Part 1 Preliminary

1.1 Name of Plan

This Plan is *Harden Local Environmental Plan 2011*.

1.1AA Commencement

This Plan commences 7 days after the day on which it is published on the NSW legislation website.

1.2 Aims of Plan

(1) This Plan aims to make local environmental planning provisions for land in Harden in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.

(2) The particular aims of this Plan are as follows—

(a) to protect and encourage a diversity of sustainable primary industry production,

(b) to protect primary industry production areas from conflicting land uses,

(c) to encourage the proper management, development and conservation of natural and human resources in Harden by protecting, enhancing, managing and conserving—

   (i) areas of high scenic or recreational value, and

   (ii) areas of significance for nature conservation, and

   (iii) timber, minerals, soil, water, vegetation and other natural resources, and

   (iv) landscapes, places and buildings of archaeological or heritage significance,

(d) to provide opportunities for—

   (i) industrial relocation and development, employment, economic and enterprise growth, and

   (ii) the expansion of Harden-Murrumburrah township and village areas to meet future urban growth needs, and

   (iii) rural small holding subdivisions,

(e) to encourage a built environment which is attractive to visitors, residents and investors.
1.3 **Land to which Plan applies**

This Plan applies to the land identified on the Land Application Map.

1.4 **Definitions**

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 **Notes**

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 **Consent authority**

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 **Maps**

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—

   (a) approved by the local plan-making authority when the map is adopted, and

   (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.

(1AA) (Repealed)

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

*Note*. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 **Repeal of planning instruments applying to land**

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

   *Note*. The following local environmental plans are repealed under this provision—

   *Interim Development Order No 1—Harden*

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.
1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note. However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

(1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.

(2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

State Environmental Planning Policy No 1—Development Standards

1.9A Suspension of covenants, agreements and instruments

(1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

(2) This clause does not apply—

(a) to a covenant imposed by the Council or that the Council requires to be imposed, or

(b) to any relevant instrument within the meaning of section 13.4 of the Crown Land Management Act 2016, or

(c) to any conservation agreement within the meaning of the National Parks and Wildlife Act 1974, or

(d) to any Trust agreement within the meaning of the Nature Conservation Trust Act 2001, or

(e) to any property vegetation plan within the meaning of the Native Vegetation Act 2003, or

(f) to any biobanking agreement within the meaning of Part 7A of the Threatened Species Conservation Act 1995, or

(g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.

(3) This clause does not affect the rights or interests of any public authority under any registered instrument.

(4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).
Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows—

**Rural Zones**

RU1 Primary Production

RU4 Primary Production Small Lots

RU5 Village

**Residential Zones**

R1 General Residential

R5 Large Lot Residential

**Business Zones**

B4 Mixed Use

**Industrial Zones**

IN1 General Industrial

IN2 Light Industrial

**Special Purpose Zones**

SP2 Infrastructure

SP3 Tourist

**Recreation Zones**

RE1 Public Recreation

RE2 Private Recreation

**Waterway Zones**

W1 Natural Waterways

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table

(1) The Land Use Table at the end of this Part specifies for each zone—

(a) the objectives for development, and

(b) development that may be carried out without development consent, and

(c) development that may be carried out only with development consent, and
(d) development that is prohibited.

(2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.

(3) In the Land Use Table at the end of this Part—

(a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and

(b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes.

1 Schedule 1 sets out additional permitted uses for particular land.
2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
4 Clause 2.6 requires consent for subdivision of land.
5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

(1) Development may be carried out on unzoned land only with development consent.

(2) In deciding whether to grant development consent, the consent authority—

(a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and

(b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

(1) Development on particular land that is described or referred to in Schedule 1 may be carried out—

(a) with development consent, or

(b) if the Schedule so provides—without development consent,

in accordance with the conditions (if any) specified in that Schedule in relation to that development.

(2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

(1) Land to which this Plan applies may be subdivided, but only with development consent.
Notes.

1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, the Act enables it to be carried out without development consent.

2 Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 provides that the strata subdivision of a building in certain circumstances is **complying development**.

(2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

**Note.** The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note.** If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, as exempt development, the Act enables it to be carried out without consent.

2.8 Temporary use of land

(1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

(2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 72 days (whether or not consecutive days) in any period of 12 months.

(3) Development consent must not be granted unless the consent authority is satisfied that—

   (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and

   (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and

   (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and

   (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.

(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.

(5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).
Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies—

- State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)
- State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004
- State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems
- State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
- State Environmental Planning Policy No 33—Hazardous and Offensive Development
- State Environmental Planning Policy No 50—Canal Estate Development
- State Environmental Planning Policy No 64—Advertising and Signage
- State Environmental Planning Policy (Primary Production and Rural Development) 2019

Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To encourage the development of non-agricultural land uses that are compatible with the character of the zone.

2 Permitted without consent

Airstrips; Environmental protection works; Extensive agriculture; Home occupations; Roads

3 Permitted with consent

Agriculture; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Community facilities; Correctional centres; Crematoria; Depots; Dwelling houses; Educational establishments; Environmental facilities; Extractive industries; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Freight transport facilities; Helipads; Highway service centres; Home-based child care; Home businesses; Home industries; Information and education facilities; Intensive livestock agriculture; Intensive plant agriculture; Jetties; Mooring pens; Moorings; Open cut mining; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Research stations; Roadside stalls; Rural industries; Rural supplies; Rural workers’ dwellings; Secondary dwellings; Signage; Veterinary hospitals; Water recreation structures; Water supply systems
4 **Prohibited**

Schools; Any other development not specified in item 2 or 3

**Zone RU4  Primary Production Small Lots**

1 **Objectives of zone**

- To enable sustainable primary industry and other compatible land uses.
- To encourage and promote diversity and employment opportunities in relation to primary industry enterprises, particularly those that require smaller lots or that are more intensive in nature.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 **Permitted without consent**

Extensive agriculture; Home occupations; Roads

3 **Permitted with consent**

Agriculture; Agricultural produce industries; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Cellar door premises; Dairies (pasture-based); Dwelling houses; Environmental protection works; Farm buildings; Farm stay accommodation; Flood mitigation works; Home-based child care; Home businesses; Home industries; Information and education facilities; Intensive plant agriculture; Landscaping material supplies; Plant nurseries; Recreation facilities (outdoor); Roadside stalls; Secondary dwellings; Signage; Stock and sale yards; Veterinary hospitals

4 **Prohibited**

Intensive livestock agriculture; Any other development not specified in item 2 or 3

**Zone RU5  Village**

1 **Objectives of zone**

- To provide for a range of land uses, services and facilities that are associated with a rural village.
- To ensure that development is sustainable within the villages of Wombat, Jugiong and Galong and is compatible with their residential and service functions.

2 **Permitted without consent**

Environmental protection works; Home occupations; Roads

3 **Permitted with consent**

Agricultural produce industries; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat sheds; Camping grounds; Car parks; Caravan parks; Centre-based child care facilities; Commercial premises; Community facilities; Depots; Dwelling houses; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Flood mitigation works; Freight transport facilities; Function centres; Highway service centres; Home-based child care; Home businesses; Home occupations (sex services); Information and education facilities; Light industries; Liquid fuel depots; Mortuaries; Neighbourhood shops; Oyster
aquaculture; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Respite day care centres; Schools; Self storage units; Service stations; Sewerage systems; Signage; Tank-based aquaculture; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Waste or resource management facilities; Water supply systems; Wholesale supplies

4 Prohibited

Farm stay accommodation; Hardware and building supplies; Multi dwelling housing; Pond-based aquaculture; Residential flat buildings; Rural workers’ dwellings; Timber yards; Any other development not specified in item 2 or 3

Zone R1 General Residential

1 Objectives of zone

• To provide for the housing needs of the community.

• To provide for a variety of housing types and densities.

• To enable other land uses that provide facilities or services to meet the day to day needs of residents.

2 Permitted without consent

Home occupations; Roads

3 Permitted with consent

Attached dwellings; Boarding houses; Centre-based child care facilities; Community facilities; Dwelling houses; Group homes; Home industries; Hostels; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Residential flat buildings; Respite day care centres; Semi-detached dwellings; Seniors housing; Shop top housing; Tank-based aquaculture; Water reticulation systems; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Agriculture; Airstrips; Air transport facilities; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat launching ramps; Boat sheds; Business premises; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Emergency services facilities; Entertainment facilities; Environmental facilities; Extractive industries; Farm buildings; Farm stay accommodation; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Restricted premises; Research stations; Retail premises; Rural industries; Rural workers’ dwellings; Service stations; Sewerage systems; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body
repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water supply systems; Wharf or boating facilities; Wholesale supplies

**Zone R5  Large Lot Residential**

**1 Objectives of zone**

- To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

**2 Permitted without consent**

Home occupations; Roads

**3 Permitted with consent**

Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Community facilities; Dwelling houses; Emergency services facilities; Environmental protection works; Exhibition homes; Flood mitigation works; Group homes; Home-based child care; Home businesses; Home occupations (sex services); Landscaping material supplies; Light industries; Oyster aquaculture; Plant nurseries; Pond-based aquaculture; Recreation facilities (indoor); Recreation facilities (outdoor); Research stations; Secondary dwellings; Tank-based aquaculture

**4 Prohibited**

Any other development not specified in item 2 or 3

**Zone B4  Mixed Use**

**1 Objectives of zone**

- To provide a mixture of compatible land uses.
- To integrate suitable business, office, residential, retail and other development in accessible locations so as to maximise public transport patronage and encourage walking and cycling.
- To provide a wide range of facilities that service the needs of the wider community and the travelling public.

**2 Permitted without consent**

Home occupations; Roads
3 Permitted with consent

Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Function centres; Hotel or motel accommodation; Information and education facilities; Medical centres; Oyster aquaculture; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Seniors housing; Shop top housing; Tank-based aquaculture; Water reticulation systems; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Airstrips; Air transport facilities; Animal boarding or training establishments; Attached dwellings; Boat building and repair facilities; Boat launching ramps; Boat sheds; Cemeteries; Charter and tourism boating facilities; Crematoria; Eco-tourist facilities; Electricity generating works; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Farm stay accommodation; Forestry; Helipads; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Open cut mining; Pond-based aquaculture Recreation areas; Recreation facilities (major); Research stations; Rural industries; Rural workers’ dwellings; Self storage units; Semi-detached dwellings; Sewerage systems; Sex services premises; Transport depots; Truck depots; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water supply systems; Wharf or boating facilities

Zone IN1  General Industrial

1 Objectives of zone

• To provide a wide range of industrial and warehouse land uses.

• To encourage employment opportunities.

• To minimise any adverse effect of industry on other land uses.

• To support and protect industrial land for industrial uses.

• To be the core industrial area for the Harden local government area.

2 Permitted without consent

Roads

3 Permitted with consent

Depots; Freight transport facilities; Garden centres; General industries; Hardware and building supplies; Industrial training facilities; Kiosks; Landscaping material supplies; Light industries; Neighbourhood shops; Oyster aquaculture; Places of public worship; Plant nurseries; Take away food and drink premises; Tank-based aquaculture; Timber yards; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Airstrips; Air transport facilities; Amusement centres; Animal boarding or training establishments; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Car parks;
Cemeteries; Centre-based child care facilities; Charter and tourism boating facilities; Commercial premises; Community facilities; Correctional centres; Eco-tourist facilities; Educational establishments; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Function centres; Hazardous storage establishments; Health services facilities; Heavy industries; Helipads; Highway service centres; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Information and education facilities; Jetties; Marinas; Medical centres; Mooring pens; Moorings; Offensive storage establishments; Passenger transport facilities; Pond-based aquaculture; Public administration buildings; Registered clubs; Research stations; Residential accommodation; Respite day care centres; Service stations; Tourist and visitor accommodation; Veterinary hospitals; Water recreation structures; Wharf or boating facilities

Zone IN2  Light Industrial

1 Objectives of zone

- To provide a wide range of light industrial, warehouse and related land uses.
- To encourage employment opportunities and to support the viability of centres.
- To minimise any adverse effect of industry on other land uses.
- To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area.
- To support and protect industrial land for industrial uses.

2 Permitted without consent

Roads

3 Permitted with consent

Agricultural produce industries; Depots; Garden centres; Hardware and building supplies; Industrial training facilities; Kiosks; Landscaping material supplies; Light industries; Neighbourhood shops; Oyster aquaculture; Places of public worship; Plant nurseries; Rural supplies; Take away food and drink premises; Tank-based aquaculture; Timber yards; Vehicle sales or hire premises; Water reticulation systems; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Airstrips; Air transport facilities; Amusement centres; Animal boarding or training establishments; Boat launching ramps; Boat sheds; Business premises; Camping grounds; Caravan parks; Car parks; Cemeteries; Centre-based child care facilities; Charter and tourism boating facilities; Community facilities; Correctional centres; Crematoria; Eco-tourist facilities; Educational establishments; Emergency services facilities; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Freight transport facilities; Forestry; Hazardous storage establishments; Health services facilities; Helipads; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Industries; Information and education facilities; Jetties; Marinas; Medical centres; Mooring pens; Moorings; Mortuaries; Offensive storage establishments; Open cut mining; Passenger transport facilities; Pond-based aquaculture; Public administration buildings; Recreation areas; Recreation facilities (major);
Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Respite day care centres; Restricted premises; Retail premises; Rural industries; Sewerage systems; Sex services premises; Tourist and visitor accommodation; Water recreation structures; Water supply systems; Wharf or boating facilities

**Zone SP2  Infrastructure**

1 **Objectives of zone**

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 **Permitted without consent**

   Roads

3 **Permitted with consent**

   Aquaculture; The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

4 **Prohibited**

   Any development not specified in item 2 or 3

**Zone SP3  Tourist**

1 **Objectives of zone**

- To provide for a variety of tourist-oriented development and related uses.

2 **Permitted without consent**

   Nil

3 **Permitted with consent**

   Aquaculture; Dwelling houses; Food and drink premises; Home industries; Roads; Secondary dwellings; Tourist and visitor accommodation; Any other development not specified in item 2 or 4

4 **Prohibited**

   Animal boarding or training establishments; Biosolids treatment facilities; Business premises; Centre-based child care facilities; Correctional centres; Crematoria; Dairies (pasture-based); Depots; Educational establishments; Electricity generating works; Exhibition homes; Exhibition villages; Extractive industries; Freight transport facilities; Hardware and building supplies; Health services facilities; Heavy industrial storage establishments; Home occupations (sex services); Industries; Intensive livestock agriculture; Landscaping material supplies; Livestock processing industries; Mortuaries; Office premises; Places of public worship; Public administration buildings; Residential accommodation; Respite day care centres; Restricted premises; Rural supplies; Sawmill or log processing works; Sex services premises; Specialised retail premises; Stock and sale yards; Storage premises; Timber yards; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire
premises; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities

Zone RE1  Public Recreation

1 Objectives of zone

• To enable land to be used for public open space or recreational purposes.
• To provide a range of recreational settings and activities and compatible land uses.
• To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; Building identification signs; Camping grounds; Caravan parks; Community facilities; Environmental facilities; Environmental protection works; Flood mitigation works; Kiosks; Markets; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor)

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2  Private Recreation

1 Objectives of zone

• To enable land to be used for private open space or recreational purposes.
• To provide a range of recreational settings and activities and compatible land uses.
• To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Roads

3 Permitted with consent

4 Prohibited

Any development not specified in item 2 or 3
Zone W1  Natural Waterways

1 Objectives of zone

• To protect the ecological and scenic values of natural waterways.
• To prevent development that would have an adverse effect on the natural values of waterways in this zone.
• To provide for sustainable fishing industries and recreational fishing.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture Boat launching ramps; Environmental facilities; Environmental protection works; Jetties; Mooring pens; Moorings; Water recreation structures

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development—

(a) must meet the relevant deemed-to-satisfy provisions of the Building Code of Australia or, if there are no such relevant provisions, must be structurally adequate, and

(b) must not, if it relates to an existing building, cause the building to contravene the Building Code of Australia, and

(c) must not be designated development, and

(d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the Heritage Act 1977 or that is subject to an interim heritage order under the Heritage Act 1977.

(4) Development that relates to an existing building that is classified under the Building Code of Australia as class 1b or class 2–9 is exempt development only if—

(a) the building has a current fire safety certificate or fire safety statement, or
(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must—

(a) be installed in accordance with the manufacturer’s specifications, if applicable, and

(b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note. See State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017 and Part 5A of the Local Land Services Act 2013.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—

(a) the development standards specified in relation to that development, and

(b) the requirements of this Part,

is complying development.

Note. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must—

(a) be permissible, with development consent, in the zone in which it is carried out, and

(b) meet the relevant deemed-to-satisfy provisions of the Building Code of Australia, and

(c) have an approval, if required by the Local Government Act 1993, from the Council for an on-site effluent disposal system if the development is undertaken on uns sewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause—

environmentally sensitive area for exempt or complying development means any of the following—

(a) the coastal waters of the State,
(b) a coastal lake,

(c) land within the coastal wetlands and littoral rainforests area (within the meaning of the Coastal Management Act 2016),

(d) land reserved as an aquatic reserve under the Fisheries Management Act 1994 or as a marine park under the Marine Parks Act 1997,

(e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,

(f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,

(g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,

(h) land reserved under the National Parks and Wildlife Act 1974 or land acquired under Part 11 of that Act,

(i) land reserved or dedicated under the Crown Land Management Act 2016 for the preservation of flora, fauna, geological formations or for other environmental protection purposes,

(j) land that is a declared area of outstanding biodiversity value under the Biodiversity Conservation Act 2016 or declared critical habitat under Part 7A of the Fisheries Management Act 1994.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

(1) The objectives of this clause are as follows—

(a) to prevent fragmentation of primary industry land,

(b) to recognise the existing settlement pattern as the most appropriate form of land use,

(c) to ensure lot sizes are appropriate for the use of the land to minimise land use conflicts.

(2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

(4) This clause does not apply in relation to the subdivision of any land—

(a) by the registration of a strata plan or strata plan of subdivision under the Strata Schemes Development Act 2015, or

(b) by any kind of subdivision under the Community Land Development Act 1989.

4.1AA Minimum subdivision lot size for community title schemes

(1) The objectives of this clause are as follows—
(a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the *Community Land Development Act 1989* of land in any of the following zones—

(a) Zone RU1 Primary Production,

(b) Zone RU4 Primary Production Small Lots,

but does not apply to a subdivision by the registration of a strata plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the *Community Land Development Act 1989*) is not to be less than the minimum size shown on the *Lot Size Map* in relation to that land.

(4) This clause applies despite clause 4.1.

### 4.2 Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones—

(a) Zone RU1 Primary Production,

(b) Zone RU2 Rural Landscape,

(baa) Zone RU3 Forestry,

(c) Zone RU4 Primary Production Small Lots,

(d) Zone RU6 Transition.

**Note.** When this plan was made, it did not include Zone RU2 Rural Landscape or Zone RU6 Transition.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the *Lot Size Map* in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

**Note.** A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

### 4.2A Erection of dwelling houses on land in certain rural and residential zones

(1) The objectives of this clause are as follows—

(a) to minimise unplanned rural residential development, and
(b) to enable the replacement of lawfully erected dwelling houses in certain rural and residential zones.

(2) This clause applies to land in the following zones—

(a) Zone RU1 Primary Production,

(b) Zone RU4 Primary Production Small Lots,

(c) Zone R5 Large Lot Residential.

(3) Development consent must not be granted for the erection of a dwelling house on land in a zone to which this clause applies, and on which no dwelling house has been erected, unless the land is—

(a) a lot that is at least the minimum lot size specified for that land by the Lot Size Map, or

(b) a lot created before this Plan commenced and on which the erection of a dwelling house was permissible immediately before that commencement, or

(c) a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house would have been permissible if the plan of subdivision had been registered before that commencement, or

(d) an existing holding.

Note. A dwelling cannot be erected on a lot created under clause 9 of State Environmental Planning Policy (Rural Lands) 2008 or clause 4.2.

(4) Land ceases to be an existing holding for the purposes of subclause (3) (d) if an application for development consent referred to in that subclause is not made in relation to that land within 5 years after the commencement of this Plan.

(5) Despite subclause (3), development consent may be granted for the erection of a dwelling house on land to which this clause applies if—

(a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house, or

(b) the land would have been a lot or a holding referred to in subclause (3) had it not been affected by—

   (i) a minor realignment of its boundaries that did not create an additional lot, or

   (ii) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) In this clause—

existing holding means all adjacent land, even if separated by a road or railway, held in the same ownership—

(a) on 4 June 1976, and
(b) at the time of lodging a development application for the erection of a dwelling house under this clause.

Note. The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

4.2B Minimum subdivision lot size for strata subdivision of residential or tourist and visitor accommodation in certain zones

(1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to land in the following zones that is used, or proposed to be used, for residential accommodation or tourist and visitor accommodation—

(a) Zone RU1 Primary Production,

(b) Zone RU4 Primary Production Small Lots.

(3) Development consent must not be granted for the subdivision of a lot to which this clause applies under a strata plan that would create lots below the minimum size shown on the Lot Size Map for that lot.

4.3 Height of buildings

[Not adopted]

4.4 Floor space ratio

[Not adopted]

4.5 Calculation of floor space ratio and site area

[Not adopted]

4.6 Exceptions to development standards

(1) The objectives of this clause are as follows—

(a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating—

(a) that compliance with the development standard is unreasonable or unnecessary in the
circumstances of the case, and

(b) that there are sufficient environmental planning grounds to justify contravening the development standard.

(4) Development consent must not be granted for development that contravenes a development standard unless—

(a) the consent authority is satisfied that—

(i) the applicant’s written request has adequately addressed the matters required to be demonstrated by subclause (3), and

(ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Planning Secretary has been obtained.

(5) In deciding whether to grant concurrence, the Planning Secretary must consider—

(a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and

(b) the public benefit of maintaining the development standard, and

(c) any other matters required to be taken into consideration by the Planning Secretary before granting concurrence.

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if—

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note. When this Plan was made it did not include Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU6 Transition, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant’s written request referred to in subclause (3).

(8) This clause does not allow development consent to be granted for development that would contravene any of the following—

(a) a development standard for complying development,
(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,

(c) clause 5.4.

**Part 5 Miscellaneous provisions**

**5.1 Relevant acquisition authority**

(1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (*the owner-initiated acquisition provisions*).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the *Land Reservation Acquisition Map* (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

(3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

**Note.** When this Plan was made no land in the zones listed in the Table to subclause (2) was included on the *Land Reservation Acquisition Map*.

**5.2 Classification and reclassification of public land**

(1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

**Note.** Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may
also be made by a resolution of the Council under section 31, 32 or 33 of the Local Government Act 1993. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

(2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the Local Government Act 1993.

(3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the Local Government Act 1993.

(4) The public land described in Part 1 of Schedule 4—

(a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and

(b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

(5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—

(a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and

(b) any reservations that except land out of the Crown grant relating to the land, and

(c) reservations of minerals (within the meaning of the Crown Land Management Act 2016).

Note. In accordance with section 30 (2) of the Local Government Act 1993, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

(1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.

(2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is—

(a) 30 metres between Zone RU1 Primary Production and Zone RU4 Primary Production Small Lots, and

(b) 10 metres between Zone RU1 Primary Production and Zone RU5 Village, and

(c) 10 metres between Zone RU4 Primary Production Small Lots and Zone RU5 Village, and

(d) in all other cases 5 metres.

(3) This clause does not apply to—

(a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2
Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or

(b) land within the coastal zone, or

(c) land proposed to be developed for the purpose of sex services or restricted premises.

Note. When this Plan was made it did not include Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation or Zone E3 Environmental Management.

(4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that—

(a) the development is not inconsistent with the objectives for development in both zones, and

(b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.

(5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

(1) Bed and breakfast accommodation If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

Note. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the Building Code of Australia.

(2) Home businesses If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 30 square metres of floor area.

(3) Home industries If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 30 square metres of floor area.

(4) Industrial retail outlets If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—

(a) 33% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or

(b) 400 square metres,

whichever is the lesser.

(5) Farm stay accommodation If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.
(6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 25 square metres.

(7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.

(7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.

(8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 30 square metres.

(9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater—

   (a) 60 square metres,

   (b) 67% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in an industrial or rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

   (a) 33% of the gross floor area of the industry, or

   (b) 400 square metres,

whichever is the lesser.

5.5 (Repealed)

5.6 **Architectural roof features**

[Not adopted]

5.7 **Development below mean high water mark**

[Not applicable]

5.8 **Conversion of fire alarms**

(1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

(2) The following development may be carried out, but only with development consent—

   (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

   (b) converting a fire alarm system from connection with the alarm monitoring system of another private service provider to connection with the alarm monitoring system of another private service provider.
service provider,

(c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

(3) Development to which subclause (2) applies is complying development if it consists only of—

(a) internal alterations to a building, or

(b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause—

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9, 5.9AA (Repealed)

5.10 Heritage conservation

Note. Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

(1) Objectives The objectives of this clause are as follows—

(a) to conserve the environmental heritage of Harden,

(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,

(c) to conserve archaeological sites,

(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) Requirement for consent Development consent is required for any of the following—

(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—

(i) a heritage item,

(ii) an Aboriginal object,

(iii) a building, work, relic or tree within a heritage conservation area,

(b) altering a heritage item that is a building by making structural changes to its interior or by
making changes to anything inside the item that is specified in Schedule 5 in relation to the item,

c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,

d) disturbing or excavating an Aboriginal place of heritage significance,

e) erecting a building on land—

(i) on which a heritage item is located or that is within a heritage conservation area, or

(ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,

(f) subdividing land—

(i) on which a heritage item is located or that is within a heritage conservation area, or

(ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if—

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—

(i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and

(ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or

(b) the development is in a cemetery or burial ground and the proposed development—

(i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and

(ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under
subclause (6).

(5) **Heritage assessment** The consent authority may, before granting consent to any development—

(a) on land on which a heritage item is located, or

(b) on land that is within a heritage conservation area, or

(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies)—

(a) notify the Heritage Council of its intention to grant consent, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—

(a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and

(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied
that—

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note. The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

(1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.

(2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

[Not applicable]

5.14 Siding Spring Observatory—maintaining dark sky

[Not adopted]

5.15 Defence communications facility

[Not adopted]

5.16 Subdivision of, or dwellings on, land in certain rural, residential or environment protection zones

(1) The objective of this clause is to minimise potential land use conflict between existing and proposed development on land in the rural, residential or environment protection zones concerned (particularly between residential land uses and other rural land uses).
(2) This clause applies to land in the following zones—
   (a) Zone RU1 Primary Production,
   (b) Zone RU2 Rural Landscape,
   (c) Zone RU3 Forestry,
   (d) Zone RU4 Primary Production Small Lots,
   (e) Zone RU6 Transition,
   (f) Zone R5 Large Lot Residential,
   (g) Zone E2 Environmental Conservation,
   (h) Zone E3 Environmental Management,
   (i) Zone E4 Environmental Living.

(3) A consent authority must take into account the matters specified in subclause (4) in determining whether to grant development consent to development on land to which this clause applies for either of the following purposes—
   (a) subdivision of land proposed to be used for the purposes of a dwelling,
   (b) erection of a dwelling.

(4) The following matters are to be taken into account—
   (a) the existing uses and approved uses of land in the vicinity of the development,
   (b) whether or not the development is likely to have a significant impact on land uses that, in the opinion of the consent authority, are likely to be preferred and the predominant land uses in the vicinity of the development,
   (c) whether or not the development is likely to be incompatible with a use referred to in paragraph (a) or (b),
   (d) any measures proposed by the applicant to avoid or minimise any incompatibility referred to in paragraph (c).

5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations

[Not applicable]

5.18 Intensive livestock agriculture

(1) The objectives of this clause are—
   (a) to ensure appropriate environmental assessment of development for the purpose of intensive livestock agriculture that is permitted with consent under this Plan, and
   (b) to provide for certain capacity thresholds below which development consent is not required
for that development subject to certain restrictions as to location.

(2) This clause applies if development for the purpose of intensive livestock agriculture is permitted with consent under this Plan.

(3) In determining whether or not to grant development consent under this Plan to development for the purpose of intensive livestock agriculture, the consent authority must take the following into consideration—

(a) the adequacy of the information provided in the statement of environmental effects or (if the development is designated development) the environmental impact statement accompanying the development application,

(b) the potential for odours to adversely impact on the amenity of residences or other land uses within the vicinity of the site,

(c) the potential for the pollution of surface water and ground water,

(d) the potential for the degradation of soils,

(e) the measures proposed to mitigate any potential adverse impacts,

(f) the suitability of the site in the circumstances,

(g) whether the applicant has indicated an intention to comply with relevant industry codes of practice for the health and welfare of animals,

(h) the consistency of the proposal with, and any reasons for departing from, the environmental planning and assessment aspects of any guidelines for the establishment and operation of relevant types of intensive livestock agriculture published, and made available to the consent authority, by the Department of Primary Industries (within the Department of Industry) and approved by the Planning Secretary.

(4) Despite any other provision of this Plan, development for the purpose of intensive livestock agriculture may be carried out without development consent if—

(a) the development is of a type specified in subclause (5), and

(b) the consent authority is satisfied that the development will not be located—

(i) in an environmentally sensitive area, or

(ii) within 100 metres of a natural watercourse, or

(iii) in a drinking water catchment, or

(iv) within 500 metres of any dwelling that is not associated with the development, or a residential zone, or

(v) if the development is a poultry farm—within 500 metres of another poultry farm.

(5) The following types of development are specified for the purposes of subclause (4)—

(a) a cattle feedlot having a capacity to accommodate fewer than 50 head of cattle,
(b) a goat feedlot having a capacity to accommodate fewer than 200 goats,

(c) a sheep feedlot having a capacity to accommodate fewer than 200 sheep,

(d) a pig farm having a capacity to accommodate fewer than 20 breeding sows, or fewer than 200 pigs (of which fewer than 20 may be breeding sows),

(e) a dairy (restricted) having a capacity to accommodate fewer than 50 dairy cows,

(f) a poultry farm having a capacity to accommodate fewer than 1,000 birds for meat or egg production (or both).

(6) For the avoidance of doubt, subclause (4) does not apply to development that is prohibited or that may be carried out without development consent under this or any other environmental planning instrument.

(7) In this clause—

environmentally sensitive area has the same meaning as in clause 1.5 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

residential zone means Zone RU4 Primary Production Small Lots, Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone B4 Mixed Use, Zone B6 Enterprise Corridor, Zone E3 Environmental Management or Zone E4 Environmental Living.

5.19 Pond-based, tank-based and oyster aquaculture

(1) Objectives The objectives of this clause are as follows—

(a) to encourage sustainable oyster, pond-based and tank-based aquaculture in the State, namely, aquaculture development that uses, conserves and enhances the community’s resources so that the total quality of life now and in the future can be preserved and enhanced,

(b) to set out the minimum site location and operational requirements for permissible pond-based and tank-based aquaculture development.

(2) Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied before granting consent The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—

(a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,

(b) in the case of—

(i) pond-based aquaculture or tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential or Zone R5 Large Lot Residential—that the development is for the purpose of small scale aquarium fish production, and

(ii) pond-based aquaculture in Zone E3 Environmental Management or Zone E4 Environmental Living.
Environmental Living—that the development is for the purpose of extensive aquaculture, and

(iii) tank-based aquaculture in Zone R3 Medium Density Residential, Zone E3 Environmental Management or Zone E4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and

(iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.

(3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.

(4) **Extensive pond-based aquaculture permitted without consent in certain zones** Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—

(a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and

(b) the development complies with the site location requirements and operational requirements set out in Part 2 of Schedule 6.

(5) **Oyster aquaculture—additional matters that consent authority must consider in determining a development application** In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—

(a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and

(b) the **NSW Oyster Industry Sustainable Aquaculture Strategy**.

(6) **Oyster aquaculture permitted without consent in priority oyster aquaculture areas** Development for the purpose of oyster aquaculture may be carried out without development consent—

(a) on land that is wholly within a priority oyster aquaculture area, or

(b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.

(7) **Definitions** In this clause—

* **aquaculture industry development plan** means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

* **extensive aquaculture** has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

* **NSW Oyster Industry Sustainable Aquaculture Strategy** means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within
the Department of Industry).

*priority oyster aquaculture area* means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department’s website.

**Part 6 Additional local provisions**

### 6.1 Earthworks

(1) The objectives of this clause are as follows—

(a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,

(b) to allow earthworks of a minor nature without requiring separate development consent.

(2) Development consent is required for earthworks unless—

(a) the work is exempt development under this Plan or another applicable environmental planning instrument, or

(b) the work is ancillary to other development for which development consent has been given.

(3) Before granting development consent for earthworks, the consent authority must consider the following matters—

(a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,

(b) the effect of the proposed development on the likely future use or redevelopment of the land,

(c) the quality of the fill or the soil to be excavated, or both,

(d) the effect of the proposed development on the existing and likely amenity of adjoining properties,

(e) the source of any fill material and the destination of any excavated material,

(f) the likelihood of disturbing relics,

(g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area.

**Note.** The *National Parks and Wildlife Act 1974*, particularly section 86, deals with disturbing or excavating land and Aboriginal objects.

### 6.2 Biodiversity protection

(1) The objective of this clause is to maintain terrestrial biodiversity, including the following—

(a) protecting native fauna and flora,
(b) protecting the ecological processes necessary for their continued existence,
(c) encouraging the recovery of native fauna and flora and their habitats.

(2) This clause applies to land identified as “Significant Vegetation” on the Natural Resources Biodiversity Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—
(a) any potential adverse impacts from the proposed development on the following—
   (i) the condition and significance of the vegetation on the land and whether it should be substantially retained,
   (ii) the importance of the vegetation in that particular location to native fauna,
   (iii) any potential to fragment, disturb or diminish the biodiversity values of the land,
   (iv) the condition and role of the vegetation as a habitat corridor, and
(b) any proposed measures to minimise or mitigate those impacts.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
(a) the development is designed, sited and will be managed to avoid any adverse environmental impact, or
(b) if that impact cannot be avoided—the development is designed, sited and will be managed to minimise that impact, or
(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.3 Riparian land and watercourses

(1) The objective of this clause is to protect or improve the following—
(a) the water quality within watercourses,
(b) the stability of the bed and banks of watercourses,
(c) aquatic and riparian habitats,
(d) the ecological processes within watercourses and riparian areas.

(2) This clause applies to land situated within a watercourse, or within 40 metres of the top of the bank of any watercourse, identified on the Natural Resources Water Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the following matters—
(a) any potential adverse impacts on—
(i) the water quality within the watercourse,
(ii) aquatic and riparian habitats and ecosystems,
(iii) the stability of the bed, shore and banks of the watercourse,
(iv) the passage of fish and other aquatic organisms within or along the watercourse,
(b) the likelihood that the development will increase water extraction from the watercourse,
(c) any proposed measures to minimise or mitigate those impacts.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
(a) the development is designed, sited and will be managed to avoid any adverse environmental impact, or
(b) if that impact cannot be avoided, and having taken into consideration feasible alternatives, the proposed design, construction and operational management of the development will mitigate and minimise those impacts to a satisfactory extent.

6.4 Groundwater vulnerability

(1) The objective of this clause is to maintain the hydrological functions of key groundwater systems and to protect vulnerable groundwater resources from contamination as a result of inappropriate development.

(2) This clause applies to land that is identified as “Groundwater Vulnerability” on the Natural Resources Water Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—
(a) any potential adverse impacts the proposed development may have on the characteristics of the groundwater present in the area, and
(b) any risk of groundwater contamination from the proposed development, including from on-site storage or disposal of solid or liquid waste and chemicals, and
(c) any cumulative impacts the proposed development may have on groundwater, including impacts on nearby groundwater extraction for a potable water supply or stock water supply, and
(d) any adverse effect on groundwater dependent ecosystems.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
(a) the development is designed, sited and will be managed to avoid any adverse environmental impact, or
(b) if that impact cannot be avoided, and having taken into consideration feasible alternatives, the proposed design, construction and operational management of the development will
mitigate and minimise those impacts to a satisfactory extent.

6.5 Flood planning

(1) The objectives of this clause are as follows—

(a) to minimise the flood risk to life and property associated with the use of land,

(b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,

(c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to—

(a) land that is shown as “Flood planning area” on the Flood Planning Map, and

(b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—

(a) is compatible with the flood hazard of the land, and

(b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and

(c) incorporates appropriate measures to manage risk to life from flood, and

(d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and

(e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.

(4) A word or expression used in this clause has the same meaning as it has in the Floodplain Development Manual [ISBN 0 7347 5476 0], published in 2005 by the NSW Government, unless it is otherwise defined in this clause.

(5) In this clause—

\textit{flood planning level} means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

\textit{Flood Planning Map} means the Harden Local Environmental Plan 2011 Flood Planning Map.

6.6 Salinity

(1) The objectives of this clause are as follows—

(a) to protect natural hydrological systems by minimising soil disturbance and ensuring appropriate land use management,

(b) to avoid the adverse effects of rising salinity on land, including damage to infrastructure and
buildings, loss of productive agricultural land and other adverse environmental effects.

(2) This clause applies to land identified as “Dryland Salinity” on the Natural Resources Land Map.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered—

(a) whether or not the proposed development is likely to have an impact on salinity processes, and

(b) whether or not salinity is likely to have an impact on the proposed development, and

(c) appropriate measures that can be taken to avoid or reduce any undesirable effects that may result from the impacts referred to in paragraphs (a) and (b).

6.7 Highly erodible soils

(1) The objective of this clause is to provide for the appropriate management of land that has highly erodible soils or has the potential to be affected by the process of soil erosion.

(2) This clause applies to land identified as “High Soil Erodibility” on the Natural Resources Land Map.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered—

(a) whether or not the proposed development is likely to have an impact on soil erosion processes, and

(b) whether or not soil erosion processes are likely to have an impact on the proposed development, and

(c) appropriate measures that can be taken to avoid or reduce any undesirable effects that may result from the impacts referred to in paragraphs (a) and (b).

6.8 Essential services

(1) This clause applies to land in Zone RU4 Primary Production Small Lots and Zone R5 Large Lot Residential.

(2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that any of the following services that are essential for the proposed development are available or that adequate arrangements have been made to make them available when required—

(a) the supply of water,

(b) the supply of electricity,

(c) the disposal and management of sewage,

(d) stormwater drainage or on-site conservation,

(e) suitable road access.
(3) This clause does not apply to development for the following purposes—

(a) providing, extending, augmenting, maintaining or repairing any public utility infrastructure,

(b) the subdivision of land that is more than 800 metres from any public sewer main or is intended only to—

(i) enlarge the area of an existing lot, or

(ii) rectify any encroachment on an existing lot, or

(iii) open a new road.

Schedule 1 Additional permitted uses

1 Use of certain land at Kalangan Road, Galong

(1) This clause applies to land at Kalangan Road, Galong, being Lot 1, DP 606878, known as St Clement’s Retreat Centre.

(2) Development for the purposes of a place of public worship being a monastery with tourist and visitor accommodation is permitted with development consent.

2 Use of certain land at Simmonds Road, Harden

(1) This clause applies to land at Simmonds Road, Harden, being Lot 3, DP 787896, known as Stock’s Native Nursery.

(2) Development for the purposes of a restaurant or cafe, plant nursery and dwelling is permitted with development consent.

3 Use of certain land at Neill Street, Harden

(1) This clause applies to land at 136 Neill Street, Harden, being Lot 20, Section 29, DP 758737.

(2) Development for the purposes of storage premises used for the storage of motor vehicles is permitted with development consent.

Schedule 2 Exempt development

Note 1. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2. Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners’ property rights and the common law still apply.

Advertising structures and displays

(1) Must not contain offensive language or images, must not project over a road, must not be illuminated.
(2) If the advertising structure displays a message relating to the premises or goods and services that are available from the premises on which the advertisement is situated, the advertisement and structure together must have an area not exceeding—

(a) in a residential or rural zone—0.75m$^2$, or

(b) in an industrial zone—8m$^2$, with a maximum height of 4.6m, or

(c) in Zone B4 Mixed Use and in association with a commercial business—25% of the front elevation of the building on which it is displayed with a maximum height of 3m or the height of the underside of any awning measured at the line at which it is attached to the building, whichever is the greater.

(3) If a window advertisement, must be behind the glass line of the window.

(4) If a temporary advertisement for a social, cultural or recreational event, must not be displayed more than 28 days before the event and must be removed within 14 days after the event.

(5) If a real estate sign advertising that the premises on which it is displayed are for sale or lease, must have a total maximum area of 2.5m$^2$ on residential or rural premises, or 4.5m$^2$ on commercial or industrial premises.

(6) If it replaces one of the same or a larger size, it must be displayed on the same structure.

(7) Must not be visible from outside the site on which it is displayed.

Schedule 3 Complying development

(Clause 3.2)

Note. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1 Types of development

(When this Plan was made this Part was blank)

Part 2 Complying development certificate conditions

Note. Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

General conditions

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

Schedule 6 Pond-based and tank-based aquaculture

Part 1 Pond-based and tank-based aquaculture

Division 1 Site location requirements

1 Conservation exclusion zones

(1) Must not be carried out on the following land, except to the extent necessary to gain access to water—

(a) land declared an area of outstanding biodiversity value under the Biodiversity Conservation Act 2016,

(b) vacant Crown land,

(c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.
(2) Must not be carried out on the following land, except for the purposes of minimal infrastructure to support the extraction of water from, and discharge of water to, the land concerned—

(a) land declared as an aquatic reserve under the Marine Estate Management Act 2014,

(b) land declared as a marine park under the Marine Estate Management Act 2014.

Note. Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

Division 2 Operational requirements

2 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

3 Pond-based aquaculture that is also intensive aquaculture—pond design

For pond-based aquaculture that is also intensive aquaculture—ponds must be capable of being drained or pumped and then completely dried.

4 Pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—freshwater discharges

For pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—no discharge of freshwater used to intensively cultivate or keep fish to natural waterbodies or wetlands is permitted, except freshwater discharge from open flow through systems.

5 Outlets from culture ponds etc

All outlets from culture ponds, tanks and other culture facilities must be screened to avoid the escape of fish.

6 Definition

In this Division—

intensive aquaculture has the same meaning as it has in the Fisheries Management (Aquaculture) Regulation 2017.

Part 2 Extensive pond-based aquaculture

Division 1 Site location requirements

7 Conservation exclusion zones

(1) Must not be carried out on the following land, except to the extent necessary to gain access to water—

(a) land declared an area of outstanding biodiversity value under the Biodiversity Conservation Act 2016,

(b) vacant Crown land,
land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

Note. Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

8 Flood liability

Must be designed or constructed on land so that it will not be inundated by the discharge of a 1:100 ARI (average recurrent interval) flood event.

Division 2 Operational requirements

9 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

10 Pond design

(1) Must not require the construction of new ponds, water storages, dams or buildings.

(2) Must not be located on permanent watercourses, creeks, billabongs or isolated outreaches of creeks or rivers.

(3) Must be capable of preventing the escape of stock into natural waterbodies or wetlands.

11 Culture water

Must use freshwater.

Dictionary

(Clause 1.4)

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is—

(a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or

(b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note. The term may include (but is not limited to) places that are declared under section 84 of the National Parks and Wildlife Act 1974 to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their
precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

**Acid Sulfate Soils Manual** means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

**advertisement** has the same meaning as in the Act.

**Note.** The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

**advertising structure** has the same meaning as in the Act.

**Note.** The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

**affordable housing** has the same meaning as in the Act.

**Note.** The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

**agricultural produce industry** means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

**Note.**

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

**agriculture** means any of the following—

(a) aquaculture,

(b) extensive agriculture,

(c) intensive livestock agriculture,

(d) intensive plant agriculture.

**Note.** Part 6 of the *Plantations and Reafforestation Act 1999* provides that exempt farm forestry within the meaning of that Act is not subject to the *Environmental Planning and Assessment Act 1979*.

**air transport facility** means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

**airport** means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

**Note.**

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.

**airstrip** means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

**amusement centre** means a building or place (not being part of a pub or registered club) used principally for playing—

(a) billiards, pool or other like games, or
(b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

**animal boarding or training establishment** means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any associated riding school or ancillary veterinary hospital.

**aquaculture** has the same meaning as in the *Fisheries Management Act 1994*. It includes oyster aquaculture, pond-based aquaculture and tank-based aquaculture.

**archaeological site** means a place that contains one or more relics.

**artisan food and drink industry** means a building or place the principal purpose of which is the making or manufacture of boutique, artisan or craft food or drink products only. It must also include at least one of the following—

(a) a retail area for the sale of the products,

(b) a restaurant or cafe,

(c) facilities for holding tastings, tours or workshops.

Note. See clause 5.4 for controls in industrial or rural zones relating to the retail floor area of an artisan food and drink industry. Artisan food and drink industries are a type of **light industry**—see the definition of that term in this Dictionary.

**attached dwelling** means a building containing 3 or more dwellings, where—

(a) each dwelling is attached to another dwelling by a common wall, and

(b) each of the dwellings is on its own lot of land, and

(c) none of the dwellings is located above any part of another dwelling.

Note. Attached dwellings are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**attic** means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

**backpackers’ accommodation** means a building or place that—

(a) provides temporary or short-term accommodation on a commercial basis, and

(b) has shared facilities, such as a communal bathroom, kitchen or laundry, and

(c) provides accommodation on a bed or dormitory-style basis (rather than by room).

Note. Backpackers’ accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**basement** means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

**bed and breakfast accommodation** means an existing dwelling in which temporary or short-term accommodation
is provided on a commercial basis by the permanent residents of the dwelling and where—

(a) meals are provided for guests only, and

(b) cooking facilities for the preparation of meals are not provided within guests’ rooms, and

(c) dormitory-style accommodation is not provided.

Note. See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**bee keeping** means a building or place used for the keeping and breeding of bees for commercial purposes.

Note.

Bee keeping is a type of **extensive agriculture**—see the definition of that term in this Dictionary.

**biodiversity** or **biological diversity** means the variety of living animal and plant life from all sources, and includes diversity within and between species and diversity of ecosystems.

**biosolids treatment facility** means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

Note.

Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

**boarding house** means a building that—

(a) is wholly or partly let in lodgings, and

(b) provides lodgers with a principal place of residence for 3 months or more, and

(c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and

(d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers,

but does not include backpackers’ accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

Note.

Boarding houses are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**boat building and repair facility** means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.

**boat launching ramp** means a structure designed primarily for the launching of trailer borne recreational vessels, and includes associated car parking facilities.

**boat shed** means a building or other structure used for the storage and routine maintenance of a boat or boats and that is associated with a private dwelling or non-profit organisation, and includes any skid used in connection with the building or other structure.

**brothel** has the same meaning as in the Act.

Note.
This definition is relevant to the definitions of home occupation (sex services) and sex services premises in this Dictionary.

**building** has the same meaning as in the Act.

**Note.** The term is defined to include part of a building and any structure or part of a structure, but not including a manufactured home, a moveable dwelling or associated structure (or part of a manufactured home, moveable dwelling or associated structure).

**building height** (or **height of building**) means—

(a) in relation to the height of a building in metres—the vertical distance from ground level (existing) to the highest point of the building, or

(b) in relation to the RL of a building—the vertical distance from the Australian Height Datum to the highest point of the building,

including plant and lift overruns, but excluding communication devices, antennae, satellite dishes, masts, flagpoles, chimneys, flues and the like.

**building identification sign** means a sign that identifies or names a building and that may include the name of a building, the street name and number of a building, and a logo or other symbol but does not include general advertising of products, goods or services.

**Note.**

Building identification signs are a type of **signage**—see the definition of that term in this Dictionary.

**building line** or **setback** means the horizontal distance between the property boundary or other stated boundary (measured at 90 degrees from the boundary) and—

(a) a building wall, or

(b) the outside face of any balcony, deck or the like, or

(c) the supporting posts of a carport or verandah roof,

whichever distance is the shortest.

**bush fire hazard reduction work** has the same meaning as in the Rural Fires Act 1997.

**Note.**

The term is defined as follows—

**bush fire hazard reduction work** means—

(a) the establishment or maintenance of fire breaks on land, and

(b) the controlled application of appropriate fire regimes or other means for the reduction or modification of available fuels within a predetermined area to mitigate against the spread of a bush fire,

but does not include construction of a track, trail or road.

**bush fire prone land** has the same meaning as in the Act.

**Note.** The term is defined, in relation to an area, as land recorded for the time being as bush fire prone land on a map for the area certified as referred to in section 10.3(2) of the Act.

**bush fire risk management plan** means a plan prepared under Division 4 of Part 3 of the Rural Fires Act 1997 for the purpose referred to in section 54 of that Act.

**business identification sign** means a sign—
(a) that indicates—
   (i) the name of the person or business, and
   (ii) the nature of the business carried on by the person at the premises or place at which the sign is displayed, and

(b) that may include the address of the premises or place and a logo or other symbol that identifies the business, but that does not contain any advertising relating to a person who does not carry on business at the premises or place.

Note.
Business identification signs are a type of signage—see the definition of that term in this Dictionary.

**business premises** means a building or place at or on which—

(a) an occupation, profession or trade (other than an industry) is carried on for the provision of services directly to members of the public on a regular basis, or
