Part 3 Road boundaries and road levels

Division 1 Identification of road boundaries

18 Surveys may be carried out to identify boundaries of public road

(1) A roads authority may cause surveys to be carried out to identify the boundaries of a public road if those boundaries have not previously been properly identified or if the survey marks used to identify those boundaries cannot be located or ascertained.

(2) If the surveys are conducted on the application of a person other than a public authority, the applicant is liable to pay to the roads authority the costs incurred in carrying out the surveys.

19 Public notice to be given of proposed boundaries

(1) On completing the surveys, the roads authority must cause notice of the proposed boundaries—

(a) to be published in a local newspaper, and

(b) to be served on the owner of each parcel of land affected by the proposed boundaries.

(2) The notice—

(a) must identify the survey plan that indicates the proposed boundaries of the road concerned, and

(b) must indicate the place at which, and the times during which, the survey plan is available for inspection by members of the public, and

(c) must state that any person is entitled to make submissions to the roads authority with respect to the proposed boundaries indicated by the survey plan, and

(d) must indicate the manner in which, and the period (being at least 28 days) within which, any such submission should be made.

(3) The roads authority must ensure that copies of the survey plan are available for inspection by members of the public at the place, and during the times, specified in the notice.

20 Public submissions

Any person may make submissions to the roads authority with respect to the proposed boundaries indicated by the survey plan.

21 Decision on proposed boundaries

(1) After considering any submissions that have been duly made with respect to the proposed boundaries, the roads authority may approve the survey plan, either with or without alteration.

(2) The roads authority must lodge the survey plan with the Registrar-General for registration and, on registration, the boundaries identified by the survey plan become the boundaries of the public road.

(3) As soon as practicable after the survey plan is registered, the roads authority—
(a) must cause a notice of the effect of the survey plan with respect to the boundaries of any land to be served on the owner of the land, and

(b) must lodge a copy of the survey plan with the Valuer-General and, if the authority is not a council, with the council concerned.

(4) No compensation is payable to any person with respect to any loss or damage arising from the operation of this section.

Division 2 Road widening

22 Preparation of road widening plan

(1) A roads authority may submit to the Minister a proposed plan for the widening of a public road.

(2) Before doing so, the roads authority must cause notice of the proposed plan—

(a) to be published in a local newspaper, and

(b) to be served on the owner of any land to which the proposed plan applies.

(3) The notice—

(a) must identify the plan, and

(b) must indicate the place at which, and the times during which, the plan is available for inspection by members of the public, and

(c) must state that any person is entitled to make submissions to the Minister or to the roads authority with respect to the proposed plan, and

(d) must indicate the manner in which, and the period (being at least 28 days) within which, any such submission should be made.

(4) The roads authority must ensure that copies of the proposed plan are available for inspection by members of the public at the place, and during the times, specified in the notice.

23 Public submissions

(1) Any person may make submissions to the roads authority with respect to the proposed plan.

(2) The roads authority must ensure that any submissions received by it with respect to the proposed plan are forwarded to the Minister.

24 Decision on proposal

(1) After considering any submissions that have been duly made, the Minister may approve the proposed plan, either with or without alteration, or may refuse approval.

(2) An approval may not be given with respect to a classified road except on the recommendation of RMS.
25 Making of road widening order

(1) On receiving the Minister’s approval to a proposed plan, the roads authority may give effect to the plan by means of an order published in the Gazette (in this Act referred to as a road widening order).

(2) The order must describe the land to which it applies by reference to a survey plan.

(3) The order takes effect on the date on which it is published in the Gazette.

(4) The roads authority—

(a) must cause a notice of the effect of the order on any land to be served on the owner of the land, and

(b) must lodge the survey plan referred to in the order with the Registrar-General for registration, and

(c) must lodge a copy of the survey plan with the Valuer-General and, if the authority is not a council, with the council concerned.

26 No constructions on land affected by road widening order

(1) A person must not construct, replace or repair a building or work on land to which a road widening order applies.

Maximum penalty—10 penalty units.

(2) This section does not prevent a person from carrying out minor repairs or improvements to a building so long as—

(a) they are designed merely to enable the reasonable preservation of the building for temporary use, and

(b) they are carried out with the consent of the appropriate roads authority.

(3) A consent may not be given with respect to a classified road except with the concurrence of RMS.

(4) If, in contravention of this section, a person constructs, replaces or repairs a building or work on land affected by a road widening order, the roads authority may direct the owner of the land to carry out such work as is necessary to restore the land to the state it was in before the contravention occurred.

27 Variation and revocation of road widening orders

(1) A roads authority may, by order published in the Gazette—

(a) vary a road widening order, but only by excluding land from the operation of the order, or

(b) revoke a road widening order.

(2) Such an order may not be made with respect to a classified road except with the consent of the Minister given on the recommendation of RMS.
28 Effect of road widening order for purposes of hardship provisions of Land Acquisition (Just Terms Compensation) Act 1991

For the purposes of Division 3 of Part 2 of the Land Acquisition (Just Terms Compensation) Act 1991, land affected by a road widening order is taken to be land designated for acquisition by an authority of the State for a public purpose.

Division 3 Road levels

29 Fixing the levels of public road

(1) A roads authority may prepare a proposal—
   (a) to fix the levels of a public road, or
   (b) to vary the existing levels of a public road.

(2) Before making an order to give effect to the plan, the roads authority must cause notice of the proposal—
   (a) to be published in a local newspaper, and
   (b) to be conspicuously displayed at regular intervals along the road concerned.

(3) The notice—
   (a) must indicate the place at which, and the times during which, a plan of the proposed levels is available for inspection by members of the public, and
   (b) must state that adjoining landowners are entitled to make submissions to the roads authority with respect to the proposal, and
   (c) must indicate the manner in which, and the period (being at least 28 days) within which, any such submission should be made.

(4) The roads authority must ensure that copies of the plan of proposed levels are available for inspection by members of the public at the place, and during the times, specified in the notice.

30 Public submissions

Any owner of land adjoining such part of a public road as is affected by the proposed order may make submissions to the roads authority with respect to the proposed levels of the road.

31 Decision on proposal

(1) After considering any submissions that have been duly made concerning the proposal, the roads authority may decide to proceed with the proposal, either with or without alteration, or to abandon the proposal.

(2) On deciding to proceed with the proposal, the roads authority may give effect to it by means of an order published in the Gazette.

(3) The order must fix or vary the levels of a public road by reference to a plan of levels held by the roads authority.
The order takes effect on the date on which it is published in the Gazette.

The roads authority must cause a notice of the effect of the order to be published in a local newspaper.

32 Rights of adjoining landowners in relation to the fixing of levels

(1) If the fixing of the levels of a public road results in loss of access across the boundary between the road and land adjoining the road, the roads authority must restore access between the road and that land.

(2) If the varying of levels so fixed results in loss of access across the boundary between a public road and land adjoining the road, the roads authority must pay compensation to the owner of the land for any loss or damage arising from the loss of access.

32A Extension of RMS’s functions under sec 64

Without limiting the operation of section 64, RMS may exercise the functions of a roads authority under this Division with respect to any classified road and any public road adjoining a classified road.

Note. The roads authority for a Crown road is the Minister administering the Crown Land Management Act 2016—see section 7 (2).

Division 2 Closing of non-council public roads by Minister

33 Proposal to close non-council public road

(1) The Minister may, whether or not on an application under section 34, propose the closing of a non-council public road other than a freeway.

(2) RMS may propose the closing of a freeway.

34 Applications for closing of non-council public road

(1) An application for the closing of a non-council public road (other than a freeway) may be made—

(a) in the case of a Crown road, by any person, and

(b) in the case of any other non-council public road, by the roads authority for the road or by any other public authority.

(2) An application may be transferred, in accordance with the regulations—

(a) in the case of a Crown road, to any person, and

(3) The Minister may from time to time, by notice in writing served on an applicant, require the applicant to lodge with the Minister—

(a) any fee required to cover the cost of processing the application, and

(b) any sum of money necessary to defray a cost incurred by the Minister or any other person with respect to the proposed closing of the road, and

(c) any further information relevant to the application.

(4) Such a notice may be served either before or during the consideration of the application.

(5) An application is taken to have been abandoned if any requirement of the notice is not complied with within the period specified in the notice.
35 **Publication of proposal to close non-council public road**

(1) The Minister (or, in the case of the proposed closing of a freeway, RMS) must cause notice of the proposed closing of a non-council public road to be published in a local newspaper.

(2) The notice—

(a) must identify the road that is proposed to be closed, and

(b) must state that any person is entitled to make submissions to the Minister (or, in the case of the proposed closing of a freeway, to RMS) with respect to the closing of the road, and

(c) must indicate the manner in which, and the period (being at least 28 days) within which, any such submission should be made.

36 **Public submissions**

Any person may make submissions to the Minister (or, in the case of the proposed closing of a freeway, to RMS) with respect to the closing of the road.

37 **Decision on proposal**

(1) After considering any submissions that have been duly made with respect to the proposal, the Minister (or, in the case of the proposed closing of a freeway, RMS) may, by notice published in the Gazette, close the non-council public road concerned.

(2) However, a non-council public road that is a classified road may not be closed unless RMS consents to the closure of the road.

38 **Effect of notice of closure**

(1) On publication of the notice closing the non-council public road concerned—

(a) the road ceases to be a non-council public road, and

(b) the rights of passage and access that previously existed in relation to the road are extinguished.

(2) The land comprising a former road—

(a) in the case of a freeway, remains vested in RMS, and

(b) (Repealed)

(c) in any other case, becomes (or, if previously vested in the Crown, remains) vested in the Crown as Crown land.

**Division 3 Closing of council public roads by councils**

38A **When council may close council public road**

A council may propose the closure of a council public road for which it is the roads authority if—

(a) the road is not reasonably required as a road for public use (whether for present or future needs), and
the road is not required to provide continuity for an existing road network, and

(c) if the road provides a means of vehicular access to particular land, another public road provides lawful and reasonably practicable vehicular access to that land.

38B Notification of proposal to close council public road

(1) A council that is proposing to close a council public road must cause notice of the proposal—

(a) to be published in a local newspaper, and

(b) to be given to—

(i) all owners of land adjoining the road, and

(ii) all notifiable authorities, and

(iii) any other person (or class of person) prescribed by the regulations.

(2) The notice—

(a) must identify the road that is proposed to be closed, and

(b) must state that any person is entitled to make submissions to the council with respect to the closing of the road, and

(c) must indicate the manner in which, and the period (being at least 28 days) within which, any such submission should be made.

38C Public submissions and formal objections

(1) Any person may make submissions to the council with respect to the closing of the road in the manner and within the period specified in the notice published under section 38B.

(2) Without limiting subsection (1), a notifiable authority in relation to the road may include a statement in the authority’s submission to the effect that the authority formally objects to the closing of the road. The authority may withdraw the objection any time by written notice given to the council.

Note. If a formal objection is made, section 38D (2) provides that the road may not be closed until the objection is withdrawn by the authority or set aside by the Land and Environment Court under this section.

(3) The council may appeal to the Land and Environment Court against a formal objection made by a notifiable authority against the closing of the road.

(4) On any such appeal, the Land and Environment Court may—

(a) affirm the objection, or

(b) set aside the objection.

(5) In deciding whether to affirm or set aside the objection, the Land and Environment Court must have regard to the public interest.
38D Decision of proposal

(1) After considering any submissions that have been duly made with respect to the proposal, the council may, by notice published in the Gazette, close the public road concerned.

(2) However, a council public road may not be closed—

(a) in the case of a classified road—unless RMS consents to the closure of the road, or

(b) in the case where a notifiable authority has formally objected under section 38C to the closing of the road—until the objection is withdrawn by the authority or set aside by the Land and Environment Court under that section.

38E Effect of notice of closure

(1) On publication of the notice closing the council public road concerned—

(a) the road ceases to be a public road, and

(b) the rights of passage and access that previously existed in relation to the road are extinguished.

(2) The land comprising a former road—

(a) in the case of a public road that was previously vested in a council (other than a public road in respect of which no construction has ever taken place)—remains vested in the council, and

(b) in any other case—becomes (or, if previously vested in the Crown, remains) vested in the Crown as Crown land.

38F Appeals to Land and Environment Court against closure decision

(1) A person referred to in section 38B (1) (b) may appeal to the Land and Environment Court against the closure of a council public road by a council.

(2) On any such appeal, the Land and Environment Court may—

(a) affirm the closure, or

(b) set aside the closure.

(3) Section 38E is taken never to have applied to a closure that is set aside.

(4) To avoid doubt, an appeal under section 38C does not prevent an appeal under this section.

Division 4 Closing of temporary public roads

39 Roads authority may close temporary public road

(1) A roads authority may, by notice published in the Gazette, close a temporary public road if, and only if, the road does not give access to an isolated road.

(2) On the publication of the notice—
(a) the temporary public road ceases to be a public road, and

(b) the rights of passage and access that previously existed in relation to the road are extinguished.

40 Land to be transferred to original subdivider etc

(1) A roads authority that closes a temporary public road must take reasonable steps to notify the original subdivider, or the original subdivider’s successor in title, of the fact of the closing of the temporary public road and of that person’s right to the ownership of the land on which it was situated.

(2) At any time within 5 years after the road is closed, the original subdivider, or the original subdivider’s successor in title, may apply to the roads authority to become the owner of the land on which the road was situated.

(3) If no application is made within 5 years after the road is closed or if such an application is made but is rejected or withdrawn, the rights of the original subdivider, and of each of the original subdivider’s successors in title, cease.

(4) The roads authority must convey or transfer the land to an applicant if satisfied that the applicant is the original subdivider or the original subdivider’s successor in title.

(5) No stamp duty is payable under the *Stamp Duties Act 1920* in respect of the conveyance or transfer of the land and no fee is payable for the registration or recording under any Act of the conveyance or transfer of the land.

(6) In this section, *original subdivider*, in relation to a temporary public road, means the person who owned the land comprised in the temporary public road immediately before the land was subdivided to create the temporary public road.

Division 5 Closing of public roads by compulsory acquisition

41 Compulsory acquisition of land operates to close public road

A public road that is compulsorily acquired under this or any other Act or law ceases to be a public road as a consequence of its compulsory acquisition.

Division 6 Miscellaneous

42 Disposal of Crown land arising from closure of public road

(1) Crown land forming part of a former public road may not be dealt with otherwise than under the *Crown Land Management Act 2016*.

(2) (Repealed)

43 Disposal of land comprising former public road owned by council

(1) This section applies to land vested in a council and forming part of a former public road.

(2) Land to which this section applies is operational land for the purposes of the *Local Government Act 1993* unless, before the land becomes vested in the council, the council resolves that it is to
be community land, in which case the land is community land.

(3) If the land is disposed of by sale, the proceeds of sale (less the costs of the sale) are to be paid to the council.

(4) Money received by a council from the proceeds of sale of the land is not to be used by the council except for acquiring land for public roads or for carrying out road work on public roads.

44 Land of former public road may be given in compensation

Land forming part of a former public road may be given, by or with the consent of the person in whom it is vested, in compensation for other land acquired for the purposes of this Act.

45 Transfer of land following variation or revocation of road widening order

(1) This section applies to land that is owned by a council as a result of—

   (a) some other roads authority having made a road widening order under Division 2 of Part 3, and

   (b) the land having been acquired under Division 3 of Part 12, and

   (c) the land having become part of a public road, and the council having become the owner of the land, by operation of section 14.

(2) If land to which this section applies ceases to be subject to the road widening order because of the variation or revocation of the order, the land ceases to be part of the public road.

(3) The roads authority that made the road widening order may, by the same order as that by which the road widening order is varied or revoked or by a subsequent order published in the Gazette, declare that it acquires the land under this section.

(4) The declaration operates to transfer the land from the council concerned to the roads authority.

Part 5 Classification of roads

(2) A public road that is declared to be a tollway ceases to be a public road by virtue of the declaration.

(3) A tollway is not a road or road related area within the meaning of section 4 (1) of the Road Transport Act 2013 for the purposes of any Act or law, or any provision of an Act or law, prescribed by the regulations for the purposes of this section.

52A Transitways

(b) such part of a transitway as is not a road related area within the meaning of the road transport legislation (but is an area that divides, or is a footpath or nature strip adjacent to, a part of a transitway referred to in paragraph (a)) in the same way as if it were such a road related area.

(4) The regulations may prescribe the classes of traffic that are permitted to enter or travel along, or are prohibited from entering or travelling along, a transitway or any part of a transitway.

53 State works

54 Orders generally

(1) An order may not be made under this Division otherwise than on the recommendation of RMS.

(2) An order under this Division may be made in relation to a proposed road.

(3) An order that is made as referred to in subsection (2) takes effect when the land to which it relates is opened to the public as a road.

(4) In making an order under this Division, the Minister may include in the order a statement to the effect that specified land held by RMS is dedicated as a public road and, in that event, the statement is taken to be a notice published by RMS under section 10 (1), and section 10 (2) has effect accordingly.

55 Separate classifications etc of different lengths, lanes and levels of roads

(1) The whole of a road, or part only of the length or width of a road or a single level only of a road, may be classified under this Division.

(2) Different lengths and widths and different levels of the same road may be differently classified under this Division.
(3) The same length or width of public road may have more than one classification under this Division.

(4) A road that is not a public road does not become a public road merely because it is classified under this Division.

(5) Subsection (4) does not limit any provision of this Act whereby a private road that is classified under this Division is, for certain purposes, taken to be a public road.

56 Variation of route etc of classified roads

The changing of the route or boundaries of a classified road does not affect the classification of the road and the road has the same classification along the new route or between the new boundaries as it had along the old route or between the old boundaries.

Division 2 Consultation with roads authorities

57 Application of Division

This Division applies to the following actions of RMS—

(a) the recommendation by RMS of the making, amendment or revocation of an order under Division 1 with respect to the declaration of a road as a main road,

(b) the refusal by RMS of a roads authority’s application for the recommendation of the making, amendment or revocation of such an order.

58 Consultation with roads authorities

(1) RMS may not take any action to which this Division applies unless—

(a) it has given written notice of the proposed action to each roads authority for the road concerned, and

(b) it has given each such roads authority a reasonable opportunity to make submissions with respect to the proposed action.

(2) RMS must notify any roads authority from which it has received a submission objecting to the taking of the proposed action if RMS decides to proceed with the action.

(3) This section does not apply with respect to a roads authority that has requested the proposed action.

59 Matters to be considered by RMS

RMS must take the following matters into consideration before deciding on what to recommend to the Minister—

(a) the submissions made by any roads authority concerned with respect to the proposed action,

(b) whether the main road or proposed main road is or may become a major route for long-distance traffic,

(c) the amount of money available or likely to become available for the construction and
maintenance of the main road or proposed main road,

(d) such other factors as are relevant to the decision.

60 Roads authorities may appeal to Minister

(1) Any roads authority that has made a submission with respect to the taking of any action to which this Division applies and is aggrieved by RMS’s decision in connection with that action may appeal to the Minister against the decision.

(2) An appeal—

(a) must be in writing, and

(b) must specify the grounds of appeal, and

(c) must be served on RMS not later than 28 days after the roads authority is notified that RMS has decided to proceed with the proposed action.

(3) RMS must serve a copy of the notice of appeal on each other roads authority for the road concerned.

(4) At the hearing of the appeal, the Minister may allow roads authorities other than the appellant to be heard.

(5) After hearing the appeal, the Minister—

(a) may make, amend or revoke the relevant order, or

(b) may refuse to make, amend or revoke the relevant order.

Division 3 Distribution of certain functions between RMS and other roads authorities

61 Road works on certain classified roads

(1) It is exclusively the function of RMS to make decisions as to what road work is to be carried out—

(a) on any freeway, highway or metropolitan main road, or

(b) on any other classified road in respect of which the carrying out of that kind of road work is, by virtue of an agreement or direction under this Division, the responsibility of RMS.

(2) It is exclusively the function of RMS to construct and maintain State works.

62 Roads agreements between RMS and roads authorities

(1) RMS and a roads authority may enter into an agreement under which some or all of the functions of the roads authority with respect to a classified road become, to the extent provided by the agreement, the responsibility of RMS.

(2) While an agreement under this section has effect, the functions of the roads authority with respect to the road are, to the extent provided by the agreement, to be exercised by RMS.
This section does not limit the power of RMS to exercise any function conferred on it by or under any other provision of this Act with respect to a classified road.

63 Ministerial directions

(1) The Minister may, if of the opinion that special circumstances so require, direct that some or all of the functions of a roads authority with respect to a classified road are to become, to the extent provided by the direction, the responsibility of RMS.

(2) While a direction under this section has effect, the functions of the roads authority with respect to the road are, to the extent provided by the direction, to be exercised by RMS.

64 RMS may exercise functions of roads authority with respect to certain roads

(1) RMS may exercise the functions of a roads authority with respect to any classified road, whether or not it is the roads authority for that road and, in the case of a classified road, whether or not that road is a public road.

(1A) RMS may, for the purposes of the carrying out of a project approved under Part 3A, State significant development for which development consent has been granted under Part 4, or State significant infrastructure approved under Part 5.1, of the Environmental Planning and Assessment Act 1979, exercise the functions of a roads authority with respect to any road.

(2) The roads authority for a road with respect to which RMS is exercising a particular function may not exercise its functions with respect to the road in any manner that is inconsistent with that in which the function is being exercised by RMS.

Note. See Division 5 of Part 9 as to the exercise by RMS of the functions of another roads authority in respect of certain actions undertaken on a public road for the purposes of, or incidental to, development or operation of a light rail system.

65 RMS has immunities of a roads authority

While exercising the functions of a roads authority under this Division with respect to a road for which it is not the roads authority, RMS has the immunities of a roads authority with respect to that road.

66 RMS may exercise the functions of a roads authority in the unincorporated area

RMS may exercise the functions of a roads authority with respect to all roads (whether public or private) that are outside a local government area as if those roads were public roads.

Division 4 Loss of access to a freeway, transitway or controlled access road

67 Restriction of access to freeways, transitways etc

(2) In that event, the order—

(a) must specify the points along the freeway, transitway or controlled access road at which access may be gained to or from other public roads, and
must, in addition to being published in the Gazette, be published in one or more newspapers circulating in the locality in which the freeway, transitway or controlled access road is located.

(2) In determining the amount of compensation—

(a) the assessment of the market value of the land at the time it became subject to the restrictions must take into account any modifications of the restrictions that are attributable to any consent given by RMS and any conditions attached to such a consent, or that are attributable to any undertaking that RMS has given or promised, and

(b) there must be taken into consideration any benefit that may accrue to any other land in which the claimant has an interest because of the construction or improvement (whether by RMS or any other person) on land adjacent to that in respect of which the compensation is claimed of any road after the restrictions took effect or because of the effect of the restrictions, and

(c) no account may be taken of the fact that, since the land became subject to the restrictions, the interest of the claimant has become, or has ceased to be, the same as the interest of the claimant in other land.

70 Construction of access to freeways, transitways etc prohibited

A person—
(a) must not construct any means of access to or from a freeway, transitway or controlled access road otherwise than in accordance with the consent of RMS, and

(4) This section applies to a roads authority and to any employee of a roads authority in the same way as it applies to any other person.

(5) This section applies despite the provisions of any other Act or law to the contrary, but does not apply to anything done under the provisions of the *Pipelines Act 1967* or under any other provision of an Act that expressly excludes the operation of this section.

(d) may be granted on such conditions as the appropriate roads authority thinks fit.

(2) In particular, a consent under this Division with respect to the construction of a utility service in, on or over a public road may require the service to be located—

(a) in such position as may be indicated in that regard in a plan of subdivision or other plan registered in the office of the Registrar-General with respect to the road, or

(b) in such other position as the roads authority may direct.

(3) In particular, a consent under this Division with respect to the erection of a structure may be granted subject to a condition that permits or prohibits the use of the structure for a specified purpose or purposes.

139A Street vending consents and charges in built-up areas

(1) A roads authority, in granting consent under this Division to the erection of a structure in, on or over a public road and located in a built-up area, may, without limiting section 139, impose conditions—

(4) Nothing in this section prevents a roads authority from granting a consent under this Division that permits the use of a structure in, on or over a public road and not located in a built-up area for the purpose of selling any article or service.

139B Application of Environmental Planning and Assessment Act 1979

The granting of a consent under this Division that is subject to a condition of a kind referred to in section 139 (3) or 139A concerning the use of a structure does not affect the application (if any) of the Environmental Planning and Assessment Act 1979.

139C Revocation of street vending consents

(1) A roads authority may revoke a street vending consent if—

(a) a condition of the consent or a requirement under this Division is breached, or

(2) The consent granted may be granted on the roads authority’s initiative or on the application of any person.

(3) The consent granted may be a street vending consent or other consent even though the previous consent was of a different kind.

139F Matters to be taken into account

(1) When considering whether to grant, extend or transfer a street vending consent, or other consent under this Division permitting the use of a structure in, on or over a public road not in a built-up area, for the purpose of selling any article or service, the roads authority must comply with guidelines relating to street vending jointly issued by RMS and the Office of Local Government.

(2) A street vending consent may not be granted if a structure is subject to a lease under section 149.

140 Revocation of consents

A roads authority may at any time and for any reason revoke a consent under this Division (other than a street vending consent) by notice in writing served on the holder of the consent.

141 Effect of consent

While a consent under this Division is in force, the taking of action in accordance with the consent is taken not to constitute a public nuisance and does not give rise to an offence against this or any other Act.

(1) A person who has a right to the control, use or benefit of a structure or work in, on or over a public road—
(a) must maintain the structure or work in a satisfactory state of repair, and

and the person is, by this section, empowered to do so accordingly.

Maximum penalty—30 penalty units.

(2) Subsection (1) applies to all structures and works in, on or over a public road, including structures and works for which there is no consent in force under this Division.

(3) Subsection (1) does not apply to a person whose right to the control, use or benefit of a structure or work consists merely of a right of passage that the person has as a member of the public or a right of access that the person has as the owner of adjoining land.

(4) If—

(a) a roads authority has granted a consent under this Division to the doing of anything, and

(b) that thing has been or is being done otherwise than in accordance with the consent,

the roads authority may direct the holder of the consent to take specified action to remedy any damage arising from the doing of that thing otherwise than in accordance with the consent.

143 Roads authority may use public road in exercise of functions

Nothing in this Division prevents a roads authority from using a public road in the exercise of a function conferred by this Act so long as the function is exercised in a way that will not unduly interfere with the rights of passage and access that exist with respect to the public road.

Division 4 Road events

(2) A permit may not be granted with respect to a classified road except with the consent of RMS.

(2) The Secretary must, before granting a consent under this section consult with—

(a) (Repealed)

Division prevails

This Division has effect despite any other provision of this Act.

Division 6 Private railways

(1) A private railway is not to be taken to have been severed, closed or otherwise not used merely because RMS carries out road work on, over, below or in the vicinity of the railway.

(2) If, but for subsection (1), a private railway would have been severed, closed or otherwise not used because of road work carried out by RMS on, over, below or in the vicinity of the railway, this section does not operate to affect any entitlement a person would have to compensation under this Act or the Land Acquisition (Just Terms Compensation) Act 1991.

(3) This section has effect despite the provisions of any Private Act.

(4) It is a defence to the prosecution of an offence against this section if the person charged proves that the person had a reasonable excuse for the conduct concerned.

(3) All public roads within a local government area (other than freeways and Crown roads) are vested in fee simple in the appropriate roads authority.

(4) All public roads outside a local government area (other than freeways and Crown roads) are vested in fee simple in the Crown as Crown land.

**146 Nature of ownership of public roads**

(1) Except as otherwise provided by this Act, the dedication of land as a public road—

(a) does not impose any liability on the owner of the road that the owner would not have if the owner were merely a person having the care, control and management of the road, and

(b) does not affect the rights or liabilities of any person under any easement or under any Act or law, and

(c) does not affect any rights of any person with respect to minerals below the surface of the road, and

(d) does not constitute the owner of the road as an occupier of the land, and

(e) does not authorise the owner of the road to dispose of any interest (other than an easement or covenant) in the land, and

(f) does not prevent any lands that were previously considered to be adjoining lands for the
purposes of the *Land Acquisition (Just Terms Compensation) Act 1991* from continuing to be so considered.

(2) This section does not restrict the power of a roads authority to regulate the digging up of public roads pursuant to the provisions of any other Act.

147, 148 (Repealed)

149 Leasing of land above or below public road

(1) A roads authority may lease the air space above, or land below the surface of, any public road (other than a Crown road) that is owned by the authority.

(2) Such a lease may not be granted by a roads authority other than RMS except with the approval of the Secretary of the Department of Planning and Environment.

(3) The Secretary of the Department of Planning and Environment must not approve a lease in respect of a public road if the granting of the lease would be inconsistent with the rights of passage and access that exist with respect to the road.

(4) The term of a lease, together with any option to renew, must not exceed 99 years.

(1) The Minister may, by order published in the Gazette, transfer a public road (other than a Crown road) from one roads authority to another.

*Note.* The roads authority for a Crown road is the Minister administering the *Crown Land Management Act 2016*—see section 7 (2).

(2) However, the roads authority may, in accordance with the *Crown Land Management Act 2016*—

(a) deal with a Crown road under section 5.43 (Cultivation of enclosed Crown roads) of that Act, and
(b) grant an easement, licence, permit or consent with respect to a Crown road.

(4) To avoid doubt, the granting of an easement, licence, permit or consent under this section is not inconsistent with a right of passage or access that exists with respect to a road if—

(a) an alternative right of passage is provided, and

(b) the alternative right of passage is substantially as convenient as the existing right.

(5) Section 13.2 (Exclusion of minerals and qualifications from dealings under Act) of the Crown Land Management Act 2016 is taken to apply in relation to a sale, lease or other disposal of a Crown road under this Act in the same way as it applies to the sale, lease or other disposal of Crown land under the Crown Land Management Act 2016.

(2) Except in emergencies, the power of entry may be exercised only during daylight hours.

165 Inspections and investigations

For the purposes of this Act, an authorised officer who enters land under any power of entry conferred by this Division—

(a) may inspect the land, and

(b) may, for the purposes of an inspection, dig up any ground and take such measures as are necessary to ascertain the character and condition of the land and of any building, structure or work that is situated in, on or over the land, and

(c) may make surveys and take levels and, for those purposes, may dig trenches, break up the soil and set up any posts, stakes or marks, and

(d) may take samples or photographs in connection with any inspection.

166 Notice of entry

(1) Before an authorised officer exercises a power of entry under this Division, the roads authority must give the owner or occupier of the land written notice of the intention to enter the land.

(2) The notice must specify the day on which the authorised officer intends to enter the land and must be given before that day.

(3) This section does not require notice to be given—

(a) if entry to the land is made with the consent of the owner or occupier of the land, or

(b) if entry is required in an emergency.
167 **Use of force**

(1) Reasonable force may be used for the purpose of gaining entry to any land (other than such part of a building as is being used for residential purposes) under a power conferred by this Division, but only if authorised by the roads authority in accordance with this section.

(2) The authority—

(a) must be in writing, and

(b) must be given in respect of the particular entry concerned, and

(c) must specify the circumstances which are required to exist before force may be used.

168 **Notification of use of force or urgent entry**

(2) The roads authority must provide, if necessary, other means of access in place of any taken away or interrupted by an authorised officer.

(3) As far as practicable, entry on to fenced land is to be made through an existing opening in the enclosing fence or, if entry by that means is not practicable, through a new opening in the enclosing fence.

(4) Any new opening is to be properly closed when the need for entry ceases.

(5) If, in the exercise of a function under this Division, any pit, trench, hole or bore is made, the roads authority must, if the owner or occupier of the premises so requires—

(a) fence it and keep it securely fenced so long as it remains open or not sufficiently sloped down, and

(b) without unnecessary delay, fill it up or level it or sufficiently slope it down.

170 **Recovery of cost of entry and inspection**

If an authorised officer enters any land for the purpose of making an inspection and, as a result of that inspection, the roads authority requires any work to be carried out on the land, the roads authority may recover the reasonable costs of the entry and inspection from the owner or occupier of the land.
171 Compensation

A roads authority must pay compensation to the owner of the land for any loss or damage arising from the exercise of any power under this Division by an authorised officer, but is not so liable to the extent to which the loss or damage arises from work done for the purpose of an inspection which reveals that there has been a contravention by the owner of this or any other Act.

172 Authority to enter land

(1) A power of entry may not be exercised unless the authorised officer—

(2) An authorised officer within the meaning of the Law Enforcement (Powers and Responsibilities) Act 2002 to whom such an application is made may, if satisfied that there are reasonable grounds for doing so, issue a warrant of entry authorising an authorised officer under this Act named in the warrant to enter and inspect the land for the purposes of this Act.

(3) Division 4 of Part 5 of the Law Enforcement (Powers and Responsibilities) Act 2002 applies to a warrant of entry issued under this section in the same way as it applies to a search warrant issued

the appropriate roads authority may use and occupy, for as long as may reasonably be necessary in the circumstances, any land along or near the line of the road.

(2) However, the power may not be exercised unless the appropriate roads authority has given the occupier of the land at least 7 days’ written notice of its intention to exercise the power.

(3) A person given a notice under this section may, within 7 days after receipt of the notice, appeal to the Minister against the proposed use and occupation to which the notice relates by lodging with the Minister a written notice of appeal specifying the grounds of appeal.

(4) The decision of the Minister on such an appeal is binding on the appropriate roads authority and the appellant and is final.

(5) A notice under this section is not required—

(a) if, in the opinion of the appropriate roads authority, it is necessary, as a matter of urgency, to use and occupy land that is more than 15 metres from a dwelling-house for the purpose of reconstructing or repairing a particular road, and

(b) if that authority gives the occupier of the land such notice (if any) as is practicable in the circumstances and, immediately after giving the notice, reports to the Minister the circumstances requiring such a notice to be dispensed with.

(6) The appropriate roads authority must not, under this section, use or occupy land within 15 metres of a dwelling-house unless—

(a) the occupier of the land has consented in writing to the use or occupation, or

(b) if that consent is not given—the Minister has given written authority for the use or occupation.

(7) The roads authority must pay compensation to the owner of the land for any loss or damage arising from the exercise of any power under this section.

(8) While being used or occupied under this section for the purpose of providing a temporary road, the land so used or occupied is taken to be a public road for the purposes of this Act (Parts 2, 3, 4 and 10 excepted).

(e) any interest in respect of which a claim of interest has been made but has been rejected.

(3) If the Minister is satisfied that there is an interest in the land for which no claim has been made, but is unaware of the identity or whereabouts of the owner of the interest, the Minister may determine that such a person is nevertheless entitled to compensation.

(4) The provisions of sections 49, 50, 52 and 53, and Division 4 of Part 3, of the Land Acquisition (Just Terms Compensation) Act 1991 apply to compensation to be paid or otherwise provided for the acquisition of land under this Division as if references in those provisions to an authority of the State were references to the Minister.

(5) Interest under section 49 of the Land Acquisition (Just Terms Compensation) Act 1991 is not payable on any amount of compensation paid within 28 days after the date of acquisition.

(6) The applicant must pay to the Crown the amount of any compensation to be provided under this Division, together with any costs incurred by the Crown in connection with the provision of any such compensation.

191 Ascertainment of compensation payable

The amount of compensation to be provided is to be determined—

(a) by agreement between the applicant and each person whose claim has been accepted, or

(b) failing agreement, by the Land and Environment Court, or

(c) if the identity or whereabouts of the owner of any interest in the land concerned cannot be ascertained, by the Valuer-General.
191A Requests for non-monetary compensation for native title

(1) This section applies to any negotiations held about a compulsory acquisition of native title rights and interests under this Division.

(2) If, during any such negotiations, a person or persons who may be entitled to compensation ask that the whole or part of the compensation should be in a form other than money, the other person or persons involved in the negotiations—

(a) must consider the request, and

(b) must negotiate in good faith about the request.

Note. Section 79 NTA requires that requests for non-monetary compensation by persons who may be entitled to compensation for impairment or extinguishment of native title rights and interests must be handled in the manner referred to in section 191A. The transfer of property or the supply of goods or services are examples of compensation in a form other than money.

192 Determination by agreement

(1) An agreement for compensation must be in writing, must be signed by the parties to the agreement and must be approved by the Minister.

(2) The Minister—

(a) must decide whether to approve the agreement for compensation or whether to refuse approval, and

(b) must give notice to each of the parties of the decision and (if the Minister decides to refuse approval) of the reasons for the decision.

(3) The Minister is taken to have approved an agreement for compensation if no notice under this section has been served on any of the parties within 28 days after the agreement was lodged with the Minister.

193 Determination by the Land and Environment Court

(1) The claimant, the applicant or the Minister may, in accordance with rules of court, apply to the Land and Environment Court to determine the compensation to be provided, if no agreement has been approved—

(a) within 12 weeks after service of the relevant notice under section 189, or

(b) where no such notice is required to have been given (an agreement having been lodged as referred to in section 189 (3)), within 12 weeks after the agreement was lodged.

(2) At the hearing of the application, the Minister, the claimant and the applicant are entitled to appear and be heard.

194 Determination by Valuer-General

On the request of the Minister, the Valuer-General is to determine the compensation payable to an owner of the interest in land specified in the request.
194A **Entitlement of native title holders to just compensation**

If the compensation that is payable under this Part to a person from whom native title rights and interests in relation to land have been acquired does not amount to compensation on just terms within the meaning of the Commonwealth Native Title Act, the person concerned is entitled to such additional compensation as is necessary to ensure that the compensation is paid on that basis.

195 **Payment of compensation money**

(1) As soon as practicable after compensation has been agreed or determined under this Division, the Minister—

(a) must require the applicant to pay to the Minister such part of the compensation so determined as is to be paid in money, and

(b) must pay any such amount received from the applicant into a trust account for payment to the persons entitled to the compensation, and

(c) must, on acquiring the land, pay the compensation to each person entitled to compensation for the acquisition of the land.

(2) The compensation money must be refunded to the applicant if the proposed acquisition is abandoned.

(3) Any money remaining in the trust account after 6 years from the date of the acquisition of the land is to be paid to the Chief Commissioner of Unclaimed Money for payment into the Consolidated Fund, there to be dealt with as unclaimed money under the *Unclaimed Money Act 1995*.

(4) The Minister is relieved from further liability with respect to any amount paid into the Consolidated Fund in accordance with subsection (3).

196 **Compensation provided in form of land**

(1) A person to whom compensation is provided in the form of land is to be treated as having been fully compensated—

(a) if the land has a market value equal to or greater than the amount of compensation that would otherwise have been provided in the form of money, or

(b) if the land has a market value less than the amount of compensation that would otherwise have been provided in the form of money but the person has agreed to accept the land in full satisfaction of the person’s claim.

(2) No duty is payable under the *Duties Act 1997* in respect of the conveyance or transfer of any such land and no fee is payable for the registration or recording under any Act of the conveyance or transfer of any such land.

197 **Release and indemnity**

The Minister may require the person to whom any compensation is to be paid or otherwise provided—

(a) to release the Minister from any liability to that person with respect to the interest in land for
which the compensation is to be paid or provided, and

(b) to indemnify the Minister from any liability to any other person with respect to that interest, and

(c) to produce any relevant documents of title.

198 Agreement or determination to lapse if land is not acquired within 12 weeks

(1) If land for which compensation has been agreed to or determined is not acquired under this Division within 12 weeks after the agreement was approved or the determination was made, as the case requires, the agreement or determination ceases to have effect.

(2) A person entitled to compensation may ratify such an agreement or determination, whether or not it has lapsed under this section, but no later than 12 months after the date on which the agreement was entered into or the determination was made.

(3) An agreement or determination ratified under this section continues in force for 12 weeks from the date of ratification and then lapses unless within that period the land to which it relates is acquired under this Division.

(4) If an agreement or determination made in respect of a claim for compensation has lapsed under this section and no ratification of the agreement or determination under this section is currently in force, the provisions of this Division apply to the claim as if no such agreement or determination had been made.

199 Abandonment of applications etc

(1) An applicant may, at any time, withdraw an application for the acquisition of land under this Division.

(2) The Minister—

(a) may at any time and for any reason, and

(b) must if the relevant application is withdrawn,

abandon the proposed acquisition of land under this Division.

(3) If the Minister decides to abandon the proposed acquisition of land otherwise than because the application is withdrawn, the Minister must cause notice to be given to the applicant of the decision and of the reasons for the decision.

(4) The applicant is entitled to be refunded all money paid by the applicant to the Minister with respect to the proposed acquisition, other than such amounts as the Minister considers appropriate to compensate the Minister and any other persons who have incurred costs with respect to the proposed acquisition.

(5) If a proposed acquisition of land is abandoned, no further application with respect to that land is to be considered by the Minister during the period of 12 months after the acquisition is abandoned unless the Minister is satisfied that the special circumstances of the case justify the consideration of the further application within that period.
200 Registrar-General to be notified of abandonment of application

(1) The Minister must, as soon as practicable after the proposed acquisition of land is abandoned, give notice of that fact to the Registrar-General.

(2) Any such notice must be in such form as the Registrar-General approves.

(3) On receipt of the notice, the Registrar-General must make such recordings as the Registrar-General considers appropriate in the Register kept under the Real Property Act 1900, or in the General Register of Deeds kept under the Conveyancing Act 1919, as the case requires.

(4) This section does not apply if the Minister has not published a notice under section 184 with respect to the proposal.

201 Waiver of claims

(1) Any person may, by notice in writing served on the Minister, waive that person’s entitlement to compensation under this Division.

(2) The Minister may require a person who has, or who in the opinion of the Minister may have, an entitlement to compensation to give notice to the Minister as to whether or not the person intends to claim compensation.

(3) A person on whom such a notice is served is taken to have waived the person’s entitlement to compensation (if any) if the person has not claimed compensation within 42 days after service of the notice.

202 Effect of acquisition of land

(1) On the acquisition of land under this Division, the land becomes free of all trusts, restrictions, dedications, reservations, obligations and interests and, subject to this section, becomes Crown land.

(2) There may be excepted from an acquisition effected under this Division—

(a) any easement which is specified in the notice effecting the acquisition and to which the land was subject immediately before the acquisition, and

(b) any easement specified in that notice which is appurtenant to an easement referred to in paragraph (a).

(3) If—

(a) in accordance with subsection (2), an easement is excepted from the acquisition, and

(b) immediately before the acquisition, the benefit of a restriction as to user was annexed to the easement,

then, unless otherwise specified in the notice by which the acquisition is effected, the restriction continues to have effect as if the acquisition had not taken place.

(4) The provisions of sections 33–36 of the Land Acquisition (Just Terms Compensation) Act 1991 apply to land acquired under this Division as if references in those provisions to an authority of the State were references to the Minister.
Division 3 Acquisition of land for road widening

203 Acquisition of land for purposes of road widening

(1) A roads authority may compulsorily acquire land the subject of a road widening order by means of an acquisition notice under the Land Acquisition (Just Terms Compensation) Act 1991 without the need for a proposed acquisition notice under that Act.

(2) An acquisition notice may not be issued for the purposes of this Division unless the acquiring authority is satisfied that the land is clear of any building or structure.

(3) However, an acquisition notice is not invalid merely because of the existence on the land of any building or structure as at the time the notice is given.

(4) Nothing prevents an acquisition notice being given under this Division at the same time as notice of the road widening order is given to the owner of the land.

Division 4 Crown to compensate councils for compulsorily acquired public roads

204 Council entitled to compensation if Crown compulsorily acquires public road

(1) A council is entitled to compensation under this Division for a public road owned by the council that is acquired by the Crown by compulsory process.

   (a) the cost of acquiring land for the purposes of a new road, and
   (b) the cost of constructing the new road, and
   (c) the cost of erecting or constructing, in, on or over the new road, new conduits, poles or structures to replace those that are situated on the road acquired by the Crown and can no longer reasonably continue to be used by the council.

(3) Any compensation received by a council under this section may be used only for acquiring land for the purposes of the new road or for constructing the new road and erecting or constructing new conduits, poles and structures.

206 Compensation where council does not have to construct new road

(1) This section applies except where it is necessary for the council to construct a new public road to replace an existing public road that has been acquired by the Crown by compulsory process.

(2) The amount of the compensation to which a council is entitled under this section is the sum of—
(a) the money (if any) that the council paid for the acquisition of the land, and

(b) the money that the council has spent on the construction of the road, and

(c) the money that the council has spent in erecting or constructing, in, on or over the road, any conduits, poles or structures for use in connection with any water, sewerage or drainage work of, or any trading undertaking carried on by, the council, which, at the time of the acquisition by the Crown, were owned and used by that council in connection with any such work or trading undertaking,

but does not include any money spent on the maintenance, replacement or repair of the road or any such conduits, poles or structures.

(3) Compensation is not payable under subsection (2) (c) to the extent to which any such conduits, poles or structures can reasonably continue to be used by the council in connection with any such work or trading undertaking.

unless the roads authority notifies RMS that it is prepared to accept a lesser amount.

208 RMS may provide financial and other assistance to roads authorities for by-passes etc around classified roads

RMS may grant financial assistance to a roads authority for the purpose of meeting costs incurred, or to be incurred—

(1) The cost of carrying out road work on a classified road forming the boundary between local government areas is to be apportioned between the councils of those areas—

(a) in accordance with an agreement entered into between those councils, or

(b) in the absence of such an agreement, in such manner as RMS considers will result in the road work being carried out most efficiently.

211 Contributions to RMS by Transport Asset Holding Entity and State Transit Authority

Transport Asset Holding Entity of New South Wales and the State Transit Authority must pay such amounts to RMS as RMS determines from time to time as contributions in relation to—

(a) in the case of Transport Asset Holding Entity of New South Wales—the movement of rolling stock over railway lines vested in or owned by that corporation on the Sydney Harbour Bridge, and

(2) In fixing the amount of the tolls and charges to be levied in connection with traffic that uses the Sydney Harbour Bridge, RMS must have regard to movements in the Consumer Price Index, being—
    (a) the index known as the “Weighted Average of Eight Capital Cities: All Groups Consumer Price Index” that is published quarterly by the Australian Bureau of Statistics, or

(6) If a statutory declaration supplying the name and address of a person for the purposes of this section is produced in any proceedings against the person in respect of the driving offence to which the declaration relates, the declaration is evidence that the person was, at all relevant times relating to that offence, in charge of the vehicle involved in the offence.
(7) A relevant nomination document or statutory declaration that relates to more than one driving
offence is taken not to be a relevant nomination document or statutory declaration supplying a
name and address for the purposes of this section.

photograph includes a digitalised, electronic or computer generated image in a form approved by RMS.

(1A) The fact that a camera takes a photograph of a vehicle only if it is driven in contravention of a requirement to pay a toll, or records the information referred to in paragraph (b) of the definition of approved toll camera only on such a photograph, does not prevent the camera from being an approved toll camera.

(2) In proceedings for a toll offence—

(a) a photograph tendered in evidence as a photograph taken by means of the operation, on a day specified on the photograph, of an approved toll camera installed at a location specified on the photograph, and as bearing a security indicator of a kind prescribed by the regulations, is admissible and is to be presumed—

(c) that on that inspection the approved toll camera was found to be operating correctly.

(4) A person who acquires information in the exercise of functions in connection with the use or operation of an approved toll camera must not directly or indirectly make a record of or make use of the information or divulge it to another person, except in the exercise of functions—

(5A) Subsection (5) applies only in respect of information acquired in relation to a vehicle driven in contravention of a requirement to pay the relevant toll.
If a certificate under subsection (3) is tendered in proceedings for an offence, evidence—

(a) of the accuracy or reliability of the approved toll camera, or

(b) as to whether or not the camera operated correctly or operates correctly (generally or at a particular time or date or during a particular period),

is not required in those proceedings unless evidence sufficient to raise doubt that, at the time of the alleged offence, the camera was accurate, reliable and operating correctly is adduced.

For the purposes of this section, an assertion that contradicts or challenges—

(a) the accuracy or reliability, or the correct or proper operation, of an approved toll camera, or

(b) the accuracy or reliability of information (including a photograph) derived from such a camera,

is capable of being sufficient to rebut prima facie evidence or a presumption, or to raise doubt about a matter, only if it is evidence adduced from a person who has relevant specialised knowledge (based wholly or substantially on the person’s training, study or experience).
