydney (Kingsford-Smith) Airport, and

   (ii) is in an ANEF contour of 20 or greater, and

(b) the consent authority considers is likely to be adversely affected by aircraft noise.

(3) Before determining a development application for development to which this clause applies, the consent authority—

(a) must consider whether the development will result in an increase in the number of dwellings or people affected by aircraft noise, and

(b) must consider the location of the development in relation to the criteria set out in Table 2.1 (Building Site Acceptability Based on ANEF Zones) in AS 2021—2000, and

(c) must be satisfied the development will meet the indoor design sound levels shown in Table 3.3 (Indoor Design Sound Levels for Determination of Aircraft Noise Reduction) in AS

(4) In this clause—

*ANEF contour* means a noise exposure contour shown as an ANEF contour on the *Noise Exposure Forecast Contour Map* for the Sydney (Kingsford-Smith) Airport prepared by the Department of the Commonwealth responsible for airports.

### 6.4 Airspace operations

(1) The objectives of this clause are as follows—

(a) to provide for the effective and ongoing operation of the Sydney (Kingsford-Smith) Airport by ensuring that such operation is not compromised by proposed development that penetrates the Limitation or Operations Surface for that airport,

(b) to protect the community from undue risk from that operation.

(2) If a development application is received and the consent authority is satisfied that the proposed development will penetrate the Limitation or Operations Surface, the consent authority must not grant development consent unless it has consulted with the relevant Commonwealth body about the application.

(3) The consent authority may grant development consent for the development if the relevant Commonwealth body advises that—

(a) the development will penetrate the Limitation or Operations Surface but it has no objection to its construction, or

(b) the development will not penetrate the Limitation or Operations Surface.

(4) The consent authority must not grant development consent for the development if the relevant Commonwealth body advises that the development will penetrate the Limitation or Operations Surface and should not be constructed.

(5) In this clause—

*Limitation or Operations Surface* means the Obstacle Limitation Surface or the Procedures for Air Navigation Services Operations Surface as shown on the *Obstacle Limitation Surface Map* or the *Procedures for Air Navigation Services Operations Surface Map* for the Sydney (Kingsford-Smith) Airport.

*relevant Commonwealth body* means the body, under Commonwealth legislation, that is responsible for development approvals for development that penetrates the Limitation or Operations Surface for the Sydney (Kingsford-Smith) Airport.

### 6.5 Foreshore building line

(1) The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area.
(2) Development consent must not be granted for development on land in the foreshore area except for the following—

(a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,

(b) the erection of a building in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,

(c) development for the purposes of boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).

(3) Development consent must not be granted under subclause (2) unless the consent authority is satisfied that—

(a) the development will contribute to achieving the objectives for the zone in which the land is located, and

(b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and

(c) the development will not cause environmental harm such as—

(i) pollution or siltation of the waterway, or

(ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or

(iii) an adverse effect on drainage patterns, and

(d) the development will not cause congestion of, or generate conflicts between, people using open space areas or the waterway, and

(e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and

(f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and

(g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore.

6.6 Flood planning

(1) The objectives of this clause are as follows—

(a) to minimise the flood risk to life and property associated with the use of land,

(b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
(c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to—

(a) land that is shown as “Flood planning area” on the Flood Planning Map, and

(b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—

(a) is compatible with the flood hazard of the land, and

(b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and

(c) incorporates appropriate measures to manage risk to life from flood, and

(d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and

(e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.

(4) A word or expression used in this clause has the same meaning as it has in the Floodplain Development Manual (ISBN 0 7347 5476 0), published in 2005 by the NSW Government, unless it is otherwise defined in this clause.

(5) In this clause—

flood planning level means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

Flood Planning Map means the Rockdale Local Environmental Plan 2011 Flood Planning Map.

6.7 Stormwater

(1) The objective of this clause is to minimise the impacts of urban stormwater on any of the following—

(a) land on which development is carried out,

(b) properties adjoining that land,

(c) native bushland,

(d) receiving waters.

(2) This clause applies to any land in any of the following zones—

(a) Zone R2 Low Density Residential,

(b) Zone R3 Medium Density Residential,
(c) Zone R4 High Density Residential,
(d) Zone B1 Neighbourhood Centre,
(e) Zone B2 Local Centre,
(f) Zone B4 Mixed Use,
(g) Zone B6 Enterprise Corridor,
(h) Zone IN2 Light Industrial.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—

(a) is designed to maximise the use of water permeable surfaces on the site having regard to the soil characteristics affecting on-site infiltration of water, and
(b) will include, where practicable, on-site stormwater retention for use as an alternative supply to mains water, groundwater or river water, and
(c) will avoid, or if a disturbance or impact cannot be avoided, will minimise and mitigate, any disturbance or impact of stormwater runoff on—
   (i) properties adjoining the land on which the development is proposed to be carried out, and
   (ii) native bushland, and
   (iii) receiving waters.

6.8 Biodiversity protection

(1) The objective of this clause is to maintain terrestrial and aquatic biodiversity, including the following—

(a) protecting native fauna and flora,
(b) protecting the ecological processes necessary for their continued existence,
(c) encouraging the recovery of native fauna and flora and their habitats.

(2) This clause applies to land identified as “Biodiversity” on the Terrestrial Biodiversity Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider any adverse impact of the proposed development on the following—

(a) native ecological communities,
(b) the habitat of any threatened species, populations or ecological community,
(c) regionally significant species of fauna and flora or habitat,
(d) habitat elements providing connectivity.
(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—

(a) the development is designed, sited and will be managed to avoid any adverse environmental impact, or

(b) if that impact cannot be avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

(5) In this clause—

Terrestrial Biodiversity Map means the Rockdale Local Environmental Plan 2011 Terrestrial Biodiversity Map.

6.9 Riparian land, watercourses and artificial waterbodies

(1) The objective of this clause is to protect and maintain the following—

(a) water quality within watercourses and artificial waterbodies,

(b) the stability of the bed and banks of watercourses and artificial waterbodies,

(c) aquatic riparian habitats,

(d) ecological processes within watercourses, artificial waterbodies and riparian areas.

(2) This clause applies to land situated within 40 metres of the top of the bank of a watercourse or artificial waterbody.

(3) Before determining a development application to carry out development on land to which this clause applies, the consent authority must consider whether or not the development—

(a) will cause any adverse impact on the following—

   (i) the water quality within a watercourse or artificial waterbody,

   (ii) aquatic and riparian species, habitats and ecosystems,

   (iii) the stability of the bed, shore and banks of a watercourse or artificial waterbody,

   (iv) the free passage of fish and other aquatic organisms within or along a watercourse or within an artificial waterbody,

   (v) any future rehabilitation of a watercourse, artificial waterbody and riparian areas,

   (vi) flows within a watercourse, and

(b) will increase water extraction from a watercourse or artificial waterbody.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

### 6.10 Wetlands

1. The objective of this clause is to ensure that natural wetlands are preserved and protected from the impacts of development.

2. This clause applies to land identified as “Wetland” on the Wetlands Map.

3. Before determining a development application for development on land to which this clause applies, the consent authority must consider the following—
   
   (a) any adverse impact from the proposed development on the growth and survival of native flora and fauna,
   
   (b) the condition and significance of the native flora on the land and whether it should be substantially retained,
   
   (c) the provision and quality of habitats for indigenous and migratory species,
   
   (d) any adverse impact from the proposed development on the surface and groundwater characteristics of the site, including on water quality, natural water flows and salinity,
   
   (e) any adverse impact from the proposed development on any wetland in the vicinity of the proposed development,
   
   (f) proposed measures to minimise or mitigate those impacts.

4. Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—

   (a) the development is designed, sited and will be managed to avoid any adverse environmental impacts, or

   (b) if those impacts cannot be avoided—the development is designed, sited and will be managed to minimise those impacts.

5. In this clause—

   Wetlands Map means the Rockdale Local Environmental Plan 2011 Wetlands Map.

### 6.11 Active street frontages

1. The objective of this clause is to promote uses that attract pedestrian traffic along certain ground floor street frontages in Zone B4 Mixed Use.

2. This clause applies to land identified as “Active street frontages” on the Active Street Frontages
(3) Development consent must not be granted to the erection of a building, or a change of use of a building, on land to which this clause applies unless the consent authority is satisfied that the building will have an active street frontage after its erection or change of use.

(4) Despite subclause (3), an active street frontage is not required for any part of a building that is used for any of the following—

(a) entrances and lobbies (including as part of mixed use development),

(b) access for fire services,

(c) vehicle access.

(5) In this clause, a building has an active street frontage if all premises on the ground floor of the building facing the street are used for the purposes of business premises or retail premises.

(6) In this clause—

*Active Street Frontages Map* means the Rockdale Local Environmental Plan 2011 Active Street Frontages Map.

### 6.12 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the proposed development are available or that adequate arrangements have been made to make them available when required—

(a) the supply of water,

(b) the supply of electricity,

(c) the disposal and management of sewage,

(d) stormwater drainage or on-site conservation,

(e) suitable road access.

### 6.13 Location of sex services premises

(1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.

(2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following—

(a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land—

(i) in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or

(ii) used for the purposes of a centre-based child care facility, a community facility, a
school or a place of public worship,

**Note.** When this Plan was made it did not include Zone R1 General Residential.

(b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children—
   (i) that adjoins the proposed development, or
   (ii) that can be viewed from the proposed development, or
   (iii) from which a person can view the proposed development.

### 6.14 Design excellence

(1) The objective of this clause is to deliver the highest standard of architectural, urban and landscape design.

(2) This clause applies to the following development—
   (a) development involving the erection of a new building or external alterations to an existing building within the Arncliffe Precinct or the Banksia Precinct,
   (b) development that is the erection of a new building on land bounded by a heavy black line on the Design Excellence Map,
   (c) development that is the subject of a development application that relies on clause 4.3 (2A) (a), (f), (g), (h), (i) or (k).

**Note.** In determining an application for a modification of a development consent granted under this clause, the consent authority must again take the requirements of this clause into consideration (see section 4.55 (3) of the Act).

(3) Development consent must not be granted to development to which this clause applies unless the consent authority considers that the development exhibits design excellence.

(4) In considering whether the development exhibits design excellence, the consent authority must have regard to the following matters—
   (a) whether a high standard of architectural design, materials and detailing appropriate to the building type and location will be achieved,
   (b) whether the form, arrangement and external appearance of the development will improve the quality and amenity of the public domain,
   (c) whether the development detrimentally impacts on view corridors,
   (d) the requirements of any development control plan made by the Council and as in force at the commencement of this clause,
   (e) how the development addresses the following matters—
      (i) the suitability of the land for development,
      (ii) existing and proposed uses and use mix,
(iii) heritage issues and streetscape constraints,

(iv) the relationship of the development with other development (existing or proposed) on the same site or on neighbouring sites in terms of separation, setbacks, amenity and urban form,

(v) bulk, massing and modulation of buildings,

(vi) street frontage heights,

(vii) environmental impacts such as sustainable design, overshadowing, wind and reflectivity,

(viii) the achievement of the principles of ecologically sustainable development,

(ix) pedestrian, cycle, vehicular and service access, circulation and requirements,

(x) the impact on, and any proposed improvements to, the public domain,

(xi) achieving appropriate interfaces at ground level between the building and the public domain,

(xii) excellence and integration of landscape design.

(5) In addition, development consent must not be granted to development to which this clause applies unless—

(a) if the development is in respect of a building that is, or will be, higher than 12 metres or 3 storeys (or both) but not higher than 40 metres or 12 storeys (or both)—

(i) a design review panel reviews the development, and

(ii) the consent authority takes into account the findings of the design review panel, or

(b) if the development is in respect of a building that is, or will be, higher than 40 metres or 12 storeys (or both)—

(i) an architectural design competition is held in relation to the development, and

(ii) the consent authority takes into account the results of the architectural design competition.

(6) Subclause (5) (b) does not apply if—

(a) the NSW Government Architect certifies in writing that an architectural design competition need not be held but that a design review panel should instead review the development, and

(b) a design review panel reviews the development, and

(c) the consent authority takes into account the findings of the design review panel.

(7) An architectural design competition conducted in accordance with Design Excellence Guidelines that were in force when the competition was conducted is taken to have been conducted in accordance with the Design Excellence Guidelines.
In this clause—

architectural design competition means a competitive process conducted in accordance with the Design Excellence Guidelines.

Design Excellence Guidelines means the Design Excellence Guidelines adopted by the Council and in force at the commencement of State Environmental Planning Policy Amendment (Arncliffe and Banksia Precincts) 2018, or, if none have been adopted, the Design Excellence Guidelines issued by the Secretary.

design review panel means a panel of 3 or more persons established by the consent authority for the purposes of this clause and approved by the NSW Government Architect.

6.15 Site area of proposed development in Arncliffe and Banksia Precincts includes dedicated land

The site area of proposed development on land within the Arncliffe Precinct or the Banksia Precinct is, for the purpose of applying a floor space ratio under clause 4.5, taken to include land that—

(a) is dedicated to the Council or a public authority for a public purpose (including roads, drainage or open space), and

(b) would have been part of the site area if it had not been so dedicated.

Part 7 Intensive urban development areas

7.1 Arrangements for designated State public infrastructure

(1) The objective of this clause is to require satisfactory arrangements to be made for the provision of designated State public infrastructure before the development of land for the purposes of residential accommodation to satisfy needs that arise from development on the land, but only if the land is developed intensively for urban purposes.

(2) Despite all other provisions of this Plan, development consent must not be granted for development for the purposes of residential accommodation in an intensive urban development area unless the Secretary has certified in writing to the consent authority that satisfactory arrangements have been made to contribute to the provision of designated State public infrastructure in relation to the land on which the development is to be carried out.

(3) This clause does not apply to a development application to carry out development on land in an intensive urban development area if—

(a) all or any part of the land to which the application applies is a special contributions area (as defined by section 7.1 of the Act), or

(b) the development will not result in an increase in residential accommodation within the intensive urban development area.

(4) In this Part—

designated State public infrastructure means public facilities or services that are provided or financed by the State (or if provided or financed by the private sector, to the extent of any financial or in-kind contribution by the State) of the following kinds—
(a) State and regional roads,
(b) bus interchanges and bus lanes,
(c) regional open space,
(d) social infrastructure and facilities (such as schools, hospitals, emergency services and facilities for justice purposes).

*intensive urban development area* means the Arncliffe Precinct or the Banksia Precinct.

### 7.2 Public utility infrastructure

1. Development consent must not be granted for development on land in an intensive urban development area unless the Council is satisfied that any public utility infrastructure that is essential for the proposed development is available or that adequate arrangements have been made to make that infrastructure available when required.

2. This clause does not apply to development for the purpose of providing, extending, augmenting, maintaining or repairing any public utility infrastructure.

3. In this clause—

   *public utility infrastructure*, in relation to an intensive urban development area, includes infrastructure for any of the following—
   (a) the supply of water,
   (b) the supply of electricity,
   (c) the disposal and management of sewage.

### 7.3 Relationship between Part and remainder of Plan

A provision of this Part prevails over any other provision of this Plan to the extent of any inconsistency.

(2) Development for the purposes of a registered club or a restaurant or cafe is permitted with development consent.

Schedule 2 Exempt development

Note 1. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2. Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners’ property rights and the common law still apply.

Signage—general

(1) Signage must not be installed on or in, or in relation to, a heritage item or a draft heritage item (within the meaning of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008).

(2) Signage installed behind the glass line of a shop window need not comply with subclause (1) or any of the other requirements of this Schedule so long as the signage does not cover more than 40% of the surface area of the window.

(3) Any advertisement that is not visible from outside the site on which it is displayed need not comply with subclause (1) or any of the other requirements set out in this Schedule.

(4) A sign that replaces a sign that has been approved, or authorised by development consent, under the Act must not be larger than that sign.

Home occupation signage

(1) Only 1 per site.

(2) Maximum area—750mm².

(3) Must be located wholly within the boundaries of the subject property.
A-frame signs and sandwich boards

(1) Must be portable and free standing (consisting of two boards joined by one edge or any other means).

(2) Must not be located on a public footpath unless—

(a) the sign or signs are installed in accordance with the Footway Trading Policy, published by the Council with effect on 1 July 2012, and

(b) the sign or signs are not illuminated.

Business identification signage

(1) In the case of business identification signage on land in Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone R4 High Density Residential—

(a) must relate to the use of the land on which it is erected and not involve any third party advertising, and

(b) may have a maximum area of 1m$^2$, and

(c) must be affixed to the building no higher than 3m above finished ground level and below the eaves line of the building, and

(d) must not overhang a public road or footpath, and

(e) must not be illuminated or have any flashing or moving elements.

(2) In the case of business identification signage on land in Zone B1 Neighbourhood Centre, Zone B2 Local Centre or Zone B4 Mixed Use—

(a) if the premises concerned have an awning, there may be—

(i) one or more business identification signs below the level of the awning, and

(ii) not more than one building identification sign on the awning fascia, and

(iii) not more than one suspended under-awning sign or projecting wall sign for each 3 metres of the length of the shop front of the premises, each of which must not exceed 2.5 metres in length or 0.5 metre in height and no part of which is to be less than 2.6 metres above finished ground level.

(b) if the premises concerned do not have an awning, there may be one or more such signs, but none is to extend more than 4.6 metres above ground level or above the level of the bottom of the first floor window (whichever is lower) and not more than 50% of the area of the shop front of the premises is to be covered by such signs.

(3) In the case of business identification signage on land in Zone B6 Enterprise Corridor or Zone IN2 Light Industrial—

(a) on premises consisting of a neighbourhood shop, must comply with the requirements applying to business identification signage under subclause (2), or
(b) on any other premises, have a maximum area of $10\text{m}^2$.

**Schedule 3 Complying development**

*(Clause 3.2)*

**Note.** *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

**Part 1 Types of development**

*(When this Plan was made this Part was blank.)*

**Part 2 Complying development certificate conditions**

**Note.** Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

**General conditions**

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.*

Schedule 6 Pond-based and tank-based aquaculture

(Clause 5.19)

Part 1 Pond-based and tank-based aquaculture

Division 1 Site location requirements

1 Conservation exclusion zones

(1) Must not be carried out on the following land, except to the extent necessary to gain access to water—

(a) land declared an area of outstanding biodiversity value under the Biodiversity Conservation Act 2016,

(b) vacant Crown land,

(c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

(2) Must not be carried out on the following land, except for the purposes of minimal infrastructure to support the extraction of water from, and discharge of water to, the land concerned—

(a) land declared as an aquatic reserve under the Marine Estate Management Act 2014,

(b) land declared as a marine park under the Marine Estate Management Act 2014.

Note. Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain
Division 2 Operational requirements

2 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

3 Pond-based aquaculture that is also intensive aquaculture—pond design

For pond-based aquaculture that is also intensive aquaculture—ponds must be capable of being drained or pumped and then completely dried.

4 Pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—freshwater discharges

For pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—no discharge of freshwater used to intensively cultivate or keep fish to natural waterbodies or wetlands is permitted, except freshwater discharge from open flow through systems.

5 Outlets from culture ponds etc

All outlets from culture ponds, tanks and other culture facilities must be screened to avoid the escape of fish.

6 Definition

In this Division—

intensive aquaculture has the same meaning as it has in the Fisheries Management (Aquaculture) Regulation 2017.

Part 2 Extensive pond-based aquaculture

Division 1 Site location requirements

7 Conservation exclusion zones

(1) Must not be carried out on the following land, except to the extent necessary to gain access to water—

(a) land declared an area of outstanding biodiversity value under the Biodiversity Conservation Act 2016,

(b) vacant Crown land,

(c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

Note. Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.
8 Flood liability

Must be designed or constructed on land so that it will not be inundated by the discharge of a 1:100 ARI (average recurrent interval) flood event.

Division 2 Operational requirements

9 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

10 Pond design

(1) Must not require the construction of new ponds, water storages, dams or buildings.

(2) Must not be located on permanent watercourses, creeks, billabongs or isolated outreaches of creeks or rivers.

(3) Must be capable of preventing the escape of stock into natural waterbodies or wetlands.

11 Culture water

Must use freshwater.

Dictionary

Note. The Act and the Interpretation Act 1987 contain definitions and other provisions that affect the interpretation and application of this Plan.

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is—

(a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or

(b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note. The term may include (but is not limited to) places that are declared under section 84 of the National Parks and Wildlife Act 1974 to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

Acid Sulfate Soils Manual means the manual by that name published by the Acid Sulfate Soils Management
Advisory Committee and made publicly available.

**advertisement** has the same meaning as in the Act.

**Note.** The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

**advertising structure** has the same meaning as in the Act.

**Note.** The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

**affordable housing** has the same meaning as in the Act.

**Note.** The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

**agricultural produce industry** means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

**Note.**

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

**agriculture** means any of the following—

(a) aquaculture,

(b) extensive agriculture,

(c) intensive livestock agriculture,

(d) intensive plant agriculture.

**Note.** Part 6 of the *Plantations and Reafforestation Act 1999* provides that exempt farm forestry within the meaning of that Act is not subject to the *Environmental Planning and Assessment Act 1979*.

**air transport facility** means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

**airport** means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

**Note.**

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.

**airstrip** means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

**amusement centre** means a building or place (not being part of a pub or registered club) used principally for playing—

(a) billiards, pool or other like games, or

(b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

**animal boarding or training establishment** means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any
associated riding school or ancillary veterinary hospital.

*aquaculture* has the same meaning as in the *Fisheries Management Act 1994*. It includes oyster aquaculture, pond-based aquaculture and tank-based aquaculture.

**Note.**

Aquaculture is a type of *agriculture*—see the definition of that term in this Dictionary.

*archaeological site* means a place that contains one or more relics.

*Arncliffe Precinct* means the land identified as “Arncliffe Precinct” on the Design Excellence Map.

*artisan food and drink industry* means a building or place the principal purpose of which is the making or manufacture of boutique, artisan or craft food or drink products only. It must also include at least one of the following—

(a) a retail area for the sale of the products,

(b) a restaurant or cafe,

(c) facilities for holding tastings, tours or workshops.

**Note.** See clause 5.4 for controls in industrial or rural zones relating to the retail floor area of an artisan food and drink industry.

Artisan food and drink industries are a type of *light industry*—see the definition of that term in this Dictionary.

*attached dwelling* means a building containing 3 or more dwellings, where—

(a) each dwelling is attached to another dwelling by a common wall, and

(b) each of the dwellings is on its own lot of land, and

(c) none of the dwellings is located above any part of another dwelling.

**Note.**

Attached dwellings are a type of *residential accommodation*—see the definition of that term in this Dictionary.

*attic* means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

*backpackers’ accommodation* means a building or place that—

(a) provides temporary or short-term accommodation on a commercial basis, and

(b) has shared facilities, such as a communal bathroom, kitchen or laundry, and

(c) provides accommodation on a bed or dormitory-style basis (rather than by room).

**Note.**

Backpackers’ accommodation is a type of *tourist and visitor accommodation*—see the definition of that term in this Dictionary.

*Banksvia Precinct* means the land identified as “Banksvia Precinct” on the Design Excellence Map.

*basement* means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

*bed and breakfast accommodation* means an existing dwelling in which temporary or short-term accommodation
is provided on a commercial basis by the permanent residents of the dwelling and where—

(a) meals are provided for guests only, and

(b) cooking facilities for the preparation of meals are not provided within guests’ rooms, and

(c) dormitory-style accommodation is not provided.

**Note.** See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**bee keeping** means a building or place used for the keeping and breeding of bees for commercial purposes.

**Note.**

Bee keeping is a type of **extensive agriculture**—see the definition of that term in this Dictionary.

**biodiversity** or **biological diversity** means the variety of living animal and plant life from all sources, and includes diversity within and between species and diversity of ecosystems.

**biosolids treatment facility** means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

**Note.**

Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

**boarding house** means a building that—

(a) is wholly or partly let in lodgings, and

(b) provides lodgers with a principal place of residence for 3 months or more, and

(c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and

(d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers,

but does not include backpackers’ accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

**Note.**

Boarding houses are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**boat building and repair facility** means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.

**boat launching ramp** means a structure designed primarily for the launching of trailer borne recreational vessels, and includes associated car parking facilities.

**boat shed** means a building or other structure used for the storage and routine maintenance of a boat or boats and that is associated with a private dwelling or non-profit organisation, and includes any skid used in connection with the building or other structure.

**brothel** has the same meaning as in the Act.

**Note.**
This definition is relevant to the definitions of home occupation (sex services) and sex services premises in this Dictionary.

Building has the same meaning as in the Act.

Note. The term is defined to include part of a building and any structure or part of a structure, but not including a manufactured home, a moveable dwelling or associated structure (or part of a manufactured home, moveable dwelling or associated structure).

Building height (or height of building) means—

(a) in relation to the height of a building in metres—the vertical distance from ground level (existing) to the highest point of the building, or

(b) in relation to the RL of a building—the vertical distance from the Australian Height Datum to the highest point of the building, including plant and lift overruns, but excluding communication devices, antennae, satellite dishes, masts, flagpoles, chimneys, flues and the like.

Building identification sign means a sign that identifies or names a building and that may include the name of a building, the street name and number of a building, and a logo or other symbol but does not include general advertising of products, goods or services.

Note. Building identification signs are a type of signage—see the definition of that term in this Dictionary.

Building line or setback means the horizontal distance between the property boundary or other stated boundary (measured at 90 degrees from the boundary) and—

(a) a building wall, or

(b) the outside face of any balcony, deck or the like, or

(c) the supporting posts of a carport or verandah roof,

water recycling facility means a building or place used for the treatment of sewage effluent, stormwater or waste water for use as an alternative supply to mains water, groundwater or river water (including, in particular, sewer mining works), whether the facility stands alone or is associated with other development, and includes associated—
(a) retention structures, and
(b) treatment works, and
(c) irrigation schemes.

Note.
Water recycling facilities are a type of sewerage system—see the definition of that term in this Dictionary.

water reticulation system means a building or place used for the transport of water, including pipes, tunnels, canals, pumping stations, related electricity infrastructure and dosing facilities.

Note.
Water reticulation systems are a type of water supply system—see the definition of that term in this Dictionary.

water storage facility means a dam, weir or reservoir for the collection and storage of water, and includes associated monitoring or gauging equipment.

Note.
Water storage facilities are a type of water supply system—see the definition of that term in this Dictionary.

water supply system means any of the following—
(a) a water reticulation system,
(b) a water storage facility,
(c) a water treatment facility,
(d) a building or place that is a combination of any of the things referred to in paragraphs (a)–(c).

**water treatment facility** means a building or place used for the treatment of water (such as a desalination plant or a recycled or reclaimed water plant) whether the water produced is potable or not, and includes residuals treatment, storage and disposal facilities, but does not include a water recycling facility.

**Note.**

Water treatment facilities are a type of **water supply system**—see the definition of that term in this Dictionary.

**waterbody** means a waterbody (artificial) or waterbody (natural).

**waterbody (artificial) or artificial waterbody** means an artificial body of water, including any constructed waterway, canal, inlet, bay, channel, dam, pond, lake or artificial wetland, but does not include a dry detention basin or other stormwater management construction that is only intended to hold water intermittently.

**waterbody (natural) or natural waterbody** means a natural body of water, whether perennial or intermittent, fresh, brackish or saline, the course of which may have been artificially modified or diverted onto a new course, and includes a river, creek, stream, lake, lagoon, natural wetland, estuary, bay, inlet or tidal waters (including the sea).

**watercourse** means any river, creek, stream or chain of ponds, whether artificially modified or not, in which water usually flows, either continuously or intermittently, in a defined bed or channel, but does not include a waterbody (artificial).

**waterway** means the whole or any part of a watercourse, wetland, waterbody (artificial) or waterbody (natural).

**wetland** means—

(a) natural wetland, including marshes, mangroves, backwaters, billabongs, swamps, sedgelands, wet meadows or wet heathlands that form a shallow waterbody (up to 2 metres in depth) when inundated cyclically, intermittently or permanently with fresh, brackish or salt water, and where the inundation determines the type and productivity of the soils and the plant and animal communities, or

(b) artificial wetland, including marshes, swamps, wet meadows, sedgelands or wet heathlands that form a shallow waterbody (up to 2 metres in depth) when inundated cyclically, intermittently or permanently with water, and are constructed and vegetated with wetland plant communities.

**wharf or boating facilities** means a wharf or any of the following facilities associated with a wharf or boating that are not port facilities—

(a) facilities for the embarkation or disembarkation of passengers onto or from any vessels, including public ferry wharves,

(b) facilities for the loading or unloading of freight onto or from vessels and associated receival, land transport and storage facilities,
