Part 1 Preliminary

1.1 Name of Plan

This Plan is Palerang Local Environmental Plan 2014.

1.1AA Commencement

This Plan commences 6 weeks after the day on which it is published on the NSW legislation website.

1.2 Aims of Plan

(1) This Plan aims to make local environmental planning provisions for land in Palerang in accordance with the relevant standard environmental planning instrument under section 33A of the Act.

(2) The particular aims of this Plan are as follows:

(a) to protect and improve the economic, environmental, social and cultural resources and prospects of the Palerang community,

(b) to encourage development that supports the long-term economic sustainability of the local community, by ensuring that development does not unreasonably increase the demand for public services or public facilities,

(c) to retain, protect and encourage sustainable primary industry and commerce,

(d) to ensure the orderly, innovative and appropriate use of resources in Palerang through the effective application of the principles of ecologically sustainable development,

(e) to retain and protect wetlands, watercourses and water quality and enhance biodiversity and habitat corridors by encouraging the linking of fragmented core habitat areas within Palerang,

(f) to identify, protect and provide areas used for community health and recreational activities,

(g) to ensure that innovative environmental design is encouraged in residential development.

1.3 Land to which Plan applies

This Plan applies to the land identified on the Land Application Map.

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.
1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:

   (a) approved by the Minister when the map is adopted, and

   (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.

(1AA) A reference to the Minister in subclause (1) is taken to be a reference to the Greater Sydney Commission in the case of any map that applies to a local government area in the Greater Sydney Region (within the meaning of the Greater Sydney Commission Act 2015) and that is adopted by a local environmental plan on or after 27 January 2016.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled Standard technical requirements for LEP maps and Standard requirements for LEP GIS data which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

   Note. The following local environmental plans are repealed under this provision:

   Cooma-Monaro Local Environmental Plan 1999—(Rural)
   Gunning Local Environmental Plan 1997
   Mulwaree Local Environmental Plan 1995
   Tallaganda Local Environmental Plan 1991

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.
1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note.** However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

(1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.

(2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

   *State Environmental Planning Policy No 1—Development Standards*

1.9A Suspension of covenants, agreements and instruments

(1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

(2) This clause does not apply:

   (a) to a covenant imposed by the Council or that the Council requires to be imposed, or

   (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or

   (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or

   (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or

   (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or

   (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or

   (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.

(3) This clause does not affect the rights or interests of any public authority under any registered instrument.

(4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).
Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows:

**Rural Zones**
- RU1 Primary Production
- RU3 Forestry
- RU5 Village

**Residential Zones**
- R1 General Residential
  - R2 Low Density Residential
  - R5 Large Lot Residential

**Business Zones**
- B2 Local Centre
  - B4 Mixed Use

**Industrial Zones**
- IN2 Light Industrial

**Special Purpose Zones**
- SP1 Special Activities
  - SP2 Infrastructure

**Recreation Zones**
- RE1 Public Recreation
  - RE2 Private Recreation

**Environment Protection Zones**
- E1 National Parks and Nature Reserves
  - E2 Environmental Conservation
  - E3 Environmental Management
  - E4 Environmental Living

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.
2.3 Zone objectives and Land Use Table

(1) The Land Use Table at the end of this Part specifies for each zone:

(a) the objectives for development, and

(b) development that may be carried out without development consent, and

(c) development that may be carried out only with development consent, and

(d) development that is prohibited.

(2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.

(3) In the Land Use Table at the end of this Part:

(a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and

(b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes.
1 Schedule 1 sets out additional permitted uses for particular land.
2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
4 Clause 2.6 requires consent for subdivision of land.
5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

(1) Development may be carried out on unzoned land only with development consent.

(2) In deciding whether to grant development consent, the consent authority:

(a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and

(b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

(1) Development on particular land that is described or referred to in Schedule 1 may be carried out:

(a) with development consent, or

(b) if the Schedule so provides—without development consent,
in accordance with the conditions (if any) specified in that Schedule in relation to that
development.

(2) This clause has effect despite anything to the contrary in the Land Use Table or other provision
of this Plan.

2.6 Subdivision—consent requirements

(1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes.
1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument,
such as this Plan or **State Environmental Planning Policy (Exempt and Complying Development Codes) 2008**, the Act enables it to be carried out without development consent.
2 Part 6 of **State Environmental Planning Policy (Exempt and Complying Development Codes) 2008** provides that the strata subdivision of a building in certain circumstances is **complying development**.

(2) Development consent must not be granted for the subdivision of land on which a secondary
dwelling is situated if the subdivision would result in the principal dwelling and the secondary
dwelling being situated on separate lots, unless the resulting lots are not less than the minimum
size shown on the **Lot Size Map** in relation to that land.

**Note.** The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of
land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note.** If the demolition of a building or work is identified in an applicable environmental planning instrument, such
as this Plan or **State Environmental Planning Policy (Exempt and Complying Development Codes) 2008**, as
**exempt development**, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

(1) The objective of this clause is to provide for the temporary use of land if the use does not
compromise future development of the land, or have detrimental economic, social, amenity or
environmental effects on the land.

(2) Despite any other provision of this Plan, development consent may be granted for development
on land in any zone for a temporary use for a maximum period of 52 days (whether or not
consecutive days) in any period of 12 months.

(3) Development consent must not be granted unless the consent authority is satisfied that:

(a) the temporary use will not prejudice the subsequent carrying out of development on the land
in accordance with this Plan and any other applicable environmental planning instrument, and

(b) the temporary use will not adversely impact on any adjoining land or the amenity of the
neighbourhood, and

(c) the temporary use and location of any structures related to the use will not adversely impact
on environmental attributes or features of the land, or increase the risk of natural hazards
that may affect the land, and
(d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.

(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.

(5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

- State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)
- State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004
- State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems
- State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
- State Environmental Planning Policy (Rural Lands) 2008
- State Environmental Planning Policy No 33—Hazardous and Offensive Development
- State Environmental Planning Policy No 50—Canal Estate Development
- State Environmental Planning Policy No 62—Sustainable Aquaculture
- State Environmental Planning Policy No 64—Advertising and Signage

Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To minimise the impact of any development on the natural environment.
- To ensure that development does not unreasonably increase the demand for public services or facilities.

2 Permitted without consent

Extensive agriculture; Home businesses; Home occupations
3 Permitted with consent

Airstrips; Animal boarding or training establishments; Aquaculture; Backpackers’ accommodation; Bed and breakfast accommodation; Biosolids treatment facilities; Building identification signs; Business identification signs; Caravan parks; Cellar door premises; Cemeteries; Community facilities; Crematoria; Depots; Dual occupancies; Dwelling houses; Eco-tourist facilities; Environmental facilities; Environmental protection works; Extractive industries; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Function centres; Garden centres; Helipads; Home-based child care; Home industries; Hotel or motel accommodation; Industrial training facilities; Information and education facilities; Intensive livestock agriculture; Intensive plant agriculture; Neighbourhood shops, Open cut mining; Places of public worship; Plant nurseries; Recreation areas; Recreation facilities (outdoor); Restaurants or cafes; Roads; Roadside stalls; Rural industries; Rural workers’ dwellings; Secondary dwellings; Service stations; Sewage treatment plants; Truck depots; Veterinary hospitals; Water recycling facilities; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone RU3 Forestry

1 Objectives of zone

• To enable development for forestry purposes.

• To enable other development that is compatible with forestry land uses.

2 Permitted without consent

Roads; Uses authorised under the Forestry Act 2012

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Zone RU5 Village

1 Objectives of zone

• To provide for a range of land uses, services and facilities that are associated with a rural village.

• To encourage design and development that enhances the streetscape and village character.

• To ensure that development has regard to the character and amenity of the locality.

• To ensure that non-residential uses do not result in adverse impacts on the amenity of existing and future residential premises.

2 Permitted without consent

Home businesses; Home occupations
3 Permitted with consent

Amusement centres; Attached dwellings; Car parks; Caravan parks; Cemeteries; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Dual occupancies; Dwelling houses; Electricity generating works; Entertainment facilities; Environmental facilities; Environmental protection works; Flood mitigation works; Freight transport facilities; Function centres; Group homes; Home-based child care; Home industries; Industrial training facilities; Information and education facilities; Light industries; Neighbourhood shops; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Respite day care centres; Roads; Schools; Secondary dwellings; Self-storage units; Semi-detached dwellings; Service stations; Sewage treatment plants; Shop top housing; Signage; Tourist and visitor accommodation; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Waste or resource management facilities; Water recycling facilities; Water supply systems; Wholesale supplies

4 Prohibited

Serviced apartments; Waste disposal facilities; Any other development not specified in item 2 or 3

Zone R1  General Residential

1 Objectives of zone

• To provide for the housing needs of the community.

• To provide for a variety of housing types and densities.

• To enable other land uses that provide facilities or services to meet the day to day needs of residents.

• To ensure that development has regard for the character and amenity of the locality.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Attached dwellings; Backpackers’ accommodation; Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies; Dwelling houses; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Flood mitigation works; Group homes; Home-based child care; Home industries; Hostels; Hotel or motel accommodation; Multi dwelling housing; Neighbourhood shops; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Shop top housing; Water supply systems

4 Prohibited

Water treatment facilities; Any other development not specified in item 2 or 3
Zone R2  Low Density Residential

1 Objectives of zone

• To provide for the housing needs of the community within a low density residential environment.
• To enable other land uses that provide facilities or services to meet the day to day needs of residents.
• To ensure that new development complements the scale, density and form of existing development.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Backpackers’ accommodation; Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies; Dwelling houses; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Flood mitigation works; Group homes; Health consulting rooms; Home-based child care; Home industries; Neighbourhood shops; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Sewage treatment plants; Shop top housing; Water supply systems

4 Prohibited

Water treatment facilities; Any other development not specified in item 2 or 3

Zone R5  Large Lot Residential

1 Objectives of zone

• To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
• To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
• To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
• To minimise conflict between land uses within this zone and land uses within adjoining zones.
• To minimise the impact of any development on the natural environment.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Backpackers’ accommodation; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Child care centres; Community facilities; Dual...
occupancies; Dwelling houses; Environmental facilities; Environmental protection works; Extensive agriculture; Farm buildings; Flood mitigation works; Group homes; Home-based child care; Home industries; Horticulture; Neighbourhood shops; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Roads; Roadside stalls; Secondary dwellings; Sewage treatment plants; Viticulture; Water recycling facilities; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone B2  Local Centre

1 Objectives of zone

• To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.

• To encourage employment opportunities in accessible locations.

• To maximise public transport patronage and encourage walking and cycling.

• To ensure that new development has regard to the character and amenity of the locality.

• To strengthen the viability of Palerang’s existing business centres as places for investment, employment and cultural activity.

• To support business development by providing parking and other civic facilities.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Amusement centres; Boarding houses; Car parks; Child care centres; Commercial premises; Community facilities; Educational establishments; Electricity generating works; Entertainment facilities; Environmental protection works; Flood mitigation works; Function centres; Home-based child care; Home industries; Home occupations (sex services); Information and education facilities; Medical centres; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Respite day care centres; Restricted premises; Roads; Service stations; Sex services premises; Shop top housing; Signage; Tourist and visitor accommodation; Water recycling facilities; Water reticulation systems

4 Prohibited

Any development not specified in item 2 or 3

Zone B4  Mixed Use

1 Objectives of zone

• To provide a mixture of compatible land uses.

• To integrate suitable business, office, residential, retail and other development in accessible
locations so as to maximise public transport patronage and encourage walking and cycling.

• To ensure that new development has regard to the character and amenity of the locality.

• To strengthen the viability of Palerang’s existing business centres as places for investment, employment and cultural activity.

• To support business development by providing parking and other civic facilities.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Amusement centres; Boarding houses; Car parks; Child care centres; Commercial premises; Community facilities; Educational establishments; Electricity generating works; Entertainment facilities; Environmental protection works; Flood mitigation works; Function centres; Home-based child care; Home industries; Hotel or motel accommodation; Information and education facilities; Medical centres; Mortuaries; Passenger transport facilities; Places of public worship; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Roads; Seniors housing; Service stations; Shop top housing; Signage; Tourist and visitor accommodation; Water recycling facilities; Water reticulation systems

4 Prohibited

Dual occupancies; Hostels; Residential flat buildings; Rural workers’ dwellings; Any other development not specified in item 2 or 3

Zone IN2 Light Industrial

1 Objectives of zone

• To provide a wide range of light industrial, warehouse and related land uses.

• To encourage employment opportunities and to support the viability of centres.

• To minimise any adverse effect of industry on other land uses.

• To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area.

• To support and protect industrial land for industrial uses.

• To ensure that new development has regard to the character and amenity of the locality.

2 Permitted without consent

Home occupations

3 Permitted with consent

Agricultural produce industries; Aquaculture; Boat building and repair facilities; Bulky goods premises; Car parks; Community facilities; Depots; Emergency services facilities; Environmental
protection works; Flood mitigation works; Freight transport facilities; Garden centres; Hardware and building supplies; Home-based child care; Home businesses; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Kiosks; Landscaping material supplies; Light industries; Liquid fuel depots; Medical centres; Mortuaries; Neighbourhood shops; Passenger transport facilities; Places of public worship; Plant nurseries; Public administration buildings; Recreation facilities (indoor); Research stations; Resource recovery facilities; Restricted premises; Roads; Rural supplies; Sawmill or log processing works; Self-storage units; Service stations; Sex services premises; Signage; Timber yards; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sale or hire premises; Veterinary hospitals; Warehouse or distribution centres; Water recycling facilities; Water supply systems; Wholesale supplies

4 Prohibited

Waste disposal facilities; Any other development not specified in item 2 or 3

Zone SP1  Special Activities

1 Objectives of zone

• To provide for special land uses that are not provided for in other zones.

• To provide for sites with special natural characteristics that are not provided for in other zones.

• To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

2 Permitted without consent

Nil

3 Permitted with consent

Roads; The purpose shown on the Land Zoning Map, including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone SP2  Infrastructure

1 Objectives of zone

• To provide for infrastructure and related uses.

• To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Nil

3 Permitted with consent

Community facilities; Roads; The purpose shown on the Land Zoning Map, including any
development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone RE1  Public Recreation

1 Objectives of zone

• To enable land to be used for public open space or recreational purposes.
• To provide a range of recreational settings and activities and compatible land uses.
• To protect and enhance the natural environment for recreational purposes.
• To protect and enhance the environment generally and to ensure that areas of high ecological, scientific, cultural or aesthetic values are protected, managed and restored.

2 Permitted without consent

Extensive agriculture

3 Permitted with consent

Building identification signs; Business identification signs; Caravan parks; Community facilities; Entertainment facilities; Environmental facilities; Environmental protection works; Flood mitigation works; Information and education facilities; Kiosks; Markets; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Roads; Waste or resource transfer stations; Water recycling facilities

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2  Private Recreation

1 Objectives of zone

• To enable land to be used for private open space or recreational purposes.
• To provide a range of recreational settings and activities and compatible land uses.
• To protect and enhance the natural environment for recreational purposes.
• To protect and enhance the scenic and environmental resources of the land.
• To ensure that the scale and character of private recreational development is compatible with the established land uses of the locality.

2 Permitted without consent

Nil
3 Permitted with consent

Building identification signs; Business identification signs; Caravan parks; Community facilities; Entertainment facilities; Environmental facilities; Environmental protection works; Flood mitigation works; Function centres; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Restaurants or cafes; Shops; Take away food and drink premises; Roads; Water recycling facilities

4 Prohibited

Neighbourhood shops; Any other development not specified in item 2 or 3

Zone E1 National Parks and Nature Reserves

1 Objectives of zone

• To enable the management and appropriate use of land that is reserved under the National Parks and Wildlife Act 1974 or that is acquired under Part 11 of that Act.

• To enable uses authorised under the National Parks and Wildlife Act 1974.

• To identify land that is to be reserved under the National Parks and Wildlife Act 1974 and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the National Parks and Wildlife Act 1974

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Zone E2 Environmental Conservation

1 Objectives of zone

• To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.

• To prevent development that could destroy, damage or otherwise have an adverse effect on those values.

• To minimise the impact of any development on the natural environment.

• To encourage rehabilitation and regeneration of ecosystems.

• To provide for a very limited range of ecologically sustainable development and land use activities that provide for small scale and low impact recreation and amenities.

2 Permitted without consent

Home businesses; Home occupations
3 Permitted with consent

Bed and breakfast accommodation; Building identification signs; Business identification signs; Community facilities; Environmental facilities; Environmental protection works; Farm stay accommodation; Home-based child care; Roads

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone E3 Environmental Management

1 Objectives of zone

• To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
• To provide for a limited range of development that does not have an adverse effect on those values.
• To encourage the retention of the remaining evidence of significant historical and social values expressed in existing landscape and land use patterns.
• To encourage development that is visually compatible with the landscape.
• To promote ecologically sustainable development.
• To minimise the impact of any development on the natural environment.

2 Permitted without consent

Extensive agriculture; Home businesses; Home occupations

3 Permitted with consent

Agriculture; Animal boarding or training establishments; Building identification signs; Business identification signs; Camping grounds; Community facilities; Dual occupancies; Dwelling houses; Eco-tourist facilities; Environmental facilities; Environmental protection works; Farm buildings; Flood mitigation works; Home-based child care; Home industries; Research stations; Roads; Rural workers’ dwellings; Secondary dwellings; Tourist and visitor accommodation; Water recycling facilities; Water storage facilities

4 Prohibited

Industries; Intensive livestock agriculture; Multi dwelling housing; Residential flat buildings; Retail premises; Seniors housing; Service stations; Serviced apartments; Turf farming; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone E4 Environmental Living

1 Objectives of zone

• To provide for low-impact residential development in areas with special ecological, scientific or aesthetic values.
• To ensure that residential development does not have an adverse effect on those values.
• To encourage development that is visually compatible with the landscape.
• To minimise the impact of any development on the natural environment.
• To ensure that development does not unreasonably increase the demand for public services or facilities.
• To minimise conflict between land uses within the zone and land uses within adjoining zones.

2 Permitted without consent

Extensive agriculture; Home businesses; Home occupations

3 Permitted with consent

Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental protection works; Farm buildings; Flood mitigation works; Function centres; Home-based child care; Home industries; Information and education facilities; Intensive plant agriculture; Neighbourhood shops; Places of public worship; Plant nurseries; Recreation areas; Restaurants or cafes; Roads; Roadside stalls; Secondary dwellings; Waste or resource transfer stations; Water recycling facilities; Water storage facilities

4 Prohibited

Industries; Service stations; Turf farming; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

Note. Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

(a) must be of minimal environmental impact, and

(b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994), and

(c) cannot be carried out in a wilderness area (identified under the Wilderness Act 1987).

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development:

(a) must meet the relevant deemed-to-satisfy provisions of the Building Code of Australia or, if
there are no such relevant provisions, must be structurally adequate, and

(b) must not, if it relates to an existing building, cause the building to contravene the Building Code of Australia, and

(c) must not be designated development, and

(d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the Heritage Act 1977 or that is subject to an interim heritage order under the Heritage Act 1977.

(4) Development that relates to an existing building that is classified under the Building Code of Australia as class 1b or class 2–9 is exempt development only if:

(a) the building has a current fire safety certificate or fire safety statement, or

(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must:

(a) be installed in accordance with the manufacturer’s specifications, if applicable, and

(b) not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.

Note. A permit for the removal or pruning of a tree or other vegetation may be granted under this Plan. A development consent for the removal of native vegetation may be granted where relevant under the Native Vegetation Act 2003.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:

(a) the development standards specified in relation to that development, and

(b) the requirements of this Part,

is complying development.

Note. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must:

(a) be permissible, with development consent, in the zone in which it is carried out, and

(b) meet the relevant deemed-to-satisfy provisions of the Building Code of Australia, and

(c) have an approval, if required by the Local Government Act 1993, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause:

*environmentally sensitive area for exempt or complying development* means any of the following:

(a) the coastal waters of the State,

(b) a coastal lake,

(c) land to which *State Environmental Planning Policy No 14—Coastal Wetlands* or *State Environmental Planning Policy No 26—Littoral Rainforests* applies,

(d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,

(e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,

(f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,

(g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,

(h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,

(i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,

(j) land identified as being critical habitat under the *Threatened Species Conservation Act 1995* or Part 7A of the *Fisheries Management Act 1994*,

(ja) land in Zone E2 Environmental Conservation,

(jb) land identified as “Flood planning area” on the *Flood Planning Map*,

(jc) land within 40 metres of the bank of a waterway.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

(1) The objectives of this clause are as follows:
(a) to minimise any likely impact of subdivision and development on the amenity of
neighbouring properties,
(b) to ensure that lot sizes and dimensions are appropriate having regard to the objectives of this
Plan and the relevant zone and the likely future use of the land,
(c) to ensure that lot sizes and dimensions allow dwellings to be sited to protect significant
natural or cultural features.

(2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires
development consent and that is carried out after the commencement of this Plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be
less than the minimum size shown on the Lot Size Map in relation to that land.

(4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or
community title scheme.

4.1AA Minimum subdivision lot size for community title schemes

(1) The objectives of this clause are as follows:
(a) to ensure that land to which this clause applies is not fragmented by subdivisions that would
create additional dwelling entitlements.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the Community Land Development Act 1989 of land in any of the following zones:
(a) Zone RU1 Primary Production,
(b) Zone RU5 Village,
(c) Zone R2 Low Density Residential,
(d) Zone R5 Large Lot Residential,
(e) Zone E3 Environmental Management.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than
any lot comprising association property within the meaning of the Community Land
Development Act 1989) is not to be less than the minimum size shown on the Lot Size Map in
relation to that land.

4.1A Lot averaging subdivision of certain land in Zone RU1 and Zone E3

(1) The objectives of this clause are as follows:
(a) to prevent the fragmentation of certain land in Zone RU1 Primary Production and Zone E3
Environmental Management,
(b) to enable appropriate subdivision design of that land having regard to topographical
constraints, agricultural productivity, biodiversity values and environmental impacts.

(2) This clause applies to land within Zone RU1 Primary Production or Zone E3 Environmental
Management that is identified as “Y” or “C-M” on the Lot Averaging Map.

(3) Despite clause 4.1, development consent may be granted to subdivide land to which this clause applies if:

(a) the average size of all of the lots created by the subdivision will not be less than the minimum size shown on the Lot Size Map in relation to that land, and

(b) each lot created by the subdivision will be at least 8 hectares, and

(c) the total number of lots created by the subdivision having an area less than the minimum size shown on the Lot Size Map in relation to that land will not be more than 5.

(4) Development consent must not be granted for the subdivision of a resulting lot for the purposes of residential accommodation.

(5) In this clause:

resulting lot means a lot able to be used for residential accommodation that:

(a) was created by a subdivision under this clause (other than for a public purpose), or

(b) in the case of land identified as “Y” on the Lot Averaging Map—was created under clause 12 of Yarrowlumla Local Environmental Plan 1993 or clause 19 of Yarrowlumla Local Environmental Plan 2002 by a subdivision that created at least one lot of less than 80 hectares for the purpose of residential accommodation, or

(c) in the case of land identified as “C-M” on the Lot Averaging Map—was created by a subdivision under clause 14 (2A) of Cooma-Monaro Local Environmental Plan 1999—(Rural),

and includes a lot that would have been a resulting lot had it not been affected by:

(d) a minor realignment of its boundaries that did not create an additional lot, or

(e) a consolidation with adjoining land, or

(f) a subdivision creating or widening a public road or public reserve or for another public purpose, or

(g) a consolidation with an adjoining public road or public reserve or for another public purpose.

4.1B Lot averaging subdivision of land in Zone E4

(1) The objective of this clause is to ensure that the subdivision of land to which this clause applies has regard to the topographical constraints, agricultural productivity and biodiversity values of, and environmental impacts on, the land.

(2) This clause applies to land in Zone E4 Environmental Living.

(3) Despite clause 4.1, development consent may be granted to subdivide land to which this clause applies, other than under the Community Land Development Act 1989, if:
(a) the average size of all the lots created by the subdivision will not be less than the minimum size shown on the Lot Size Map in relation to that land, and

(b) none of the lots created by the subdivision will be less than 2 hectares.

(4) Despite clause 4.1, development consent may be granted for the subdivision of land to which this clause applies, under the Community Land Development Act 1989, if:

(a) the average size of all the lots created by the subdivision will not be less than the minimum size shown on the Lot Size Map in relation to that land, and

(b) none of the lots created by the subdivision will be less than 1 hectare, and

(c) the lot comprising the association property (within the meaning of that Act) will include land identified as having significant ecological, agricultural or cultural values.

(5) Development consent must not be granted for the subdivision of a resulting lot for the purposes of residential accommodation.

(6) In this clause:

resulting lot means a lot able to be used for residential accommodation, being:

(a) a lot that was created by a subdivision under this clause (other than for a public purpose), or

(b) a lot that was created by a subdivision under any of the following provisions (other than a lot the area of which was excluded under the provision from the calculation of the average area of the lots to be created by the subdivision):

(i) clause 20 of Yarrowlumla Local Environmental Plan 2002,

(ii) clause 13 (4) or 13A of Yarrowlumla Local Environmental Plan 1993,

(iii) clause 14 (4) of Yarrowlumla Local Environmental Plan 1986,

(iv) clause 11B (3) or 11C of Interim Development Order No 1—Shire of Yarrowlumla,

(v) clause 16 (3) of Tallaganda Local Environmental Plan 1991,

and includes a lot that would have been a resulting lot had it not been affected by:

(c) a minor realignment of its boundaries that did not create an additional lot, or

(d) a consolidation with adjoining land, or

(e) a subdivision creating or widening a public road or public reserve or for another public purpose, or

(f) a consolidation with an adjoining public road or public reserve or for another public purpose.

4.1C Exceptions to minimum subdivision lot sizes for certain residential development

(1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.
(2) This clause applies to development on land in Zone R1 General Residential.

(3) Development consent may be granted to a single development application for development to which this clause applies that is both of the following:

(a) the subdivision of land into 3 or more lots,

(b) the erection of a dwelling house, an attached dwelling or a semi-detached dwelling on each lot resulting from the subdivision, if the size of each lot is equal to or greater than 350 square metres.

4.1D Minimum lot sizes for dual occupancies

(1) The objective of this clause is to achieve planned residential density in certain zones.

(2) Development consent may be granted to development on a lot in a zone shown in Column 2 of the table to this clause for a purpose shown in Column 1 of the table opposite that zone, if the area of the lot is equal to or greater than the area specified for that purpose and shown in Column 3 of the table.

4.2 Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones:

(a) Zone RU1 Primary Production,

(b) Zone RU2 Rural Landscape,

(c) Zone RU4 Primary Production Small Lots,

(d) Zone RU6 Transition.

Note. When this Plan was made it did not include all of these zones.
(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the Lot Size Map in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

Note. A dwelling includes a rural worker’s dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses on land in certain rural, residential and environment protection zones

(1) The objectives of this clause are as follows:

   (a) to minimise unplanned rural residential development,

   (b) to enable the replacement of lawfully erected dwelling houses in rural, residential and environment protection zones.

(2) This clause applies to land in the following zones:

   (a) Zone RU1 Primary Production,

   (b) Zone RU5 Village,

   (c) Zone R1 General Residential,

   (d) Zone R2 Low Density Residential,

   (e) Zone R5 Large Lot Residential,

   (f) Zone B4 Mixed Use,

   (g) Zone E3 Environmental Management,

   (h) Zone E4 Environmental Living.

(3) Development consent must not be granted for the erection of a dwelling house on land to which this clause applies unless the land:

   (a) is a lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or

   (b) is a lot created under clause 4.1, 4.1AA, 4.1A or 4.1B, or

   (c) is a lot created before this Plan commenced and on which the erection of a dwelling house was permissible immediately before that commencement, or

   (d) is a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house would have been permissible if the plan of subdivision had been registered before that commencement, or
(e) is an existing holding, or

(f) would have been a lot or a holding referred to in paragraph (a), (b), (c), (d) or (e) had it not been affected by:

(i) a minor realignment of its boundaries that did not create an additional lot, or

(ii) a subdivision creating or widening a public road or public reserve or for another public purpose, or

(iii) a consolidation with an adjoining public road or public reserve or for another public purpose.

Note. A dwelling cannot be erected on a lot created under clause 9 of State Environmental Planning Policy (Rural Lands) 2008 or clause 4.2.

(4) Development consent must not be granted under subclause (3) unless:

(a) no dwelling house has been erected on the land, and

(b) if a development application has been made for development for the purpose of a dwelling house on the land—the application has been refused or it was withdrawn before it was determined, and

(c) if development consent has been granted in relation to such an application—the consent has been surrendered or it has lapsed.

(5) Development consent may be granted for the erection of a dwelling house on land to which this clause applies if there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house.

(6) In this clause:

existing holding means land that:

(a) was a holding on the relevant date, and

(b) is a holding at the time the application for development consent referred to in subclause (3) is lodged,

whether or not there has been a change in the ownership of the holding since the relevant date, and includes any other land adjoining that land acquired by the owner since the relevant date.

holding means all adjoining land, even if separated by a road or railway, held by the same person or persons.

relevant date means:

(a) in relation to land to which Cooma-Monaro Local Environmental Plan 1999—(Rural) applied immediately before the commencement of this Plan—3 March 1997, or

(b) in relation to land to which Goulburn Mulwaree Local Environmental Plan 2009 or Mulwaree Local Environmental Plan 1995 applied immediately before the commencement of this Plan—15 May 1970, or
(c) in relation to land to which *Gunning Local Environmental Plan 1997* applied immediately before the commencement of this Plan—15 July 1966, or

(d) in relation to land to which *Tallaganda Local Environmental Plan 1991* applied immediately before the commencement of this Plan—14 June 1974, or

(e) in relation to land to which *Yarrowumla Local Environmental Plan 2002* applied immediately before the commencement of this Plan—13 October 1995.

**Note.** The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

### 4.2B Replacement of lawfully erected dwelling houses on land in Zone B2 and Zone IN2

Despite any other provision of this Plan, development consent may be granted for the erection of a dwelling house on land in Zone B2 Local Centre or Zone IN2 Light Industrial if there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house.

### 4.2C Minimum subdivision lot size for strata plan schemes in certain rural, residential and environment protection zones

1. The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

2. This clause applies to land in the following zones that is used, or is proposed to be used, for residential accommodation or tourist and visitor accommodation:
   - Zone RU1 Primary Production,
   - Zone R5 Large Lot Residential,
   - Zone E3 Environmental Management,
   - Zone E4 Environmental Living.

3. The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

**Note.** Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

### 4.2D Erection of rural workers’ dwellings on land in Zone RU1 and Zone E3

1. The objective of this clause is to ensure the provision of adequate accommodation for employees of existing agricultural or rural industries.

2. This clause applies to land in Zone RU1 Primary Production and Zone E3 Environmental Management.

3. Development consent must not be granted to the erection of a rural worker’s dwelling on land to which this clause applies, unless the consent authority is satisfied that:
the development will be on the same lot as an existing lawfully erected dwelling house, and

(b) the development will not impair the use of the land for agricultural or rural industries, and

(c) the agricultural or rural industry being carried out on the land has a demonstrated economic capacity to support the ongoing employment of rural workers, and

(d) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and

(e) the size of the lot is not less than the minimum size shown on the Lot Size Map in relation to that land, and

(f) no more than one such dwelling will be erected for each area of the lot that is equal to the minimum size shown on the Lot Size Map in relation to that land, and

(g) no more than three such dwellings will be erected on any such lot.

4.3 Height of buildings

(1) The objectives of this clause are as follows:

(a) to enhance the natural character and landscape of Palerang,

(b) to protect residential amenity and solar access,

(c) to manage the visual impact of development,

(d) to reflect the predominantly low-rise character of development in Palerang.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

4.4 Floor space ratio

[Not adopted]

4.5 Calculation of floor space ratio and site area

[Not adopted]

4.6 Exceptions to development standards

(1) The objectives of this clause are as follows:

(a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development
standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:

(a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and

(b) that there are sufficient environmental planning grounds to justify contravening the development standard.

(4) Development consent must not be granted for development that contravenes a development standard unless:

(a) the consent authority is satisfied that:

(i) the applicant’s written request has adequately addressed the matters required to be demonstrated by subclause (3), and

(ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Secretary has been obtained.

(5) In deciding whether to grant concurrence, the Secretary must consider:

(a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and

(b) the public benefit of maintaining the development standard, and

(c) any other matters required to be taken into consideration by the Secretary before granting concurrence.

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note. When this Plan was made it did not include all of these zones.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant’s written request referred to in subclause (3).
(8) This clause does not allow development consent to be granted for development that would contravene any of the following:

(a) a development standard for complying development,

(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004 applies or for the land on which such a building is situated,

(c) clause 5.4.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

(1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the Land Acquisition (Just Terms Compensation) Act 1991 (the owner-initiated acquisition provisions).

Note. If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the Land Acquisition (Just Terms Compensation) Act 1991 requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

(3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.
Note. If land, other than land specified in the table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for the land, the acquiring authority is to be the authority determined by order of the Minister for Planning (see section 21 of the Land Acquisition (Just Terms Compensation) Act 1991).

5.2 Classification and reclassification of public land

(1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the Local Government Act 1993.

Note. Under the Local Government Act 1993, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the Local Government Act 1993. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

(2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the Local Government Act 1993.

(3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the Local Government Act 1993.

(4) The public land described in Part 1 of Schedule 4:

(a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and

(b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

(5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:

(a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and

(b) any reservations that except land out of the Crown grant relating to the land, and

(c) reservations of minerals (within the meaning of the Crown Lands Act 1989).

Note. In accordance with section 30 (2) of the Local Government Act 1993, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

(1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.

(2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 20 metres.
This clause does not apply to:

(a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or

(aa) land in Zone RU1 Primary Production, Zone RU5 Village, Zone R1 General Residential, R2 Low Density Residential, R5 Large Lot Residential, Zone IN2 Light Industrial, Zone SP1 Special Activities, Zone SP2 Infrastructure, Zone RE2 Private Recreation or Zone E4 Environmental Living, or

(b) land within the coastal zone, or

(c) land proposed to be developed for the purpose of sex services or restricted premises.

Note. When this Plan was made it did not include all of these zones.

Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:

(a) the development is not inconsistent with the objectives for development in both zones, and

(b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.

This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

(1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

Note. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the Building Code of Australia.

(2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

(3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.

(4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:

   (a) 67% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or

   (b) 150 square metres,
whichever is the lesser.

(5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

(6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 20 square metres.

(7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.

(8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 10 square metres.

(9) **Secondary dwellings** If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:

   (a) 60 square metres,

   (b) 33% of the total floor area of the principal dwelling.

5.5 **Development within the coastal zone**

[Not applicable]

5.6 **Architectural roof features**

[Not adopted]

5.7 **Development below mean high water mark**

[Not applicable]

5.8 **Conversion of fire alarms**

(1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

(2) The following development may be carried out, but only with development consent:

   (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

   (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,

   (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
(3) Development to which subclause (2) applies is complying development if it consists only of:

(a) internal alterations to a building, or
(b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause:

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:

(a) development consent, or
(b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:

(a) that is or forms part of a heritage item or that is within a heritage conservation area, or
(b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance,
unless the Council is satisfied that the proposed activity:

(c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and

(d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.

**Note.** As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:

(a) the clearing of native vegetation:

   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or

   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or

(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or

(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or

(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or

(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

**Note.** Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living.

### 5.9AA Trees or vegetation not prescribed by development control plan

(1) This clause applies to any tree or other vegetation that is not of a species or kind prescribed for the purposes of clause 5.9 by a development control plan made by the Council.

(2) The ringbarking, cutting down, topping, lopping, removal, injuring or destruction of any tree or other vegetation to which this clause applies is permitted without development consent.

### 5.10 Heritage conservation

**Note.** Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows:

   (a) to conserve the environmental heritage of Palerang,
(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,

(c) to conserve archaeological sites,

(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following:

(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
   (i) a heritage item,
   (ii) an Aboriginal object,
   (iii) a building, work, relic or tree within a heritage conservation area,

(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,

(c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,

(d) disturbing or excavating an Aboriginal place of heritage significance,

(e) erecting a building on land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,

(f) subdividing land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if:

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
   (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
   (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal
object, Aboriginal place, archaeological site or heritage conservation area, or

(b) the development is in a cemetery or burial ground and the proposed development:

(i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and

(ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) **Heritage assessment** The consent authority may, before granting consent to any development:

(a) on land on which a heritage item is located, or

(b) on land that is within a heritage conservation area, or

(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):

(a) notify the Heritage Council of its intention to grant consent, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:

(a) consider the effect of the proposed development on the heritage significance of the place and
any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and

(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 **Bush fire hazard reduction**

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

**Note.** The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 **Infrastructure development and use of existing buildings of the Crown**

(1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007.*

(2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of
existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

(1) The objectives of this clause are as follows:

(a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,

(b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.

(2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.

(3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that:

(a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and

(b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and

(c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and

(d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and native flora and fauna will be minimal, and

(e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and

(f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and

(g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours, materials and landscaping with local native flora, and

(h) any infrastructure services to the site will be provided without significant modification to the environment, and

(i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and

(j) the development will not adversely affect the agricultural productivity of adjoining land, and

(k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment:

(i) measures to remove any threat of serious or irreversible environmental damage,

(ii) the maintenance (or regeneration where necessary) of habitats,
(iii) efficient and minimal energy and water use and waste output,

(iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,

(v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

Part 6 Additional local provisions

6.1 Earthworks

(1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.

(2) Development consent is required for earthworks unless:

(a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or

(b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.

(3) In deciding whether to grant development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters:

(a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,

(b) the effect of the development on the likely future use or redevelopment of the land,

(c) the quality of the fill or the soil to be excavated, or both,

(d) the effect of the development on the existing and likely amenity of adjoining properties,

(e) the source of any fill material and the destination of any excavated material,

(f) the likelihood of disturbing relics,

(g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,

(h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

Note. The National Parks and Wildlife Act 1974, particularly section 86, deals with harming Aboriginal objects.

6.2 Flood planning

(1) The objectives of this clause are as follows:

(a) to minimise the flood risk to life and property associated with the use of land,

(b) to allow development on land that is compatible with the land’s flood hazard, taking into
account projected changes as a result of climate change,
(c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
(a) land identified as “Flood planning area” on the Flood Planning Map, and
(b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
(a) is compatible with the flood hazard of the land, and
(b) will not significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
(c) incorporates appropriate measures to manage risk to life from flood, and
(d) will not significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
(e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.

(4) A word or expression used in this clause has the same meaning as it has in the Floodplain Development Manual (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

flood planning level means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

6.3 Terrestrial biodiversity

(1) The objective of this clause is to maintain terrestrial biodiversity by:
(a) protecting native fauna and flora, and
(b) protecting the ecological processes necessary for their continued existence, and
(c) encouraging the conservation and recovery of native fauna and flora and their habitats.

(2) This clause applies to land identified as “Biodiversity” on the Terrestrial Biodiversity Map.

(3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider:
(a) whether the development is likely to have:
   (i) any adverse impact on the condition, ecological value and significance of the fauna and flora on the land, and
(ii) any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna, and

(iii) any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and

(iv) any adverse impact on the habitat elements providing connectivity on the land, and

(b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be reasonably avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.4 Drinking water catchments

(1) The objectives of this clause are as follows:

(a) to protect drinking water catchments by minimising the adverse impacts of development on the quality and quantity of water entering drinking water storages,

(b) to maintain water quality and the natural environment in the Sydney, Googong and Captains Flat drinking water catchments.

(2) This clause applies to land identified as “Drinking water catchment” on the Drinking Water Catchment Map.

(3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider the following:

(a) whether or not the development is likely to have any adverse impact on the quality and quantity of water entering the drinking water storage, having regard to the following:

(i) the distance between the development and any waterway that feeds into the drinking water storage,

(ii) the on-site use, storage and disposal of any chemicals on the land,

(iii) the treatment, storage and disposal of waste water and solid waste generated or used by the development,

(b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies
unless the consent authority is satisfied that:

(a) the development is designed, sited and will be managed to avoid any significant adverse impact on water quality and flows, or

(b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.5 Riparian land and watercourses

(1) The objective of this clause is to protect and maintain the following:

(a) water quality within watercourses,

(b) the stability of the bed and banks of watercourses,

(c) aquatic and riparian habitats,

(d) ecological processes within watercourses and riparian areas.

(2) This clause applies to all of the following:

(a) land identified as “Riparian land” on the Riparian Lands and Watercourses Map,

(b) land identified as “Watercourse” on that map,

(c) all land that is within 40 metres of the top of the bank of each watercourse on land identified as “Watercourse” on that map.

(3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider:

(a) whether or not the development is likely to have any adverse impact on the following:

(i) the water quality and flows within the watercourse,

(ii) aquatic and riparian species, habitats and ecosystems of the watercourse,

(iii) the stability of the bed and banks of the watercourse,

(iv) the free passage of fish and other aquatic organisms within or along the watercourse,

(v) any future rehabilitation of the watercourse and riparian areas, and

(b) whether or not the development is likely to increase water extraction from the watercourse, and

(c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.6 Salinity

(1) The objective of this clause is to provide for the appropriate management of land that is subject to salinity and the minimisation and mitigation of adverse impacts from development that contributes to salinity.

(2) This clause applies to land identified as “Salinity” on the Landscape Map.

(3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider the following:

   (a) whether the development is likely to have any adverse impact on salinity processes on the land,

   (b) whether salinity is likely to have an impact on the development,

   (c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

   (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

   (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

   (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.7 Highly erodible soils

(1) The objective of this clause is to provide for the appropriate management of land that has highly erodible soils or has the potential to be affected by the process of soil erosion.

(2) This clause applies to land identified as “Erodible Lands” on the Landscape Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the following:

   (a) whether the development is likely to have an impact on soil erosion processes,

   (b) whether soil erosion processes are likely to have an impact on the development,
(c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.7 Slopes over 18 degrees

(1) The objective of this clause is to provide for the appropriate management of land that has a slope of over 18 degrees.

(2) This clause applies to land identified as “Slopes over 18 degrees” on the Landscape Map.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered:

(a) whether the development is likely to have an impact on surrounding vegetation, the movement of water and soil erosion, and

(b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.8 Airspace operations

(1) The objectives of this clause are as follows:

(a) to provide for the effective and ongoing operation of the Canberra Airport by ensuring that such operation is not compromised by proposed development that penetrates the Limitation or Operations Surface for that airport,

(b) to protect the community from undue risk from that operation.

(2) If a development application is received and the consent authority is satisfied that the proposed
development will penetrate the Limitation or Operations Surface, the consent authority must not grant development consent unless it has consulted with the relevant Commonwealth body about the application.

(3) The consent authority may grant development consent for the development if the relevant Commonwealth body advises that:

(a) the development will penetrate the Limitation or Operations Surface but it has no objection to its construction, or

(b) the development will not penetrate the Limitation or Operations Surface.

(4) The consent authority must not grant development consent for the development if the relevant Commonwealth body advises that the development will penetrate the Limitation or Operations Surface and should not be carried out.

(5) In this clause:

**Limitation or Operations Surface** means the Obstacle Limitation Surface or the Procedures for Air Navigation Services Operations Surface as shown on the Obstacle Limitation Surface Map or the Procedures for Air Navigation Services Operations Surface Map for the Canberra Airport.

**relevant Commonwealth body** means the body, under Commonwealth legislation, that is responsible for development approvals for development that penetrates the Limitation or Operations Surface for the Canberra Airport.

6.9 Development in areas subject to aircraft noise

(1) The objectives of this clause are as follows:

(a) to prevent certain noise sensitive developments from being located near the Canberra Airport and its flight paths,

(b) to assist in minimising the impact of aircraft noise from that airport and its flight paths by requiring appropriate noise attenuation measures in noise sensitive buildings,

(c) to ensure that land use and development in the vicinity of that airport do not hinder or have any other adverse impacts on the ongoing, safe and efficient operation of that airport.

(2) This clause applies to development that:

(a) is on land that:

(i) is near the Canberra Airport, and

(ii) is in an ANEF contour of 20 or greater, and

(b) the consent authority considers is likely to be adversely affected by aircraft noise.

(3) In deciding whether to grant development consent to development to which this clause applies, the consent authority:

(a) must consider whether the development will result in an increase in the number of dwellings or people affected by aircraft noise, and
(b) must consider the location of the development in relation to the criteria set out in Table 2.1 (Building Site Acceptability Based on ANEF Zones) in AS 2021—2000, and

c(c) must be satisfied the development will meet the indoor design sound levels shown in Table 3.3 (Indoor Design Sound Levels for Determination of Aircraft Noise Reduction) in AS 2021—2000.

(4) In this clause:

ANEF contour means a noise exposure contour shown as an ANEF contour on the Noise Exposure Forecast Contour Map for the Canberra Airport prepared by the Department of the Commonwealth responsible for airports.

6.10 Development in areas near national parks and nature reserves

(1) The objective of this clause is to protect the aesthetic, conservation, recreational and scientific values of national parks and nature reserves.

(2) This clause applies to land adjoining a national park or nature reserve.

(3) In determining whether to grant development consent to development on land to which this clause applies, the consent authority must consider the following:

(a) whether the development is compatible with and does not detract from the values of the national park or nature reserve,

(b) any management plans applicable to nearby areas within the national park or nature reserve,

(c) whether the development has been designed and sited to minimise visual intrusion when viewed from vantage points within the national park or nature reserve.

6.11 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate arrangements have been made to make them available when required:

(a) the supply of water,

(b) the supply of electricity,

(c) the disposal and management of sewage,

(d) stormwater drainage or on-site conservation,

(e) suitable vehicular access.

6.12 Short-term rental accommodation

(1) The objective of this clause is to ensure that residential accommodation may be used as tourist and visitor accommodation for a short term without requiring development consent.
Despite any other provision of this Plan, development consent is not required for the use of residential accommodation for the purposes of tourist and visitor accommodation (except backpackers’ accommodation or bed and breakfast accommodation) if the use is only short-term and does not interfere generally with the amenity of the neighbourhood in any way, including by noise or traffic generation.

In this clause, short-term means for a maximum period of 45 consecutive days in any 12 month period.

6.13 Location of sex services premises

The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.

In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:

(a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land:
   (i) in Zone R1 General Residential, Zone R2 Low Density Residential or Zone RE1 Public Recreation, or
   (ii) used for the purposes of a child care centre, a community facility, a school or a place of public worship,

(b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children:
   (i) that adjoins the development, or
   (ii) that can be viewed from the development, or
   (iii) from which a person can view the development.

Schedule 1 Additional permitted uses

1 Use of certain land at Bombay Road, Braidwood

(1) This clause applies to land at Bombay Road, Braidwood, being Lot 4, DP 841326.

(2) Development for the purpose of self-storage units is permitted with development consent.

Schedule 2 Exempt development

Note 1. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2. Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners’ property
rights and the common law still apply.

Farm dams in Zone RU1

1. Must have a means of managing water overflow.
2. Must be a minimum of 50m from each property boundary.
3. Must not involve works within 40m of the bank of a named watercourse.
4. Must not contain a spillway more than 1m in height.
5. Must comply with the *Water Management Act 2000*.

Schedule 3 Complying development

*(Clause 3.2)*

**Note.** *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1 Types of development

*(When this Plan was made this Part was blank)*

Part 2 Complying development certificate conditions

**Note.** Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

General conditions

Any development specified in Part 1 is subject to the same conditions set out in Schedule 6 to *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

### Dictionary

**Aboriginal object** means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

**Aboriginal place of heritage significance** means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is:

(a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or

(b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

**Note.** The term may include (but is not limited to) places that are declared under section 84 of the *National Parks and Wildlife Act 1974* to be Aboriginal places for the purposes of that Act.

**Acid sulfate soils** means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

**Acid Sulfate Soils Manual** means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

**advertisement** has the same meaning as in the Act.

**Note.** The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.
advertising structure has the same meaning as in the Act.

Note. The term is defined as a structure used or to be used principally for the display of an advertisement. Advertising structures are a type of signage—see the definition of that term in this Dictionary.

affordable housing has the same meaning as in the Act.

Note. The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

agricultural produce industry means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

Note. Agricultural produce industries are a type of rural industry—see the definition of that term in this Dictionary.

agriculture means any of the following:

(a) aquaculture,

(b) extensive agriculture,

(c) intensive livestock agriculture,

(d) intensive plant agriculture.

Note. Part 6 of the Plantations and Reafforestation Act 1999 provides that exempt farm forestry within the meaning of that Act is not subject to the Environmental Planning and Assessment Act 1979.

air transport facility means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

airport means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

Note. Airports are a type of air transport facility—see the definition of that term in this Dictionary.

airstrip means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

amusement centre means a building or place (not being part of a pub or registered club) used principally for playing:

(a) billiards, pool or other like games, or

(b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

animal boarding or training establishment means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any associated riding school or ancillary veterinary hospital.

aquaculture has the same meaning as in the Fisheries Management Act 1994.

Note. Aquaculture is a type of agriculture—see the definition of that term in this Dictionary.
archaeological site means a place that contains one or more relics.

attached dwelling means a building containing 3 or more dwellings, where:
(a) each dwelling is attached to another dwelling by a common wall, and
(b) each of the dwellings is on its own lot of land, and
(c) none of the dwellings is located above any part of another dwelling.

Note.
Attached dwellings are a type of residential accommodation—see the definition of that term in this Dictionary.

attic means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

backpackers’ accommodation means a building or place that:
(a) provides temporary or short-term accommodation on a commercial basis, and
(b) has shared facilities, such as a communal bathroom, kitchen or laundry, and
(c) provides accommodation on a bed or dormitory-style basis (rather than by room).

Note.
Backpackers’ accommodation is a type of tourist and visitor accommodation—see the definition of that term in this Dictionary.

basement means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

bed and breakfast accommodation means an existing dwelling in which temporary or short-term accommodation is provided on a commercial basis by the permanent residents of the dwelling and where:
(a) meals are provided for guests only, and
(b) cooking facilities for the preparation of meals are not provided within guests’ rooms, and
(c) dormitory-style accommodation is not provided.

Note. See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of tourist and visitor accommodation—see the definition of that term in this Dictionary.

bee keeping means a building or place used for the keeping and breeding of bees for commercial purposes.

Note.
Bee keeping is a type of extensive agriculture—see the definition of that term in this Dictionary.

biodiversity means biological diversity.

biological diversity has the same meaning as in the Threatened Species Conservation Act 1995.

Note.
The term is defined as follows:

biological diversity means the diversity of life and is made up of the following 3 components:
(a) genetic diversity—the variety of genes (or units of heredity) in any population,
(b) species diversity—the variety of species,
(c) ecosystem diversity—the variety of communities or ecosystems.

**biosolids treatment facility** means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

**Note.**
Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

**boarding house** means a building that:
(a) is wholly or partly let in lodgings, and
(b) provides lodgers with a principal place of residence for 3 months or more, and
(c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and
(d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers,

but does not include backpackers’ accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

**Note.**
Boarding houses are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**boat building and repair facility** means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.

**boat launching ramp** means a structure designed primarily for the launching of trailer borne recreational vessels, and includes associated car parking facilities.

**Note.**

The term is defined as follows:

**bush fire hazard reduction work** means:

(a) the establishment or maintenance of fire breaks on land, and

(b) the controlled application of appropriate fire regimes or other means for the reduction or modification of available fuels within a predetermined area to mitigate against the spread of a bush fire,

but does not include construction of a track, trail or road.

**bush fire prone land** has the same meaning as in the Act.

**Note.** The term is defined, in relation to an area, as land recorded for the time being as bush fire prone land on a map for the area certified as referred to in section 146 (2) of the Act.

**bush fire risk management plan** means a plan prepared under Division 4 of Part 3 of the **Rural Fires Act 1997** for the purpose referred to in section 54 of that Act.

**business identification sign** means a sign:
(a) that indicates:
   (i) the name of the person or business, and
   (ii) the nature of the business carried on by the person at the premises or place at which the sign is displayed, and

(b) that may include the address of the premises or place and a logo or other symbol that identifies the business, but that does not contain any advertising relating to a person who does not carry on business at the premises or place.

Note.
Business identification signs are a type of signage—see the definition of that term in this Dictionary.

business premises means a building or place at or on which:
(a) an occupation, profession or trade (other than an industry) is carried on for the provision of services directly to members of the public on a regular basis, or
(b) a service is provided directly to members of the public on a regular basis, and includes a funeral home and, without limitation, premises such as banks, post offices, hairdressers, dry cleaners, travel agencies, internet access facilities, betting agencies and the like, but does not include an entertainment facility, home business, home occupation, home occupation (sex services), medical centre, restricted premises, sex services premises or veterinary hospital.
